reported that Gen. Methuen has captured Honey Nesthtoof, ten miles north of Gras Pan, and two million rounds of ammunition.

London, Nov. 27 .- None too soon for the British has come the news of the improved outlook for them on both the British and western sides of the South Africa Republic, as the constant small reverses were causing keen resentment against the authorities here. This was evidenced by the results of the Wandsworth election to the London county council on Saturday when the previous conservative plurality of 910 was converted into a liberal plurality of 232, the conservatives having made the war an issue and their candidate being a mili-

tary officer. To Gen. Methuen it appears belongs the honor of the first real British victory of the present war, as Belmont was the first battle after which the British advanced instead of retreated. The fact that Gen. Methuen was forced to fight a second pitched battle near the scene of the first shows the Boers were demoralized at Belmont, but quickly rallied and with unabated courage, met the splendid assault of the British naval brigade at Gras Pan. The

Presumably Gen. Methuen has al-

ready resumed his march northward.

He was, when last heard from, still

nearly fifty miles from Kimberley, and

doubtless an action will have to be

fought at Modder river before Dia-

doubt as to what is meant in the state-

ment that the Boers are falling back

on Warrenton, which is fifty miles

north of Kimberley, unless the dispatch

was intended to fall in British hands

in the hope of misleading Gen. Methuen.

The latter, however, is said to be far

Before Gen. White is released, a big battle is likely to occur at the passage of Tugela river, and it may be expect-ed that the Boers will make a stand there. In any case, wherever they elect to try to stem the British ad-vance there will be desperate fighting, and of a sanguhary character. The outlook is Cane Colony is dark

The outlook in Cape Colony is dark for the British. That Gen, Gatacre has no easy task is proved by the lat-est dispatches from Queenstown and est dispatches from Queenstown and elsewhere, showing that the majority of the population on the frontier have openly declared themselves on the side of the Boers. Bands of Boers are do-ing immense damage over a wide area and they have now appeared south of Stormberg. Gen. Gatacre, however, moves to the front today, so it is hoped by the British the invasion will score by the British the invasion will soon be stemmed.

circulated in European capitals recently of the development of a serious hitch in the negotiations. As a matter of fact there is no serious hitch, and the reasons which influenced the

state department here in rejecting the British-German arrangement when it was submitted for approval, related entirely to minor matters, and touched rather upon the form than the sub-

stance of the arrangement. Having rejected the tentative treaty submitted by the other two powers, our govern-ment has in turn and at the instance of the other parties prepared and sub-mitted a draft of a treaty which it is hoped will be acceptable to all three

PLEADS FOR THE HOME.

Room Enough for Saloons but None for a House of Rescue.

Much interest is being taken in the meeting to be held at the Y. M. C. A. tomorrow afternoon at which steps will be taken towards maintaining the Rescue Home for young women. Concerning the Home and the objections urged by various persons regarding its location in their midst the Rev. Mr. Henry yesterday said:

"There is room enough for saloons, to damn the souls of those who go in and out of their doors, there is room enough for gambling hells; there is room enough for houses of prostitution, which bring these girls into lives of

shame, but there is no room for a home which would surround them with Christian influences, with environments which would be entirely wholesome.

"And why is there no room? Simply because of a false sentiment and a

esnae of pride and respectability that surrounds certain localities where this
