

## TAFT ROAMING AMONG BIG TREES

Visiting Famous Mariposa Grove  
On His Way to the  
Yosemite.

### SPEAKS IN PRAISE OF GOLF

Recommends it to Gentlemen Over  
Fifty Who Need Something  
To Do.

El Portal, Cal., Oct. 6.—President Taft is safely tucked away tonight in this remote little settlement at the foot of the Sierras and near the gateway of the Yosemite valley, one of the garden spots of the world.

Clad in khaki riding breeches, soft shirt, khaki coat, boots and cap, President Taft tomorrow morning will start out of El Portal on a three days' trip of sightseeing. By stage and on foot of that park to admire its imposing scenic splendor.

The visit to the big trees, said to be the oldest and largest of living things, came first in Mrs. Taft's itinerary. Leaving by coach early tomorrow morning and his party will be driven to Wawona at the edge of the grove where real monarchs of the forest grow to an altitude of more than 200 feet, and more than 100 feet in circumference at the base.

Mr. Taft will be driven through a tunnel cut through the base of one of the old trees which is said to have been standing from 2,000 to 3,000 years. The forenoon of Friday will be given over to the big trees, the president spending Thursday night at the hotel in Wawona.

### FEELS LIKE A BOY.

At Modesto a great crowd greeted the president at noon and he spoke briefly, saying:

"It's very good of you to come out and give me this cordial welcome this morning. We had a pretty strenuous day in San Francisco yesterday and today I feel like a boy out of school after an examination. I don't want to do anything but smile and think that it is over. However, it's very pleasant when you are going through it."

"I am glad to see you and to look into your faces and to know that you are all looking forward to accomplishing something and becoming even more well-to-do than you are now, for that is the American spirit that I find all over the country. And I am glad to know that it is in California as well as in Washington, and in Idaho, Montana, and even in Utah, among the Mormons. It makes a man proud to belong to such a race, for we are a distinctive race."

On Friday afternoon the president will enter the park from one of the highest points, and after a trip to all the show places of the upper levels, will begin a descent to the floor, which is inclined by almost perpendicular cliffs of stone more than 3,000 feet in height. It will be the president's first trip into the Yosemite, and he has been looking forward to it for months, both as a sightseeing experience and as affording three days' rest from touring crowds and speechmaking.

### DISPENSES WITH ESCORT.

When the park officials heard that the president was coming they arranged to have troops of United States cavalry act as his escort for the day along the high trees and the two days in the valley. Mr. Taft was informed of the plan at San Francisco, and he asked at once that the escort be dispensed with. He is anxious that the trip through the park should be devoid of spectacular features, and that his visit should be relieved as much as possible of an official aspect. The president was pretty tired from his strenuous day in San Francisco, Oakland and Berkeley yesterday, and retired early tonight in the little hotel here.

John Muir, the noted naturalist and zoologist, who is the recognized authority on all matters of the Yosemite, joined the president's party at San Francisco this morning and will personally explain the wonders of the park and valley to Mr. Taft. The

## WANTS HER LETTER PUBLISHED

For Benefit of Women who  
Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it would help me, and I must say it did help me wonderfully. My system is now in perfect health, and I grew stronger, and within three months I was a perfectly well woman."

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound." Mrs. JOHN G. MOLDAN, 215 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

Yosemite recently was re-coded by the state of California to the United States and now is under the same control as the Yellowstone. The president visited the Yellowstone several years ago and during his present tour is adding the Yosemite and the Grand Canyon, in Arizona, to the long list of the world's wonders it has been his good fortune to see.

### MEMBERS OF PARTY.

Mr. Taft will be accompanied into the big tree grove and into the park only by members of his own party and a California delegation consisting of Gov. Gillette, Senator Flint and Representatives Needham, McKinlay and Engelbright.

When the date of the president's visit to the park was fixed there was great fear that his trip might be seriously marred by the suffocating dust which some times is encountered on the way in and out during the dry seasons of the year. Rains during the last 10 days, however, have fortunately served to put the roads in the best of condition and also to provide a new supply of water for the falls which at this season have but small semblance to the rushing, pitching cataracts of the spring.

The ride into El Portal this afternoon furnished a foretaste of the scenery that the next three days have in store for the president. Leaving Merced at 2:30 p. m., after an uneventful run down the famous San Joaquin valley, the president's train began an 80-mile run to the terminus of the Yosemite valley railroad at this place. For more than three-fourths of the way the train wound along the Merced river with its series of waterfalls and kept continuously climbing from the level of the sea to a height here of more than 4,000 feet. The president made several car-and speeches at thriving little California cities between San Francisco and Merced, and at the latter place was escorted to the courthouse, where he made a brief address to a big throng. All business in the town was suspended while the president was there.

At Merced the president was presented with another golf stick. It was made of eucalyptus wood, gold mounted. The presentation called out a golf speech in which the president suggested that the unirrigated land of the west be turned into open golf links for the public.

### IN PRAISE OF GOLF.

Mr. Taft said:

"I am very much touched by your kindness in giving this to me—this memento of my visit. It has reference to the game of golf which I am very fond. The game of golf is an old Scotch game, played in Scotland by everybody from boys to old men, and from the poorest to the wealthiest. They have what they call open links, that is, golf grounds devoted to the public, and I sincerely hope that in this country the game will spread."

"I suppose I am looking at some baseball fans equal to myself in that regard. I don't know how it is with you, but I have got beyond my baseball playing days."

"The game of golf, on the other hand, remains with you from 10 to 75. Indeed, I have played with a gentleman very near 80 and he beat me. It is a game that leads you to walk without realizing that you are walking. When you play a game of 18 holes and walk upwards of four or five miles there is only a pleasant feeling of fatigue and none of that violent exercise that you have in baseball or tennis. I am hopeful that out here you have land now irrigated that you can devote to this game. There is this about it: when you first see the game you will appreciate the tone of ridicule that generally attaches to a good-sized man chasing a quinine pill with a stick around a field; but after you have driven two or three holes at that ball and found that although it is considerably larger than a quinine pill, it is not large enough to hit it, you realize the training of character that there is in it."

"I don't know any game that is so provocative of profanity as golf. I do not know any game that makes one so ashamed of your profanity. It is a game full of moments of self-abandonment, with only a few moments of self-exaltation, and we Americans who are not celebrated for our modesty may find such a game excellent training."

"Certainly I think I am sure—that those gentlemen over 50 who are in need of something and do not know what, if they will only organize a golf club and get the golf sticks and golf balls and chase them around 4,000 yards every afternoon, they will become a great deal better contented with life and a great deal better satisfied with the condition in which the Lord has left them."

## MOROS NOT FIT FOR SELF GOVERNMENT

Col. Hoyt Recommends Estab-  
lishment of Territory in South-  
ern Philippine Islands.

### TO AID AMERICAN INFLUENCE

Mailed Post is First Law of the Land,  
And is No Peace With-  
out It.

Seattle, Wash., Oct. 6.—Recommending as a means of securing a permanent American influence in the Orient, the establishment of an American territory including the southern islands of the Philippine archipelago, Col. Ralph W. Hoyt of the Twenty-fifth United States Infantry, former commanding officer of the department of Mindanao, has tendered his resignation as civil governor of Mindanao province and has sent his final report to Washington.

In his report Col. Hoyt urges that the attention of the higher authorities be invited to the great difference in the actual conditions that exist in the Moro province as compared with the rest of the Philippines and that Congress enact such laws as will effect a permanent separation of the southern islands, including Mindanao, Sulu archipelago and Palawan, from the rest of the Philippine archipelago.

In discussing this question today Col. Hoyt said:

"The southern group of islands thus separated might be called the Mindanao plantation to designate it from the rest of the Philippines. It should be declared a territory of the United States, not a colony, to be occupied as a naval base. It should have a civil-military government similar to the present government of the Moro province, with a policy so plainly expressed that it will settle any question of independence or political agitation for annexation to the northern group. The natives might be assigned to the reservations, secured in all of their rights, under military protection."

"The rest of the territory should be divided into plantations and forest reserves open to occupation and development. The immense possibilities of increased production under this arrangement, the impetus given to labor and trade in establishing business on a permanent basis, would add to the arguments for the continued occupation of these southern islands by the United States, besides providing a permanent foothold of absolute American influence in the Orient."

"The Moros have no conception of representative government or of the meaning of independence, having no word in their language to give it expression. We have not yet built up a state or reached the mass of people in any general uplifting movement. The little schoolhouse has been started, but instruction is largely for the benefit of trained teachers or the desire of the natives to profit by or appreciate the advantages of education."

"The mailed post is the first law of the land—peace would be impossible without the actual presence of troops for this country is neither ready nor has it ever known any other form of government. The civil-military government, in which the government controls the armed forces, is indispensable now and will be for generations to come. A purely civil government is quite impossible and at the present time would carry with it untold misery and suffering."

Among those present were many Americans.

## S.S.S. THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, catarrhal troubles, weak eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the bones or joints developed. S.S.S., given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and strengthened their systems, and assisted each to grow into strong, healthful manhood or womanhood. S.S.S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S.S.S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, or persons of any age. Literature about Scrofula and any medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

What  
you want  
is an  
Edison  
Phonograph

Do not be misled. The  
only kind of sound-  
reproducing machine that is  
perfect is the one that Edison  
invented and the one that  
Edison makes.

It is the one with the  
smooth and perfect sapphire  
point, that doesn't require  
changing with each record  
and that doesn't scratch—  
two points alone that should  
influence your decision.

Only in the Edison do you  
find the music-reproducing  
idea at its best.

Don't take our word for  
it. Compare the Edison  
Phonograph with all other  
instruments side by side, on  
the same music, if possible,  
and then you will know  
better than we can tell you.

Edison Phonographs are sold everywhere in the  
United States at the same price, \$25.00 to \$100.00.  
Standard Records, 33 1/3 and 78, are sold  
everywhere at the same price, 10c to 25c.  
There are Edison dealers everywhere. Go to  
the nearest and hear the Edison Phonograph play  
both Edison Standard and Amberol Records.  
Get complete catalogs from your dealer or from us.

NATIONAL PHONOGRAPH COMPANY

2 1/2 TIMES  
AS MUCH LIGHT  
FOR THE  
SAME MONEY

TUNGSTEN LAMPS make electric light much cheaper. They have two and one-half times the efficiency of the ordinary carbon lamp hitherto in general use. The filament is made of a rare metal called tungsten, which yields an intense brilliancy at low cost. In shape and size the bulb is just like any other incandescent lamp. Why not try a Tungsten lamp yourself? Get one of the 25 C. P. size and use it somewhere in your house or place of business instead of one of your carbon lamps, then observe the great difference. Note the clear white light, exactly twice as brilliant and costing you one-fifth less for electricity. Tungsten lamps are destined to displace all others, for both store and house lighting.
