To-DAY, at 2 p. m., the conference of genflemen who are opposed to the present administration and its continuance in office were to meet at the Fifth Avenue Hotel, New Pork. The call for this conference, as first published, was signed by Carl Schurz, Jacob D. Cox, Wm. Culien Bryant, Oswald Ottendorfer, David A. Wells, and Jacob Brinker. David A. Wells, and Jacob Brinker. Set forth in the circular, was for the purpose of bringing together for consultation, all the elements of the opposition to Gen. Grant, so they might decide upon a plan of action and be united in which, with its signatures, has just apwho make this assertion point to the Gould being the officials before whom reticence which he has maintained resting a midaylts appear to have been in Antioch College, which position he repecting the Greeley and Brown ticket made.

Whether or not that identical numor the Greek language and literature in the

all idle in the coming campaign, whom else can he support? Schurz is a man, we take it, of too much ability to throw away his strength and great influence on a hopeless faction. If, therefore, he should meet to-day "Raengerfest," or musical feetival, with the various branches of the opposition at New York, it will not surprise us to hear that he does so for the purfavor of a combination on Greeley as the only means of defeating Grant. If this should be his policy, the reserve which he has heretofore maintained upon the subject will give his counsels greater weight than if he were the open and avowed advocate of the Chappequa philosopher.

In whichever way Senator Schurz shall direct his efforts, if he make any, during the presidential campaign, they will be felt. He may not carry the German vote in his pocket—this he denies ever having, in any manner, claimed to do-nevertheless he will have great influence with his countrymen. The German vote in this election, will be a great power. If it were united on either of the candidates, it would, joined to his other supporters, elect him. Iowa is a strong Republican State. It is expected that she will give a heavy majority for Grant, but it s conceded by good Republican politiclans of that State, that if the German vote were to be cast against him there, he would lose Iowa.

Da. H. Andrews, p rofessor in the Chicago Medical College, has compiled from the late census an interesting statement of facts relative to the mortality from economption in the different States and Territories. It appears that consumption and cancer are simi-larly affected by the same climates, and provail in the same regions, and that the laws governing the prevalence of these diseases are-

First-These two diseases are most abundant near the sea, and diminish as you recede from it.

Second-At equal distances from the sea they prevail most at the north, and diminish as you go south.

The maximum mortality from consumption appears to be 25 per cent of the deaths from all causes, in Massawestward, is 6 per cent, in Utah. The figures increase in California to 14 per cent. From north to south the scale ranges from 16 per cent, in Michigan, to 6 per cent in Alabama. The minimum in the whole Union is 3 per cent, dering of his own song, "Abend Lied," in New Mexico.

From this data Dr. Andrews reasons hat the best resort for a consumptive or cancer patient is some point as far south and as far from the sea as possible, such as New Mexico, although he thinks that the uplands of old Mexico may be still more preferable.

per centage of mortality from consumption in the former State being fourteen and in the latter eleven. Possibly the influx of consumptives in Minnesota, on account of its superior reputation as a favorable resort for persons of that sality from this disease over the normal rate in that Sate, and a similar observation may be made with reference to Utah. A result of like character is claimed for the Southern States, for, ecomparing the consus of 1880 with that of 1870, there appears to be a considerable increase of the proportional mortality from consumption in the Southern States and a diminution in the Northern. This change in the relative proportions of mortality from the above named discous is attributed to the moving of invalids southward in search of health, which only a part of them succeed in obtaining.

As a guide for the consumptive invalid seeking the most favorable local-

oentage of deaths from consumption as compared with the total number of deaths from all other causes in each State and Territory—

MONTGOMERY, 19.—At Alabama the State Democratic convention to-day, was the largest ever held in the State.

It adjourned after organizing.

Walker, ed from Phillip's Exeter Academy in 1849, nomination. As proof of this, those Still S. Taft, Still P. Taft, and C. A. Harvard Law School in 1853, and from the make this assertion point to the Gould being the officials before whom

said to have signed, is cited as a for-

principally of German societies. The Saengerfest opened last Wednes-

day, June 12, with a procession six pose of using what influence he can in miles long, the grandest spectacle ever

Louis and from various States: third. various military, bunting, social and turner societies; fourth, Odd Fellows and other mutual aid societies; fifth. hunting, social, and aid societies, trades, and twelve carriages of "beauti-fut young ladies;" sixtn, the butchers, rowing and fishing clubs, and other so cieties; seventh, the fire department and "Apolio and Suite," consisting of Designated Depository and Financial Apollo, surrounded by nine (young lady) graces, in triumphal charlot, and attended by a number of knights on horseback, representing all nations from the old Greeks to the present

The Saenger Halle is in the Italian style of architecture, and has a front of 150 feet on Twelfth Street, with a depth of 322 feet on Washington Avenue and St. Charles Street. The building is PAID-UP CAPITAL, flanked on each corner by a tower 30 feet wide at the base and rising to a height of 115 feet from the sidewalk to the balustrade, surrounded by flagstaffs 80 feet high. The auditorium is 146 by 222 feet, 67 feet from floor to calling. The stage is 75 by 96 feet, and espable of accommodating 164 musicians and at least 1.500 singers. The structure is of wood, capable of accommodating 15,000 per-

sons, and cost \$60,000.

At the reception concert the audience was computed at 12,000, the mixed chorus numbered 900, with 163 instrumentalists under the direction of Prof. Egmont Froelich. The concert opened with an overture of "Die Vestalin" by Spontini. The reception address was delivered by Dr. Sooneushem, a Jewish Rabbi, Then cams the "Bridal Cherus," from Wagener's "Lohengren," sung chusetts, and the minimum, going Then followed the reception of Governby all the St. Louis singing societies. or Gratz Brown, Frants Abt, and Carl Schurz, the second of whom bowed his acknowledgements and the first and third indulged in speeches, the latter in German. Abt conducted the renwhich was sung by the male chorus lefts only. The concert was closed with "The Heavens are Telling," from Hay-

dn's "Crestion," The second day, notwithstanding s thunder-storm, the crowds increased, It was estimated that 70,000 people were in St. Louis. The solos of Mrs. According to this rule and to the cen- Edmund Dexter, of Cincinnati, are en- of sus, Minnesota, contrary to the popular thustastically spoken of, and her voice as favorable than Illinois, the is described as clear and sweet, with a great capacity for trills and high notes.

with separator Logao, upon political matters. The senator asserts that he never had the slightest leaning toward the liberal Republican movement, that he never had any other intention than to vote for the nominee of the Philadelphia convention, and no matter who had been nominated at Cincinnati, he would not support them. He is confident that

said to have signed, is cited as a forther proof that he does not intend to labor for the success of the tickst to which, in its formation, he lent the sanction of his presence.

But what can Senator Schurz hope to gain by opposing Greeley? There is a chasm between himself and the Administration which he cannot with honor bridge over. When he favored the Convention, accepted the honor of presiding over it, and, afterwards, made his great speech on the Franch Arms saie, in which he arraigned the Administration in most eloquent and scathing terms, he cut off all chance of again affiliating with the men in power on any honorable basis; he literally burned the bridges behind him. He cannot tavor Grant's re-election. Greeley, as a candidate for President, may be distasteful to him; but if he do not remain idle in the coming campaign, whome else can he support? Sohurz is much interest in all the novel and attractive features of the locality and its institu-Boston is reveiling in the musical festival of the World's Jutilee, and St.

140,000 SINGER SEWING MACHINES LOW Prices

WERE SOLD WITHIN THE PAST YEAR. - Scientific American, June 10, 1871.

Manufacturing THE WORLD'S FAIR

Received the Great Award of the Highest ales and have left all rivals for behind

Sold in 1870 127,833

SEWING MACHINE SALES FOR 1870. "The magnitude to which the manufacture of Sewing Machines has attained is shown by the "SWORN" returns (to which any one can have access) of the manufacturers for the year 1870 to the owners of the leading patents, on which they pay a rosalty. According to these returns the number of machines sold by each manufacturer in 1870 is as follows:

19 7,833 83,298 75,156 57,402 85,002 28,890 aming 14,573 rover & Baker... Wilrox & Gibbs It will be seen by this table that the popularity of the Singer Machine far exceeds that of all others, their sale being one-half greater than even that of the famous "Wheeler & Wisson" machine. This is owing to the fact that the Singer Company have lately commenced making, besides their old and well established manufacturing machine, what is anown as their "New Family Machine," which is selling at the rate of mine to one better than their old style." Their total sales for 186) were \$1,761 machine; against the 127,83 of 1870 showing an increase of one-half in the latter year."—New York Sun.
