## Demolli the Agitator Returns to Utah And Indulges in Usual Talk.

Carlo Demolii, the labor agitator who with his associates Kelliher and Price failed to close up the Carbon county coal mines by a strike, arrived in this city ydsterday afternoon. The Italian claims that during the recent evictions women were the sufferers. He says that the family of Josef Anderlini, a Schofield miner, whose wife was in a delicate condition, was forcibly removed -recently by strmed depu-ties on a cold winter's day. Also, at Cas-tle Gate, women were turned out of their homes in a snowstorm at 11 e'clock at night. The agitator claims that the recent convention of Mine Workers at Indian-apolis decided to stay with this fight until all of the money in the treasury was used up, and then to levy an assessment to continue the fight. Demoili asserts that the Utah Fuel company can not continue to cartry on its operations without the ald "7 the United Mine Workers. James Hall and Charles Graves, two colored men, stopped in front of a Sec ond South street saloon yesterday afternoon, to discuss the inanities of the inane as applied to their respective pedi-grees, and the style of vernacular used in their drastic treatment was such that Patrolman Brown arrested them for using obscene language. They put up \$10 for their appearance today.

for the purpose of letting a contract for further grading and more ties on the Rio Grande Western feeder now being from Crevasse to the Gilson Asphaltum company's deposits in Utah. Mr. Baxter, who is related to the Rio Grande engineer of that name, states that the grade has been completed over mountains and the gangs are now working in practically level country. The contractors anticipate that will complete the work and be ready for business early in the summer. The road will be 55 miles long and will be used solely for shipments of gilsonite. When completed to the company mine the road will be about half way from the Rio Grande main line to Duchesne, where the principal shipping mine is and where there should be considerable other traffic.

# TRIED TO WRECK TRAIN.

## Narrow Escape of Oregon Short Line No. 1 Near Bliss on Sunday.

Special Agent Jones of the Oregon Short Line is investigating a case of attempted train wrecking, which occurred on the main line at a point some seven miles west of Bliss, Ida, on Sun-day. A switch at that point was set to put the train in the ditch, but No. 1 was several hours late and a freight arrived from the west and the crew dis-covered that the switch had been tam-pered with. Had No. 1 been on time it would have struck the open switch at a 50-mile gait and a terrible wreck and loss of life would undoubtedly have been the sequel.

Mrs. Langtry will be seen in Degenerates" at the Salt Lake Theater tonight, and with that performance her present and probably last engagement in Sult Lake will end. "Mrs. Deer-ing's Divorce" is having its final pre-sentation at this afternoon's matinee with a large audience in attendance. . . .

"Way Down East" comes back to the Salt Lake Theater tomorrow night with the old promise of a good show and a big business. It will run for the re-mainder of the week and the engage-ment looks like a prosperous one.

There was a crush matinee at the Grand this afternoon to witness the third production in this city of "For Mother's Sake," and heavy patronage for this evening is assured, as the advance seat sale has been surprisingly and pleasingly large,

Jones & Hammer last evening booked another big eastern attraction for the Grand. It is the Weber and Fields Stock company. It will appear in this city for one performance only, the night

# When there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Basford, of Poolesville, Md., in speak-ing of her experience in the use of that remedy says: "I have a world of con-fidence in Chamberlain's Cough Rem-edy for I have used it with perfect suc-cess. much feasting on both these days, and the celebrations were as sumptuous and as lively as possible for the roistering

participants to make them. Februa' day was considered the turning point of winter, and on that day a great quantity of candles were burned. At Lupurcalla it was thought that birds and animals mate, and the custom of drawing names whereby single men obtained wives was widely prevalent. The feat was in honor of tillity, and it was thought that unions formed on that day were particularly fruitful ones

But when Europe became Christian-ized the masses of the people were determined to keep up their feasting on these two great days. The religious leaders also saw that it would not do to let them pay reverence to heathen gods, so they hit upon a happy expe-dient. In the place of Februa' day they appointed a feast of the church called Candlemass and Lupurcalia was changed to St. Valentine's day. The people, however, still persisted upon processions and burning candles on the day and drawing of names, so the priests winked at the customs, but from that time on the days had new

meanings. The Scriptures say that 40 days after of Christ the Virgin Mary birth took the infant Jesus to the temple and Simeon took the child in his arms and prophesied that He "should be a light unto the gentiles and the glory of Is-rael." Taking Christmas, the birthday unto the genthes and mas, the birthday rael." Taking Christmas, the birthday of Christ, the day He was brought to the temple would have been Feb. 2. The church chose to celebrate this temple visit rather than keep a hea-then goddess' festival. The new feast day was variously called St. Simeon's day, Wives' feast day, Presentation day, Purification day and Christ's pre-sentation. Gradually these were supersentation. Gradually these were superseded by the name which yet prevails in Catholic and Episcopalian communitles which is Candlemas day.
