

## BUSINESS MEN'S STOP CUT SHORT

Massachusetts Party Spent Five  
Hours Looking Over  
The City.

### APPRECIATED RECEPTION.

Rumors of Hospitality in Utah Had  
Reached Them But Their Expec-  
tations More Than Realized.

After a stay of about five hours yesterday afternoon, the party of 75 business men from Worcester, Mass., who were returning from the Seattle exposition with their wives, left for Colorado Springs at 7:10 last evening. The train was expected early in the morning and the belated arrival of the party made it necessary to cut out everything except the trip to Saltair, but judging from the expressions of approval from members of the party, the bath in the lake was fully appreciated. It was the intention of the committees having the entertainment in hand to show them over the city, with the idea of giving them a favorable impression of Salt Lake, and to arrange an organ recital in the tabernacle, but it was impossible to do so in the time.

The party was met by a committee composed of W. J. Halloran, president of the Commercial club; Charles S. Burton, vice president of the club; Fisher Harris, secretary of the club; A. J. Davis, president of the city council and chairman of the entertainment committee; Lester D. Freed, W. A. Lieblein, George W. Goddard, C. C. Dalley and others.

After a hurried luncheon at the Commercial club the run to the lake was made at 3:30. On the way out various points of interest, including the smelters and mills, were pointed out to the visitors, and the return was made in time to catch their train at 7:10.

Edward F. Fletcher, former mayor of Worcester, said that every member of the party was anxious to see Salt Lake, and the return was made in time to catch their train at 7:10.

Mawbey, Mr. and Mrs. Henry Brannon, A. C. Munroe, Mrs. J. M. Winans, Duane D. Williams, Miss Bessie Williams, Casper Brown, Thomas Prince, J. H. Bennett, James Athy, Dr. George Reid, Dr. A. K. Yousuf, E. W. Durgin, George C. Gilmore, W. S. Abbott, F. A. Stenning, Louis A. Israel, Henry Conitols, Mr. and Mrs. Thomas McDuff, Mr. and Mrs. C. A. Grosvenor, Miss C. Matthews, F. R. Smith, Miss O. White, Miss C. J. Potter, J. P. Bannister, C. L. Bancroft, C. W. Bent, W. I. Brown, H. J. Hase, C. E. Hitchcock, A. J. Hackett, H. A. Kimball, L. C. Midgeley, J. T. Russell, W. B. Smith, Dr. G. A. Sleeper, W. S. K. Smith, W. R. Bliss, W. R. Forbes, Paul Moseman, T. J. Cressy, J. H. Smith, Mr. and Mrs. A. R. Jones, Danbury, Conn.; J. Tatro, Millbury, Mass.; John E. Hamel, Berlin; H. Adams, James P. Powers, Worcester Gazette; Stuart Winch, Templeton; W. L. Whitaker, Westbrook; John J. Johnson, T. J. Councilman, L. E. Dickenson, Whittingsville; Mr. and Mrs. L. Dickenson, L. S. Walker, West Boylston; A. E. Bicknell, A. R. Holt, Miss Martha Westman, Boston; Mrs. M. M. Bailey, A. Bailey, Barre; Mrs. F. Scott, Miss M. Scott, Mrs. George Beane, Miss C. H. Darling, Miss M. B. Fitz, Mrs. E. J. Humphrey, Mrs. C. A. Hall, Miss M. L. Taylor, Mrs. A. J. Clough, William Sewall, G. L. Anderson, O. H. Bailey, F. A. Bancroft, W. F. Cadden, H. E. Comitols, J. Harpin, R. C. Jeffrey, F. C. Lachmure, H. C. Robinson, W. M. Rogers, E. A. Santon, R. B. Snow, W. W. Marsden, H. R. Pearson, Will Gray, J. E. Oakes, H. W. Cowee, John L. Sewall, secretary Worcester board of trade; John E. Goggin, railroad representative.

### VICTIM OF GUN ACCIDENT.

Little Frankie Gotherg Loses an Eye  
At Brother's Hand.

The little daughter of Anton Gotherg of the Salt Lake Tailoring company, whose home is at 111 East Seventh South, was the victim of a gun accident Wednesday morning by which she lost an eye. It happened almost as soon as she arose and before she had dressed. She went to one of the drawers in the bureau and on opening it was attracted by a new 22 revolver which her brother had bought. She took it down stairs and her 12-year-old brother took it from her and, not knowing it was loaded, pointed it at her. To his intense horror it went off and the ball severed the nerve of the eye, and lodged behind the eyeball. She was hurried off to the Holy Cross hospital, where it was found that the sight was entirely gone, and the only thing that prevented the ball from entering the brain was the fact that it glanced against the bone. The little girl is reported to be resting easy today, and it is expected that she will soon recover, minus the sight of an eye.

Saltair—every day a big day.

### UTAH COUNTY DAIRIES.

Food Inspector Frazier Finds Them  
In Good Condition.

Walter J. Frazier, city pure food inspector, has been inspecting the dairies around Provo and Alpine in Utah county. Though none of those which he scored were up to the government standard of 45 points, he is well satisfied with conditions in that county. He inspected and scored ten dairies in all and will visit the others later. The Provo dairies made the following showing: Michael Lloyd, Vineyard, 28.75, without the cows; Elmer Holdaway, Provo rural route 1, 37.5, without cows; Robert Taylor, Vineyard, 35, with the cows; Martin A. Clinger, Provo rural route 1, 34.5, without cows; Burt Holdaway, Vineyard, 31, with cows; F. M. Holdaway, Vineyard, 32, with cows.

## DON'T BE BALD

One of Our Readers Tells How  
She Obtained a Marvelous  
Growth of New Hair by the  
Use of a Simple Home Remedy  
After Hair Specialists and  
Tonics Had All Failed.

I had what most people would call a beautiful head of golden hair. I prized it most highly, as I considered it my crown attraction. Suddenly it began to come out rapidly, and at times I had intense itching of the scalp. Physicians and hair specialists said my case was one of dandruff, and they gave me various remedies, but nothing that they gave me did the slightest good. On the contrary, my hair seemed to come out even faster, and I was now fearful lest I should become entirely bald. In my despair a friend told me of an Ecuadorian which he said would positively grow hair on any bald head where the hair roots were not entirely gone, and he said the natives of the country used it for this purpose. I immediately began its use. In three applications it entirely stopped the intense itching of my scalp, and in a very short time it not only stopped my falling hair, but I noticed an abundance of new hair coming in. In less than one month my hair was longer, thicker and more beautiful than ever. All due to this marvelous hair-growing herb. A lady to whom I gave the formula used it on her daughter, and she says it made her hair grow five inches in less than a month. Doctors to whom I have shown it say it is the only thing which will actually grow new hair, therefore I think the people ought to have it. I thought I would keep it a secret and sell the secret, but when I think how I suffered and how badly I needed it, and how many of our must need it the same as I did, I feel I ought to give it to the world.

Therefore I authorize this paper to publish the formula, which is as follows: Bay Rum, 6 oz.; Lavender de Compose, 6 oz.; Alcohol Crystal, 4 dr.; Talcum Powder, one ounce. Shake well. Ask your druggist for an 8-oz. bottle containing 6 oz. of Bay Rum, then put in the Alcohol Crystal and the Lavender de Compose, let it stand six to eight hours and add the remainder of the Lavender de Compose. Always use the Lavender de Compose in a 2-oz. sealed bottle, as this preparation contains the juice of the Ecuadorian herb mentioned above and it loses its strength if unsealed.

Apply the preparation night and morning and rub well into the scalp. If properly used it will soon produce most satisfying results. Be a revolution to get it on the face or any part of the body where you do not want to produce hair.

The Alpine dairies scored, follow:  
The Alpine Dairy, scored, 34, with cows; J. J. Dewey, 31, without cows; J. J. Beck, 32, with cows; J. S. Beck, 41.5, with cows.

## WANTS HUSBAND BACK IN JAIL

Divorced Wife of A. S. Higham  
Charges Him With Dis-  
turbing Peace.

On Eve of Consideration of Request  
For Pardon Higham Finds Himself  
Victim of Circumstances.

One the eve of the consideration of his application for a full pardon, the granting of which will return him to his citizenship, A. S. Higham finds himself the victim of circumstances. The circumstances are his being made the target of almost anything his former wife could lay her hands on, the most effectual aim however, being when she hurled a copper souvenir dish at his head, and then to be arrested on a charge of disturbing the peace with the announced wish of the state prison for two years more. Higham, who seems to have been forced into the unfortunate class, was sentenced about three years ago to a three years term in the state prison for forgery. After serving a year he was paroled and since that time has been laboring at his trade of painting and paperhanging. Three months ago his wife secured a divorce and obtained the custody of the children.

THREE BRIC-A-BRAC.

According to her story Higham has called at the house three times, and on each occasion raised a disturbance. She says she has been compelled to work to support the children, and last night about midnight when she returned from her work she found Higham at the house. She said he had begun a disturbance, into which she entered by picking up bric-a-brac, ornaments, etc., and throwing them at him. The police were called and Higham was arrested.

With a predominant chin thrown out and the line of her face betokening determination she appeared in court this morning ready to give all the testimony she could to send her husband back to jail, because she thinks that is where he belongs.

Higham, according to the police, is more or less of an innocent, and according to his story he has been giving close to \$50 a month for the support of his children. His visits to the home were for the purpose of seeing his little sons and daughters.

When it was learned that he is out on parole Asst. City Atty. Rogers asked that the city case be continued until tomorrow for the purpose of permitting an investigation, and the meantime Higham was released on \$25 bail provided by his friends.

### CASE DISMISSED.

A suit brought two years ago by Salt Lake county against Frederick G. Palmer and the American Surety company of New York, was dismissed yesterday by Judge T. D. Lewis of the district court on motion of County Atty. Job P. Lyon, settlement having been made. The original suit was for \$2,500 and the amount paid over by the company \$1,233.75. Palmer held a contract for a steel and concrete bridge over the Jordan River at Fourteenth South street which the county was compelled to take over and finish.

### DURAND AGAIN REVERSED.

Judge T. D. Lewis of the district court yesterday reversed a judgment of Charles F. Durand, former justice of the Murray court and issued an order restraining Louis Brown, the present justice, from issuing execution in the case. The suit was brought through the Luke agency for \$194.65 by J. F. Tolton against James H. Dalley and wife. Tolton does business in Beaver county and the Dalleys live in Garfield county. Despite lack of residence Durand gave judgment, and Judge Lewis now holds that there was no jurisdiction.

## HEWLETT TALKS ON GOOD ROADS

Salt Laker Would Construct  
Highway from Park to  
Grand Canyon.

### MEETS IDAHO COMMISSIONERS

Citizens of Pocatello Take Up Matter  
Of Organizing State As-  
sociation.

O. H. Hewlett of Salt Lake, accompanied by his wife and Mr. and Mrs. E. S. Chase, who are touring Idaho in an automobile, is urging better roads and has suggested the organization of a good roads association to promote a modern highway from Yellowstone Park through southern Idaho and Utah to the Grand Canyon of the Colorado. The following is an account of his work in the Pocatello Tribune:

"Mr. Hewlett met a number of auto owners in this city last evening, and this morning conferred with County Commissioner W. J. Harvey, and with leading spirits in the Pocatello Good Roads association. His mission is to impress upon the people of Bannock county the necessity of good roads. He brought to Commissioner Harvey's attention the fact that there are a number of bad spots on the road between Pocatello and the Oneida county line, and points out that repairs can be made at only slight cost. One place in particular, beyond McCammon, is almost impassable, and word has gone out to Salt Lake warning Utah automobilists not to attempt to make the trip to Pocatello, as one of the most powerful cars can pull through. The condition of the road between Pocatello and Blackfoot was also called to the county commissioner's attention, but owing to the slight cost of the repairs, and on the reservation, it will be up to the local Good Roads association to make the necessary repairs.

### FOR GOOD ROADS ASSOCIATION.

"Mr. Hewlett suggests the organization at the earliest possible date of either a state or a district Good Roads association. The association in Utah has accomplished wonderful things. Eight bills of extreme importance have been passed through the legislature for the improvement of the roads. One of the bills provides that poll tax shall be paid in cash and the fund thus created expended in a scientific manner on the roads. Another bill provides for uniform road making standard wagon gage, standard tires, etc. A similar organization in this state could accomplish great things along this line, and local enthusiasts are considering the plan of calling a meeting in the near future to form an Idaho Good Roads association.

"A movement is on foot to secure from the federal government a revocation of its rule prohibiting autos in the Yellowstone National park. There is every reason to believe that this can be accomplished, in which event thousands of people through the region and bring about a magnificent advertisement.

The Blackfoot Good Roads association is considering the plan of calling a meeting in the near future to form an Idaho Good Roads association.

### TO FENCE AUTO ROAD.

"Ben Bean, one of the leading good roads men in the Gato city, believes it would be a good plan to secure from the federal government permission to fence an auto road across the Fort Hall reservation so as to prevent wagons from going the road and ruining it in a short time. Along the sandy stretch between Ross Fork and Blackfoot straw has been placed on the road, and for a time going was good for auto. Heavily loaded wagons began to use the repaired road, however, and

in a short time the ruts were worn deep again by narrow tires and irregular gages.

"Mr. Hewlett is an enthusiast on good roads. He points out that civilization waits on roads. He is firmly convinced that Idaho can accomplish full as much along this line as Utah has accomplished, and his suggestion that a state association be formed is a good one. Mr. Hewlett was president for two terms of the Manufacturers' association of Salt Lake, is vice president of the Civic Improvement league of the Utah capital, and for two years was president of the Salt Lake Automobile club. He owns one of the most beautiful homes in that city, has a charming family, and is an earnest worker for upbuilding not only his home town, but the great west which he loves so well."

### DISPUTE SETTLED.

Salt Lake & Ogden and Oregon Short  
Line Reach Agreement.

Simon Bamberger has withdrawn his request for a franchise for a spur track on Third West which has been pending before the city council for many months and at the same time a request of the Oregon Short Line railway for two additional tracks in that street was taken from the hands of the council committee on Thursday evening. This settles a long drawn out dispute for the right of way over this street and assures that there will be no switching in front of the new depot.

The agreement reached by the companies provides that the business of the Salt Lake & Ogden railroad which would have gone over Third West street will be handled by the Oregon Short Line over its own tracks.

### NO ACTION NECESSARY.

Chief Barlow Investigates Fumigation  
Of Oxford Apartments.

Chief of Police Barlow was called upon yesterday to make an investigation of the conditions at the Oxford apartments, where Corydon W. Higgins lost his life Tuesday, on a complaint that the West Disinfectant company was still fumigating rooms there with hydrocyanic gas. The report coming to police headquarters was that a woman had been found there overcome by the fumes. Chief Barlow made an investigation but failed to find the woman. He found the disinfectant company still using the gas in fumigating but that the agent of the company had posted numerous warning notices, and as the apartments are practically unoccupied at the present time the chief decided that no action was necessary on his part.

### EXHIBIT IS A SUCCESS.

C. P. Overfield of Utah Commission  
Returns from Seattle.

C. P. Overfield, commissioner of the Alaska-Yukon-Pacific exposition, returned from Seattle yesterday where he has been several days looking after the Utah exhibits and arranging for Utah day. He pronounces the exposition a success. Much interest is being shown in the Utah exhibits, and the visit of the choir and the high school cadets is looked forward to with anticipation, and no doubt they will receive a warm welcome. The attendance has reached the 2,000,000 mark and there are several of the largest days yet to come, including Utah day. Much credit is due to Director General W. H. Rowe and Mrs. Charlotte C. Stevenson for the manner in which Utah is being represented.

### INNIS' BAND AT SALT AIR.

Today, Tomorrow and Sunday. Two  
free concerts at 4 and 8 p. m. 60 men.  
Several soloists. Very fine.

Classes begin Wednesday, September 8.  
Classical, scientific and commercial  
courses. Original department for  
boys, under the care of a trained  
teacher.

For terms and information apply to  
Very Rev. J. J. Guinan, S. M.,  
President.

## WASTE PAPER ECONOMICS.

Hearing of processes for the reclamation of waste timber brings to mind the tremendous quantity of paper daily thrown aside as useless. An office of ordinary size produces at least a ton of waste paper in a month, which is disposed of at a price ranging from \$5 to \$10. The purchasers of this office by-product feed it to machines that bundle the paper by a sort of hay-press process, and the magic of machinery returns the soiled scraps in pristine whiteness. Waste paper has become so much a matter of course that new offices are built with a paper shed, a contrivance for caring directly for this waste. In some businesses this product amounts to hundreds of tons in a year, and where the amount is large, as in a city printing office, it is gathered every day.

In addition to the paper of commercial and manufacturing concerns, there is the constant waste going on in every home, which would aggregate thousands of dollars every year if accounted for in the economies of the country. Possibly when the conservation commission has disposed of its

big problems it will find means to eliminate this source of waste. National Magazine for July.

Many a Good Cook's  
Reputation Comes From  
the Flavoring She Uses.

## BURNETT'S VANILLA

usually deserves all the praise.  
Burnett's Vanilla gives an individual flavor to desserts, ices, puddings and candies. It gives that delicious, natural flavor of the "Finest Mexican Vanilla Beans." That is why Burnett's is never equalled.  
Insist and your grocer will supply you. Send us your grocer's name and we will mail you, FREE, thirty-six original, tested recipes of delicious desserts easily and economically prepared.  
You will get new ideas from this FREE book. JOSEPH BURNETT COMPANY, 35 India St., Boston
