Distinguished Japanese Architect Says Responsible for Nearly All Earthquake Damage.

CONSTRUCTION VERY FAULTY.

Misguided Use of Hollow Tiling Caused Great Spread of Fire.

San Francisco, June 18.—"Disheveled mortar—corrupt conglomeration of mud and lime—was responsible for nearly all of the earthquake damage in nearly all of the buildings of the Imperial university of Tokyo and one of the most distinguished members of the Japanese government to investigate the effects of tremors and fire. After investigations covering a period of weeks, Dr. Nakamura has completed his labors and will sail on the Korea Wednesday to report his conclusions to his government.

"I find," said Dr. Nakamura yesterday, "that much of the damage to San Francisco during the earthquake was due to the use of hollow tiling in the construction of buildings. This is a very faulty method of construction, and it is the cause of the great spread of fire during the earthquake."

Los Angeles, June 18.—Mrs. Arilla Schreck, who with Ernest G. Stockpile, is charged with the murder of her husband, told a statement today concerning the crime in which she asserts that she is a victim of hypnotism by Stockpile. She is quoted as saying:

"I tell you I was hypnotized. I did not realize what a terrible tragedy was being enacted until I awoke this morning. I never of my own free will would have consented to my husband's death. Ernest Stockpile exerted a peculiar influence over me. At times I seemed dazed and uncertain of my identity. He talked to me in such a way that I believed every word he said and looked forward to a life of happiness with him."

"Yesterday when I went to the cemetery and saw the remains of my husband being lowered into the grave, a shock came over me and I seemed to realize that I had committed a crime. KING HAAKON GIVEN ENTHUSIASTIC RECEPTION

Christiania, June 18.—King Haakon and Queen Maud journeyed today from Molde to Christiania and were received everywhere with enthusiasm. Their greeting at Christiania was particularly enthusiastic. Crowds thronged the streets and cheered the king and queen whenever they appeared. During the king's speech at Molde yesterday, in acknowledging the welcome extended to him, he said:

"I think you in behalf of myself and wife."

The fact that the king used the word "wife" instead of "queen" has attracted considerable attention. The king is greatly pleased with the democratic spirit of Norway.

An interesting feature of the day was the arrival here this morning of the Norwegian delegates from America to King Haakon's coronation. A large crowd gathered at the quay, where numerous American flags were displayed, and welcomed the visitors warmly. The delegates proceeded later to the monument erected to the memory of Henrik Arnold Wereland, the Norwegian poet, which was covered with American flags, and placed a number of wreaths at its base.

Prof. Han G. Stub of Hamline, Minn., in behalf of the visitors, delivered an address conveying to the Norwegians friendly greetings from their countrymen in America and congratulating Norway on attaining its independence.

WATER STREAMS CAN BE PROTECTED

Fish Commissioner Sharp Talks On Screenless Irrigation Ditches.

THE LEGISLATURE MUST ACT. State and Not Counties Must Take Up Work and Large Appropriation Should Be Made.

It will be another month before fishing in Utah reaches good form. This applies to all the main streams. The only exceptions are the small spring creeks, that run clear water when the general supply is muddy, and to side canals where the water is so near its source in the snow banks that it doesn't gather up a bulky supply of dirt and debris.

Reports poured in abundantly from the streams today, and not a single fish was reported from any main canyon stream. Fisher Harris did well but when cornered Fisher Harris confessed that he did it with a little assistance. Harris said he had been fishing there for some time.
