

JACKSONVILLE VICTIMS.

Bodies of Two More Are Found and More May Be Recovered.

Work of Cleaning Up Goes On—Idle Negroes Ordered to Leave Town—An Appeal.

Jacksonville, Fla., May 7.—The bodies of two more victims of Friday's great fire were found today. The work of cleaning up the city and caring for the homeless is going on steadily.

Although no official appeal for aid has been issued, supplies of all kinds are arriving and being distributed. A number of contracts for new buildings have been let.

The announcement was made that the Windsor hotel, the Gardner building, the Baldwin building, and the opera house, will be rebuilt at once.

An order was formally promulgated today ordering the negroes to work or leave the city. This had the effect of increasing the number of idle negroes in the city, but some of the negroes are gambling, saying that they belong here and cannot be made to leave.

Dr. George Gebauer was seriously injured at noon, while aiding some workmen in pulling down the ruins of a building.

The relief association fed 6,000 people today.

Mayor Davidson today received the following telegram:

"Atlanta, Ga., May 7.—The Baltimore & Ohio railroad will be glad to transport free over its own railroads the relief of clothing or food supplies for the relief of your sufferers."

W. N. MITCHELL, "Commercial Freight Agent."

The following appeal has been issued by Jacksonville Transportation men:

"Jacksonville, Fla., May 7.—To the railway and steamship fraternities: Over one thousand acres in the heart of the residence, business and most populous portions of Jacksonville were completely destroyed by fire on May 5. About one thousand of our people are homeless, and among them are many railway and steamship employees and their families.

"We therefore issue this appeal for as much help for the relief of such of our unfortunate brethren as they are able to give without embarrassment to themselves or families, assuring the donors that it will be expended to relieve real distress among the families of the railway and steamship employees.

Contributions may be sent to the Jacksonville Transportation men's relief association, Jacksonville, Fla. Signed

EASTMAN ON THE STAND.

Tells of His Relations with Grogan, Saying They Were Friendly.

Cambridge, Mass., May 7.—Interest in the Eastman murder trial was enhanced today by the fact that Mrs. Eastman, wife of the defendant, was on the stand most of the forenoon. She was visibly affected by the minute examination as to the incidents immediately preceding the tragedy and regarding certain statements made by previous witnesses. At times she wept.

Mrs. Eastman said she did not remember any such incident as that related by Mrs. Grogan, who testified that Eastman had said Grogan's days were numbered. Witness never said that Eastman had been drinking nor had she ever heard Mrs. Grogan say he had been drinking.

Mrs. Eastman testified that in June the lock on the tomb containing Grogan's body had been tampered with, but no one had asked permission to open the tomb.

Atty. Gen. Bowdoin declined to cross-examine Mrs. Eastman.

The defendant, Charles R. Eastman, then took the stand to testify in his own behalf. He confirmed his testimony to answering the questions of his attorney. He said that his relations with Grogan always were pleasant and that from the fall of 1899, they were on terms of friendly friendship.

He denied that any quarrel took place in November, 1899, that any jealousy existed because Grogan had taken the business left by their father-in-law, or that he had ever said in the presence of Grogan's mother that Grogan's days were short.

Witness related the incidents of target practice on the morning of July 4 of dining and going to the swimming races in company with Grogan.

Eastman said he found the races slow and started back home with his wife. He denied that he urged Grogan to return with him, but said Grogan overtook him on the way home. Eastman could not tell whether it was Grogan or himself who suggested a resumption of target shooting. In the main Eastman's story of the shooting of Grogan was not very different from that given by witnesses during this trial who heard Eastman's statement immediately after the event. He said that his recollection of what happened after he and Grogan clinched was very indistinct.

"There was," he said, "a struggle for the possession of the gun. There was confusion, exclamations, noise and cries, and Grogan burst out with something like 'Damn it, I am shot.' Finally I got possession of the revolver, after a struggle and Grogan was brought to his knees. I do not know exactly what happened after that, because of the fright and horror and of the agonized cries. I tried to get him to get up, while on his part he said in the most agonized tones, 'Oh, oh, oh.' I next remembered that we were running and that we came together again for another struggle. Some weapon, I don't know what, lay on the ground, and I tried to kick it out of the way."

Eastman testified that he had never entertained a feeling of malice or jealousy toward Grogan and had never had any thought of injury.

GERMANY AND RUSSIA.

Stories that Their Relations Are Strained Are Discredited.

London, May 7.—The rumors that the relations between Germany and Russia are strained on account of slight on the part of Count von Waldersee are discredited at the foreign office.

Though it is admitted in Downing street that the majority of the powers are considerably irritated by the field marshal's numerous expeditions, it is not believed that this has led to any definite misunderstanding. It may be authoritatively stated that if the Brit-

Condition of May Winter Wheat.

New York, May 7.—Carefully consolidated reports from the American Agriculturalists' corps of observers make the May 1 condition of winter wheat 91.5 against 93.5 last month and compared with an average at this date for five years of 84. April was wholly favorable for the development of the wheat crop over the greater part of the belt.

The spring wheat crop has been sown under highly favorable conditions, and the average is fully equal to that sown last year. There has been an abundance of early moisture over the whole belt except in a limited portion of South Dakota.

The condition May 1 of wheat in California was 90.

PENSION AND PATENT.

Walter S. Clawson Gets Former and Selden I. Clawson Latter.

A Washington special to the "News" today announces that Walter S. Clawson of Salt Lake has been granted a pension by the government of \$6 a month for injuries sustained while serving in the ranks of Uncle Sam's volunteers during the war with Spain. It will be recalled that Mr. Clawson had a leg broken by a frigate horse falling upon him at Fort Douglas soon after his enlistment.

The same dispatch conveyed the information that a patent on a toy had been granted to Selden I. Clawson, late minute clerk of the Utah House of Representatives. The device said to be a very unique one—one that will materially increase the Christmas burdens of Santa Clause, please fond parents and amuse the children. The Messrs. Clawson are brothers, and their receipt of a pension and patent on the same day may be good news to their families.

WAY TO STOP GAMBLING.

Judge Timmony Pronounces a Whole-some Sentence on "Teddy Whack."

The gamblers were given a death blow this afternoon by Judge Timmony when Ed Stowell, known as "Teddy Whack," pleaded guilty to the charge of running a gambling house. When Stowell appeared in court yesterday afternoon he was so drunk he could hardly navigate, and his case was continued until today. When the court came to read him by Prosecutor Diehl, Stowell said, "I am guilty."

"Stand up," ordered the court. "The sentence of the court is that you be confined in the city jail at hard labor for and during a period of three months."

Stowell was visibly staggered by the severity of the sentence, and when it dawned on him that it was a case of days and not dollars, he turned pale and sank into a seat. He was expected to receive a fine of \$50 or \$100. Judge Timmony disposed of the case, he is determined to do all in his power to assist the mayor and police to put a stop to gambling in this city.

In the opinion of the police and those associated with them that imposing fines in such cases is no check whatever to gambling in the city. Those who are engaged in it today are not at all concerned as to what the police know what to expect if they are caught and convicted.

Before Stowell was taken to the rookery, he communicated with friends and sent them out to secure bondsmen. He engaged J. M. Hamilton, and it is his intention to appeal his case in the hope of having the sentence cut down a little bit.

IDAHO SHEEP INSPECTOR.

T. G. Lowe Explains the Situation—Utah Needs Law Regulating Diseases.

T. G. Lowe, sheep inspector of the state of Idaho, is in Salt Lake on matters of personal business and incidentally to talk over the situation with some of the Utah sheep men and to point out the mistake he thinks they are making in persisting in driving their sheep into Idaho. Mr. Lowe states that the sheepmen of Idaho including the sheep of that state from Idaho is in full operation, which reads in substance that when the governor has any reason to believe that the sheep of any other state is infected with scab he can by proclamation exclude the sheep of that state from Idaho. "Now the great mistake that the sheepmen of Utah are making," said Mr. Lowe, "is their having a law regulating the diseases of sheep and providing for their extermination. For just so long as there is no law in Utah making the treatment of disease obligatory upon the owners of sheep, just so long will the Governor of Idaho have reason to believe that disease is prevalent in Utah or other states to which he is exposed to infection. In Idaho we have a law that compels all owners of sheep to dip their herds even if they are healthy and if they are infected they are obliged to dip them twice. Now it would be manifestly unjust to force this expense and trouble upon our own flock masters, only to render it a waste of time by permitting infected sheep from Utah and other states to come in and spread the disease among them again. We certainly ought to have the right to impose upon non-resident sheepmen the same things that we require of our own sheep owners."

Continuing, Mr. Lowe stated that the absence of any law in Utah regulating the diseases among sheep, puts a ban upon Utah sheep, which will never be lifted until such a law is put into operation and enforced.

WANTS DAMAGES.

Axel Olsen Sues U. P. Receivers for Injuries Sustained by Son.

Trial was commenced before Judge Morse and a jury this morning of the damage suit brought by Axel Olsen against S. H. H. Clarke, Oliver W. Mink, E. Elmer Anderson, John C. Dowd and Frederick R. Condit, receivers of the Union Pacific Railroad company, for \$1,500, being the amount that plaintiff considers himself to have been damaged on August 24, 1899, by the

backing of one of defendant's trains at the Ninth North street crossing, where by his infant son was thrown to the ground and his foot so severely crushed that it had to be amputated. The case was on trial all day and will probably occupy the greater part of tomorrow. Plaintiff is represented by Attorneys Wilson and Smith, and defendants by P. L. Williams, J. W. Whitecotton and George A. Smith.

SURVEYORS AT TOOEE.

Short Line Engineers Selecting Route of Leanington Cut-Off.

(Special to the "News.") Tooee, Utah, May 7.—There is much interest here today on the part of citizens by reason of the fact that a large corps of Oregon Short Line engineers arrived in town this morning and pitched their camp under the foot-hills just across City creek near the main wagon road to Stockton. No one in the party would discuss its object, but it is an open secret that it is engaged in running the line of the Leanington cut-off.

This is the first exhibition of real earnestness that the people of Tooee have seen come out of the talk about a new railroad through this place. With the construction of a railroad along the line now being surveyed from Gardula to Tooee, and on to Stockton, through Rush valley and East Tintic into the Sevier county, will come the abandonment of the road which runs up the Tooee valley between this city and Grantsville. It means also that the town is to have a railroad for itself, and that there will be an open outlet to the country beyond. It was stated authoritatively, but by one who claims to be in possession of positive information, that the building will begin the coming summer.

BUSINESS NOTES.

By the terms of a warranty deed filed in the county recorder's office Alviras E. Stoddard has transferred to Chas. H. Jenkins five by twenty rods of land on the south side of Second South street, between fifth and sixth East streets, for a consideration of \$5,500.

A. Y. Taylor, for a consideration of \$3,250, has conveyed to him by J. H. Moyle, O. W. Moyle and May P. Moyle, a half interest in fifty-four and five-twelfths feet by one hundred seven feet and one-half feet of ground with residence. The property is situated on the west side of First West street, between South Temple and First South streets.

The Co-operative Association of Utah has been organized in this city with capital stock of \$10,000, consisting of 200 shares of the value of \$50.00. The object of the association is to conduct a general mercantile business on the English Rochdale co-operative plan. Each member of the association can own only one share of the capital stock, of which 120 shares have been subscribed for. The profits accruing, after paying the necessary expenses in running the business, will be divided pro rata among the members in proportion to their purchases, that is after an amount not to exceed the bank rate of interest on savings deposits has been paid on the paid up capital stock. The enterprise is the second one of the kind in Salt Lake City. The officers of the association are as follows: C. R. Savage, president and director; O. C. Beebe, vice president and director; H. T. McEwan, treasurer and director; H. Elmer Caldwell, secretary. The board of directors is further composed of Joseph C. Sharp, J. Fred Daynes, Thos. Adams, William Service, Wm. J. Gracie, and John P. Bennett. The Rochdale co-operative plan is the first of the kind in Utah. It is managed by Arthur F. Savage, Frank H. Buey is manager. The company's store is at the corner of E and Fourth streets.

At the special meeting of the stockholders of the Cotton Wagon and Machine company, held yesterday afternoon, it was decided to amend the articles of incorporation so as to permit an increase in the number of shares from 2,000 to 3,000, and the capital stock from \$200,000 to \$300,000.

SETTING OF COURT CASES.

Judge Morse will make a setting of cases on Saturday, both jury and non-jury.

LATE LOCALS.

John F. McKinnon and Ruth Tyson, both 23 years of age and of Randolph, Rich county, were today issued a license to be married.

The announcement that Fountain S. Johnson was one of those who participated in the theatrical contest in the First ward on Sunday night was incorrect. Mr. Johnson withdrew from the competition ten days ago.

In the matter of the estate of William M. Shepard, deceased, Judge Hall this morning approved the final account and ordered the distribution of the estate.

The Salt Lake Glee club meets for rehearsal this evening at Fergus Coalter's.

INFORMATION WANTED.

N. Johnson of 1223, Washington avenue, Racine, Wisconsin, is very anxious to hear from his brother Rasmus H. Jorgenson, who is a resident of Utah.

Mercury AND Potash.

Everybody knows that Mercury is a dangerous medicine even when administered in very small doses and few constitutions stand it for any length of time. Potash produces inflammation of the stomach and bowels, and a dangerous form of dyspepsia and often chronic diarrhea follow its use.

Now, the doctors will tell you if you have Contagious Blood Poison you must take these minerals for two years or longer; first, a course of Mercury, and when your teeth get so sensitive and sore that you can't eat, and the gums have a spongy, unnatural appearance, you are told to stop and a change to Potash is made. When the stomach rebels you are put on Mercury again, and so on ad infinitum, or until the system becomes so thoroughly saturated with these poisonous drugs that the most disgusting sores break out on the body, the bones become diseased, and the muscles and joints are racked with the most torturing pains. Mercury and Potash drive the eruptions and blotches from the skin, but the virus remains in the blood and the reappearance of the old symptoms and the occasional sore mouth show that the poison is still active, and you can never hope to completely eradicate it by this method of treatment.

When I was about twenty-one years of age, or slightly more, I contracted Blood Poison in a bad form, and am satisfied that the rapid progress the disease was making would have made me a life-long invalid or ended my life. As my system came under the influence of S. S. S., the sores, blotches and pimples gradually disappeared and no evidence of the disease was left. I am now thirty-nine years old, and have seen no signs of it during the past eighteen years. W. M. E. S. S. does all you claim for it.

S. S. S. is the only purely vegetable blood purifier known, and we offer \$1,000 for proof that it contains any mineral ingredient whatever. The general health improves as the Specific purges the system of impurities, and as new, rich blood begins to flow in the veins the unsightly sores and other evidences of blood poison disappear; strength returns and you are forever rid of this loathsome disease.

Our Home Treatment Book, which contains full particulars of this disease, its symptoms, different stages, etc., of this disease. We will mail you a copy free.

If you need advice or special directions, write our physicians; it will cost you nothing and may hasten your cure.
