Some of them at least profess to see rays of bope in the situation in that they ex-pect to see an increase in the sale of local stocks to those who have been patronizing the eastern market. Local brokers prefer to handle local stocks in the main, as that is a field in which they have more opportunities to watch In the main, as that is a held in which they have more opportunities to watch conditions, and if local business in-creases, as they expect to take the place of eastern buying and selling by telegraph, they will be contented. There was no gnashing of teeth and very little wailing on broker's row to-day over the strike troubles.

RESIDENCE BURGLARIZED.

Robbers Enter Through Transom and Tear Things Up but Take Little.

The residence of Ernest Bamberger at 38 D street was broken into and burglarized yesterday afternoon between four and five o'clock, while the family was absent. Mr. and Mrs. N. C. Christensen, who live next door to the house on the west, heard a noise of breaking glass and Mr. Christensen went out to see what caused the crash. He must have passed the crouching burglar in the refrigerator on the porch of the Bamburger house, as he tried the door and found it locked and con-cluded it must have been a cat. At 9 o'clock in the evening the servant came home and tried to get into the house, but could not, as the kitchen door was harracaded. On investigation it was found that the house had been entered by burglars, by breaking in the transom, and the falling glass was caused by knockig the transom down, which caught against the door so that it could not be opened. The burglar fore things up and strew-ed contents of drawers, etc., all over tween four and five o'clock, while the

Judge Diehl sentenced him to five days in the city jail and, in the meantime, a physician will attend to his injuries. Lela Brawn, who is decidedly black, charged with battery upon Nettie Nei-son, also colored, was placed on trial this morning.
