

EMPLOYERS AND EMPLOYEES.
Mr. Ripley Says Latter Are Indifferent To Interests of Former.
 Chicago, Jan. 4.—"One of the most serious conditions which the country is facing today, is the indifference and disregard which the employee has for the interests of the employer," said E. P. Ripley, president of the Atchafalaya & Santa Fe in telling of the reasons which had led his company to establish a pension system affecting nearly 30,000 employees.

"The Santa Fe," continued Mr. Ripley, "hopes to establish esprit de corps among its employees, and expects a liberal pension system will have this tendency. We have on this system as much if not more loyalty than most railroads enjoy, but it is not what it should be. The lack of loyalty among employees is a condition from which all corporations are suffering, and it presents a most serious problem."
 Asked for a reason for this condition, Mr. Ripley said:
 "Too much prosperity, or at least too much business. The demand for labor and for all classes of the employed was never so great, and never before did the supply fall so short of the demand. The demand has become so sharp in the railway service that many of the employees have assumed a scornful independence and do not seem to care about the interests of their employers. The necessity of business has compelled us to hire many new men, who are not as competent as the old men. Add to this the fact that they know they will have no difficulty in getting work elsewhere, and it is difficult to get them into good shape and to maintain a proper discipline. The Santa Fe is trying to overcome this tendency to

disregard the company's interests by showing the men that the company has their interests at heart."

NOT BLOOD STAINS.
Noted Finger Print Expert Says Marks Are From Wall Paper.
 Kansas City, Mo., Jan. 5.—The red marks on the wall of the room in which Thomas Manning was murdered last week were not made by the bloody fingers of the murderers. W. C. Mc-

Laughery of the Fort Leavenworth federal prison, a noted finger print expert, came to Kansas City to examine the marks and said there was no trace of a finger's impress and probably the marks were not from blood but from the running of the colors of the wall paper.

TWO MEN KILLED
In Wreck on the Rio Grande Southern Railroad.
 Durango, Colo., Jan. 4.—Raymond A. Heiler and Early Geter, two car repairers in the employ of the Rio Grande Southern Railroad company, were killed in a wreck on the Perlin's Peak branch of the Rio Grande Southern today.
 The men were on their way to repair a water car when the engine they were traveling on struck a broken rail and rolled down an embankment.
 The two men were instantly killed and

Engineer Ellis Roberts badly hurt. The fireman jumped and escaped without injury.
TO DISCUSS JUVENILE COURTS.
 Chicago, Jan. 4.—The International Juvenile court society was formed here today. Judge Ben R. Lindsay of the juvenile court of Denver, who issued the first call for a committee to consider the plan, presided at the meeting today.
