

EDITORIAL NOTES.

—The Napa (Cal.) Register says George Juarez shot a veritable white blackbird recently.

—La Belle France is in trouble, and in order to gain the sympathies of Europe is likely to resort to Thiers.

—Recently 2,000 bicyclists met at Hampton Court, near London. On the two previous days Mr. T. H. Wilkinson performed the unrivalled feat of covering 200 miles in twenty-three hours and nineteen minutes. He is under nineteen and weighs one hundred and thirty-five pounds.

—It is affirmed that French lady art students in Paris do not join classes of men when studies are made from nude life, but American girl students of art in that city do. Which must arise from the fact of the more successful cultivation of "cheek" by American girl students.

—Does anybody want to get rich? Here is a chance, from the New York Journal of Commerce—"There has been for many years a standing offer of many thousand pounds, made by the English Association of Manufacturers, for the discovery of a preparation that will remove a dyed or printed color so completely and without injuring the fabric as to allow of a further unrestricted use of it in a new design."

—The Washington Star of June 21 says, "The statement is made that the Rothschilds in London have cabled Joseph Seligman in New York, and the latter has advised Secretary Sherman that if the refusal of the lessees of the Grand Union Hotel at Saratoga to entertain Mr. Seligman as a guest is to be construed as a proscription of the Israelites in this country, they (the Rothschilds) will hereafter refuse to have anything to do with American credit."

—The New York Herald of June 21 says, "The Indian uprising in Idaho is reported to be owing entirely to the mismanagement of the agent at that point. It seems that for six years he has pursued a policy which has at last driven the Indians on the war path and led to the killing of innocent persons. In nine cases out of ten Indian agents are responsible for Indian wars, and unfortunately they always escape. If the Indians would only wreak their vengeance on them the country would hardly complain."

—The Lexington, Mo., Press says: "A very remarkable skeleton was dug up in the ground belonging to the Fair Association on Wednesday. The experts who examined the bones conclude, from their length, that the man to whom they belonged must have been ten feet in height. The skull was badly fractured, but the jaw-bone was preserved, and is twice the ordinary size of the jaw-bone according to men in these days. From this it is probably not too bold a deduction to conclude that the skeleton is that of a female; but the sex, owing, unfortunately, to the destruction of the skull, is difficult to determine. One thing seems certain, that the specimen does not date back many centuries."

—The London cable dispatch of June 23 to the New York Herald says England has delightful weather at last, with the exception chiefly of a terrible thunderstorm in Scotland. Emperor Dom Pedro drives furiously around London at five o'clock in the morning. Mr. Buckstone, the veteran comedian, actor, manager and author, seventy-five years old, is making his farewell provincial tour. The death of Hon. Mrs. Norton (Lady Maxwell) was caused by rheumatic gout, aggravated by taking a sudden cold while sitting at an open window.

—The New York Herald's Washington correspondence, June 22, states that General Sitting Bull has become an international nuisance. The Blackfeet in Canada, upon whose hospitality Sitting Bull has palmed himself, ask the Dominion Government to have him returned to the United States, as trouble is otherwise apprehended. Lord Dufferin represents the case to the British Cabinet in London, the Cabinet presents the subject to the British Legation in Washington, and the Legation presents it to the United States Government, requesting that steps be taken to get Sitting Bull back in peace. Meantime treaties and precedents are silent on this vexed question.

—Hay is two cents a pound in the Black Hills. Winter price, ten cents. Flour now twelve dollars a hundred.

—Twenty Utica girls blew horns before the doors of new married couples. The Judge spoke of it as "the shocking kind of depraved depravity."

—A Washington paper remarks that Judge Hilton's bill against the Jews brings to mind the facts that in 1863 General Grant issued an order excluding Jews from the lines of the army of the Tennessee; that some years ago certain fire insurance companies prohibited the Jews from taking out policies in them; and that very recently the Bar Association of New York City refused to admit an applicant for membership because he was a Jew. It also brings to mind the fact that still more recently two Salt Lake lawyers wanted to refuse a man admission to the bar because he was a "Mormon."

—The Arizona Miner of June 8 says, "The best legal talent in California declares that the word desert embraces land only of a barren waste, and that where there is dampness enough in the ground to produce grass, that excludes land from being taken up under the Act as desert lands. It is held that grass growing upon land is a crop, therefore we think it would be well for those of our citizens, who are interested, to look into the law before expending money and time on an uncertainty."

—The Omaha Herald of June 26 says, "It turns out, as we predicted it would turn out when the Indian outbreak of the Nez Percés was first announced, it is all due to the systematic robbery of the poor Indians, who, driven from their homes by Christian gunpowder, are plundered of the pittance which they were compelled, by the same merciless power, to receive for them. It is the same old, old story. Bishop Whipple has told it, over and over again, with the crushing eloquence of truth, and no man can go amiss who predicts in any given uprising of the red men that it is the fruit of wrongs and outrages heaped upon them by white men until these hopeless and helpless beings are reduced to despair." From which it appears that the white man is not an "uncertain" being, but certain to prove a rascal, if he has a chance.

—The Sacramento Record-Union says of the leader of the non-treaty Nez Percés Indians, "Joseph is an Indian who thinks he has a religious mission to his race. He regards himself as a sort of Prophet or Messiah, and as usual in such cases he advocates the liberation and restoration of the Indians by the extermination of the whites. He has been preaching his peculiar doctrines, which embrace a mixture of perverted Christianity and Indian superstition somewhat after the style of the Chinese Tai-Pings, for several years, and though there have not been wanting those who apprehended trouble from the tendency of his doctrine, the apparent indifference of the majority of the Nez Percés to the new creed, and the open ridicule with which it was met by others, lulled suspicion, and caused the settlers to view the movement with apathy. It now seems that Joseph's band and the Salmon River Indians have united for an offensive campaign."

—New York and several other States have adopted regulations to prevent the defacing of rocks, cliffs, etc., by advertisements. An Says exchange, "For years the great army of traveling advertisers have been desecrating the face of nature in that and other States in the most indiscriminate and barbarous fashion, till hardly a piece of natural scenery in the country has been free from their sacrilegious defacement. Miles upon miles of their hideous appeals to the consumptive, the dyspeptic, and the 'victim of summer complaint,' have tortured the eyes of those who have ridden over our great railway lines, till it is an actual pain to gaze upon the scenery as one speeds over the rails in almost any direction. Fences, rocks, cliffs, barns, and, when these have given out, immense bill-boards erected for the purpose, have appealed to the eye of the traveler, and he who rode or ran could not well help reading. The effect of this sort of adornment has been to ruin much scenery that was naturally beautiful, and to materially damage much more."

—The Dallas Commercial gives particulars of an attack made by a snake six feet long and as thick as a man's wrist, upon a man in a buggy. He fired at it, when it made its way up into the vehicle, coiled the lower part of its body, and attempted to launch its deadly fangs into the man's throat. He succeeded in shooting and killing the reptile. This was not done at Salt Lake, and the man was not a Gotham sensational journalist. There may, therefore, be some truth in this snake story, as the "man in the buggy" was not troubled with dipsomania.

—How does it read for a prominent New York paper to assert of a pugilist and gambler that he is as sagacious, as honest and as statesmanlike as any other member of the Legislature of the Empire State, that in these things the said gentleman is the peer of any of his fellow senators? The New York Times says of the Hon. John Morrissey, "He has shown a degree of robust common sense and of clear and political insight in dealing with delicate and important questions, which have hardly been equalled on either side of the Senate."

—The Washington Star of June 9 says, "The State department has received official notice from the American consul at Cape Town, that the colony of Transvaal, in South Africa, has been annexed to the British dominion by express desire of the inhabitants of the colony. They have attempted since 1852 to maintain themselves as an independent republic, but the warlike tribes constantly menacing their territory, have driven them to ask British protection. Sir Theophilus Slapstone acted as H. M. commissioner in effecting the transfer, which was celebrated with great rejoicing by the people."

If the salt in the ocean should be spread over the land it would cover it to the depth of 900 feet, but it would kill business. So it is just as well, perhaps, to leave it where it is.—Danbury News.

A Sure Cure for the Piles.

A sure cure for the Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. Williams (an Indian remedy), called Dr. Williams' Indian Ointment. A single box has cured the worst old chronic cases of 25 and 30 years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electrics do more harm than good. Williams' ointment supports the tumors, gives instant and painless relief, and is prepared exclusively for Piles, and nothing else. Over 20,000 cured Patients attest its virtues and physicians of all schools pronounce it the greatest contribution to medicine of the age.

WENT TO THE NOTED HOT SPRINGS.

Cleveland, O., Dec. 27, 1878. DEAR SIR:—I suffered more or less for years with the itching or ulcerated Piles. I tried remedy after remedy advertised in the newspapers, and consulted physicians in Philadelphia, Louisville, Cincinnati, Indianapolis, and this city, and spent hundreds of dollars, but found no relief and comfort until I obtained a box of Williams' Indian Ointment some four months ago, and it has cured me completely. I had a part of the box left which I gave to a friend of mine who had doctored with many physicians without relief, and as a last resort went to the noted Hot Springs, of Arkansas, for treatment. He informs me that the Indian Ointment has also cured him of the piles. It is certainly a wonderful discovery and should be used by the many thousands who are now suffering with that dread disease.

JOSEPH M. RYDER.

For more certificates of cures see large circular around each box of ointment.

\$10,000 REWARD

Will be paid for a more certain and sure remedy. Sold by all the leading Druggists and country storekeepers everywhere. Warranted a sure cure or money refunded. Beware of imitations. Ask for Dr. Williams' Indian Ointment, and take no other. Depot, 338 Superior Street, Cleveland, Ohio.

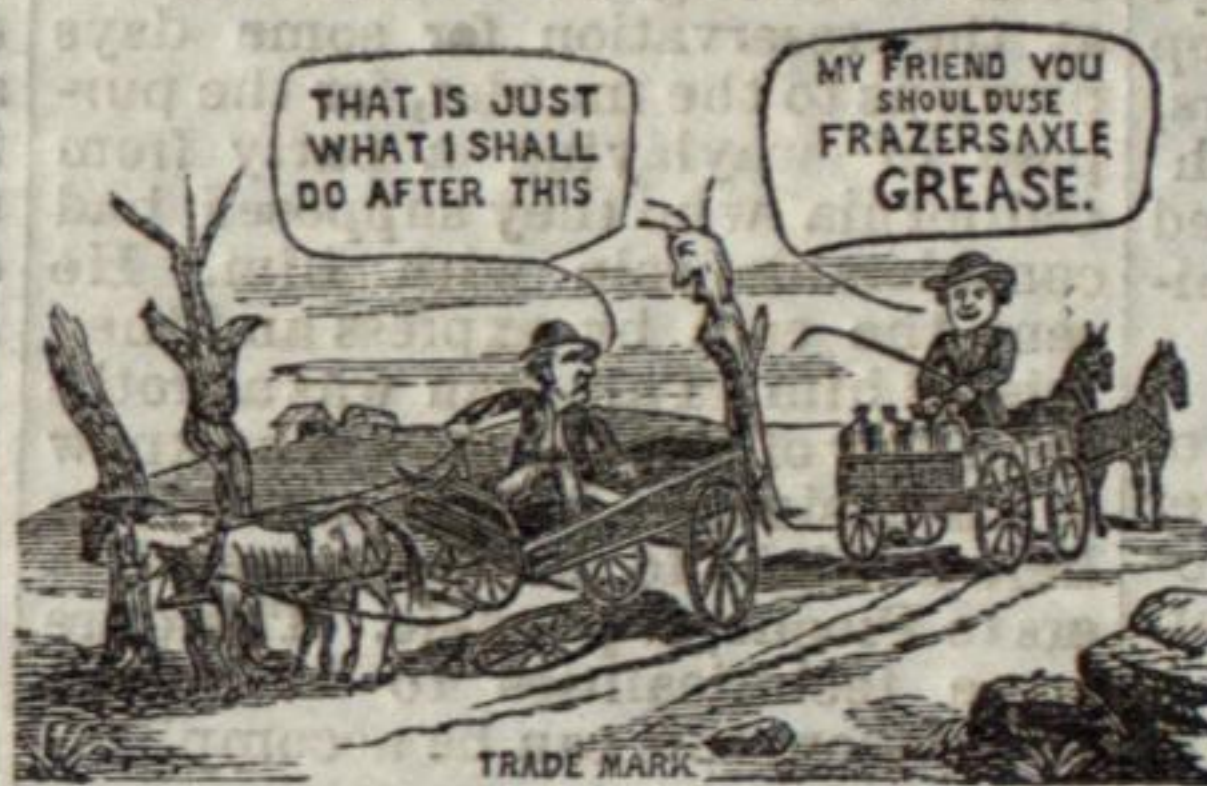

Godbe, Pitts & Co., Wholesale Druggists, Salt Lake City, Sole Agents for Utah.

KINGSFORD'S OSWEGO STARCH

Is Perfectly PURE—free from acids and other foreign substances that injure Linen.

The Frazer Axle Grease

Is now recognized as the Standard Axle Grease of the United States.

Is sold in every State and County in the Union, and is to-day without a rival. So universally is this fact recognized that numerous imitations have been made, all claiming to be as good as the FRAZER, thus virtually admitting its superiority. Some imitators even using the name to palm off a spurious article; yet, as every package bears our trade mark, dealers and consumers will be able to distinguish the genuine from the imitation, and thus protect themselves against the intended fraud.

For sale by all dealers. FRAZER LUBRICATOR CO.
