

TRUE LOVE BETTER THAN GOLD.

We started one morn, my love and I,
On a journey brave and bold;
'Twas to find the end of the rainbow,
And the buried bag of gold.
But the clouds rolled by from the summer's
sky,
And the radiant bow grew dim.
And we lost the way where the treasure lay,
Near the sunset's golden rim.
The twilight fell like a curtain
Pinned with the evening star,
And we saw in the shining heavens
The new moon's golden car.
And we said, as our hands clasped fondly,
"What though we found no gold?
Our love is a richer treasure
Than the rainbow's sack can hold."
And years, with their joys and sorrows,
Have passed since we lost the way
To the beautiful buried treasure
At the end of the rainbow's ray;
But love has been true and tender,
And life has been rich and sweet,
And we still clasp hands with the olden joy
That made our day complete.

—The Century.

TELEGRAPHIC NEWS.

NEW ORLEANS, Oct. 1.—All shot-gun quarantines in the Mississippi Valley have been withdrawn. The railroads throughout this State and Alabama have resumed business.

JACKSONVILLE, Fla., Oct. 1.—The scourge has increased in force again, and the new cases reported for the twenty-four hours numbers 90, of which 25 were whites and 74 colored; 10 deaths. The total number of cases to date is 2725, total deaths, 264. The mercury last night fell nearly to the frost line. It is cool tonight, but frost before the last of October would break the record for the last sixteen years. The Citizens' Association today referred to the executive committee the question of asking the people throughout the country to discontinue contributions. To date there has been received here \$238,867. The disbursements have been \$74,478, leaving a balance on hand of \$164,389. The demands of the indigent have steadily grown from \$10,000 to \$20,000 a week, but it is believed they will now decrease with the more stringent measures to be adopted to prevent imposition on the part of those who have practiced the grossest frauds to obtain more rations than they were entitled to.

CHICAGO, Oct. 1.—The excitement on Chicago in the December wheat deal decreased Saturday only to be resumed this morning. When the opening bell tapped at 10:30 the futures of Frank Clifton & Co. and S. C. Orr were announced and this only added to the excitement. The crowd began to loose their heads because of the heavy covering in December wheat. There was a perfect craze to buy. The advance for thirty minutes was most remarkable, and there is no telling where it would have ceased had not Hutchinson eased the market by his liberal selling. S. C. Orr said his liabilities are about \$50,000 and his suspension is due to the failure of a part of his customers to respond to his call for margins. He said he would be able to resume in a day or two. From friends of the other firm it was learned that it was short about \$50,000 by September wheat and also on October and.

NEWARK, N. J., Oct. 1.—Mabel Vaughan, the daughter of a retired New York merchant, has caused a sensation in Mount Clair by eloping with her father's coachman, Henry Tipton. He is a good-looking young Englishman and well educated. It was known that Miss Vaughan accepted the addresses of Tipton, but Mr. Vaughan objected to him for a son-in-law. Saturday the couple eloped, the girl taking \$3000 of her own money with her.

BUFFALO, Oct. 1.—Ten weeks ago a case of smallpox was discovered here. Since then there have been 89 cases and 17 deaths, six of which were caused by black smallpox, which is most fatal. There are now 22 cases in the hospital.

TRUCKEE, California, Oct. 1.—The town was thrown into excitement Sunday afternoon by the act of an Indian of the Washoe tribe who leaped upon the bluff overlooking the town. He fired three shots from a rifle into the town, one shot striking a squaw. He then cast off his clothing and fired another shot at the white people on the principal street. The shot, however, did no injury. The officers and citizens then secured rifles and gave chase. The Indian had taken refuge in a cliff of rocks and when he had his rifle drawn on one of the leaders of the party to kill him. Another member, however, who saw the Indian about the same time shot the Indian dead before the latter could carry out his purpose. Many of his tribe of Indians have been troublesome of late and yesterday it was learned that they had been procuring liquor and opium from Chinamen here. Last evening 300 citizens waited on the Chinamen and ordered them to leave the town within twenty-four hours.

ALBUQUERQUE, N. M., Oct. 1.—Two years ago a party of ten men started out prospecting north of Fort Apache, Arizona. They were ambushed by an Apache Indian of the San Carlos tribe, who shot and killed seven men and

robbed their camp. The remaining three escaped. A reward of \$2000 was offered by the government for his capture, dead or alive. Wednesday last a half-breed named Mickey was in the mountains near Fort Apache when he discovered the Indians retreat. Liberally dosing him with whisky, he got him in a condition not to escape. He then handed him over to the military authorities at Fort Apache. This is the third time within the last two years that he has been captured. Twice previously he escaped. This time extra precautions will be taken under charge of Lieutenant Hall, Tenth Cavalry, and an escort of four soldiers brought him to this city today on his way to Fort McDowell.

CHICAGO, Oct. 1.—Thirteen-year-old Minnie Kratzenberg was arrested tonight for poisoning her mother, sister and two brothers. The mother, who is a poor widow, will die. A neighbor, Mrs. Snyder, is also under arrest for being accessory to the crime. Minnie had got huffed at her folks and went to live with Mrs. Snyder, who has a grudge against the Kratzenbergs. The police claim to be able to prove that Mrs. Snyder's instigation, Minnie put rat poison in her mother's soup and spread it on her sister and brother beef steak.

PANAMA, Oct. 2.—A terrible explosion occurred on board a large iron mud carrying steamer at Aspinwall September 18, which had on board in addition to the crew Mr. Grover, master mechanic of the Panama Railroad, Hugh Graham and Andrew McIntyre, the latter recently captain of the huge American dredge, *City of Paris*, eight souls in all. The safety valve blew out and an explosion followed, causing the loss of six lives and the destruction of the vessel and another steamer in the vicinity, whilst an iron lighter near by was cut in two as if by a knife.

SARASOTA, Mich., Oct. 2.—There has been a terrible storm raging here since early last evening. At seven o'clock last night a life saving crew from Sand Beach started out. At 11 p. m. they rescued a crew of six men and one woman from the barge *St. Clair*. As the boat passed the end of the dock on the return here a high breaker struck the boat turning her completely over. The entire crew belonging to the boat reached the shore towing two of the other crew with them. The remainder, four men and one woman, were drowned.

CHICAGO, Oct. 2.—The board of trade opened this morning with a whirl of excitement in the wheat pit. December was the centre of attraction and danced about in a fashion to make traders' heads swim; Opening at $\frac{1}{2}$ @ $\frac{1}{2}$ lower than yesterday, close at 105 $\frac{1}{2}$ @ 5, it rapidly advanced by eighths and quarters to 108 $\frac{1}{2}$ or about 3 $\frac{1}{2}$ cents inside of five minutes. Then it began to recede and continued dropping down till it touched 106 $\frac{1}{2}$ and at ten o'clock was quoted at 107. At eleven o'clock quoted Oct. 195 $\frac{1}{2}$ asked, Dec. 107 $\frac{1}{2}$.

SAN FRANCISCO, Oct. 2.—U. S. Revenue cutter *Richard Rush* has arrived from Unalakleet. About Sept. 6th, at Sand Point, Papoff Island, Alaska, Louis Sharp shot and killed William H. Dingley, a native of Maine, and also shot and seriously wounded James O'Brien, the agent in charge of Lynde & Hough's fishing and trading station at Sand Point.

LONDON, Oct. 2.—The trunk of a woman was found in the recess of the new police offices on the Thames Embankment this afternoon. The head, arms and legs were missing. The remains, in an advanced state of decomposition, were wrapped in a rough cloth and tightly bound with cord. It is believed the arms, recently found in Pimlico and Lambeth were cut from this body.

NEW YORK, Oct. 2.—The ship *Creedmoor* of St. John N. B. from Manila, May 22, is expected here in a few days. On board the vessel is Captain Colquhoun, of the ship *Earl Wemyss* and a portion of the crew of the ship *Ardencape*. These vessels collided off Pernambuco September 25th. The wife of Captain Colquhoun and three children went down with the ship. A number of seamen were also drowned. The *Ardencape* was badly damaged but managed to reach port at Fernando.

CHICAGO, Oct. 2.—The representatives of the railways west of the Missouri River decided today at the meeting here to adopt the weighing system for live stock shipments, and to apply the same minimum weights and the same rates per hundred pounds as those heretofore adopted by the Chicago roads allowing a differential of 8 $\frac{1}{2}$ cents to Mississippi River points. It was decided, however, that the necessary preparations should not be completed to put these rates into effect before October 25, and the lines east of the Missouri River agreed to postpone action until that date.

WASHINGTON, Oct. 2.—Acting Secretary Thompson today telegraphed the provisions of the Chinese exclusion act to the Collector of Customs at San Francisco, and at the same time issued a circular to the Customs officers at other ports promulgating the law and instructing them to see to its strict enforcement.

Attorney-General Garland arrived this morning from his home at Harmony Hill, Arkansas. The General's health is said to be much improved since his attack of sickness in the summer. He will resume his duties at the Department of Justice tomorrow.

MINNEAPOLIS, Oct. 2.—A Toronto special to the *Journal* says: A letter from Erastus Wilman says that it is not unlikely a resolution will be re-

ported for the concurrent action of both Houses of Congress declaring it to be the duty of the President to open negotiations with Great Britain looking to the political union of the English speaking nations of this continent. The condition attending this invitation to Canada is understood to be that the United States will assume the debt of Canada, \$300,000,000. The letter was followed by a request to withdraw it but it was disregarded and the letter was published this morning.

FLORENCE, A. T., Oct. 3.—The down stage from this place to Casas Grand was held up yesterday at Dry Lake, five miles north of Casas Grand, by two Mexicans, who took Wells, Fargo & Co.'s treasure box and the registered mail pouch through from Globe, Arizona. No passengers were aboard the stage. The robbers escaped.

CHICAGO, Oct. 3.—The north side street car conductors and drivers decided this morning to strike next Saturday morning. Seven hundred men are involved, with the probability of a thousand more on the west side. If all strike two-thirds of the street car lines in the city will be idle.

CHEBOYGAN, Mich., Oct. 3.—The steamer *Atlantic*, which arrived here this morning, left Alpena at 11 o'clock last night. At that time nothing had been heard of the missing propeller, *Wilson*. The *Wilson* was last seen with spars gone and the crew of the barge *Rogers*, of the *Wilson* tow, state positively they saw the *Wilson* go down with all hands.

CHICAGO, Oct. 3.—On the Board of Trade this morning everything was strong and advancing. Interest centered in the wheat pit, December and May options were the ones which attracted everybody's attention. They opened about 3 $\frac{1}{2}$ cents higher than last night's close, and so urgent was the demand that fractions no longer cut any figure in making current values. A cent or two either way was nothing to those who wanted to buy and they took every offer that came. December wheat opened at 1.11 @ 1.12, as nearly as reporters could approximate it, but at once sold at 1.14; then jumping a cent at a bound it touched 1.18 inside of ten minutes then it worked almost as rapidly falling to 1.14. May opened at 1.12 @ 1.14 and followed the same course as December, going to 1.18, also receding to 1.14 $\frac{1}{2}$. October sold at 1.12 @ 1.14 $\frac{1}{2}$. When traders began to take their breath, after the whirl of excitement in December and May, November sold at 1.10 $\frac{1}{2}$ and up to 1.15 $\frac{1}{2}$.

At 10 o'clock, half an hour after opening, December sold at 1.15.

Corn opened 1 cent higher and advanced another cent.

Pork, lard and short ribs were all decidedly higher, and advancing.

NEW YORK, Oct. 3.—Washington special: The "Samoa question" has reached a point which makes a satisfactory settlement of the matter of very great concern to the United States, and the most careful attention is now being paid to it by our government. President Cleveland has recently taken hold of the subject and there is reason to believe it will soon be laid before the cabinet for consideration. The recent course of Germany in seizing and carrying off the Samoan king and setting up an insurgent in his place, certainly appears to be a flagrant violation of the agreement between that government and Great Britain and the United States, that the autonomy of the Samoan islands shall not be disturbed. Samoans have revolted against the king set up by the Germans and had him and his party cooped up in the capital. It is easy to see that complications more serious than any that have gone before may follow the present situation, and there is a strong feeling here that it is time for the United States to take decisive steps toward curbing German aggression. The continued independence and neutrality of the Samoan islands is of high importance to this government, especially because the islands lie practically in the track of all vessels using either of the projected isthmus canals. Opinions are divided as to the best course for this government to adopt, but from what can be learned in State Department circles a move of some kind may be expected soon, and it will not be in the direction of consenting to any further aggressive violations of Germany's agreement.

LONDON, Oct. 4.—Excitement caused by the recent murders of women was increased this morning on the announcement that a watchman had been killed in Shadwell, last night. The watchman saw a man and woman go behind a board fence, erected in front of a building in course of construction. The watchman followed the couple and called a policeman. The man turned on the watchman and stabbed him to death. The murderer was arrested after a desperate struggle.

Later—The police deny the truth of the report.

BUFFALO, Oct. 4.—John Spahn and George LaBlanche, the marines convicted yesterday of aiding and abetting a female prize fight on Navy Island, were sentenced today. Spahn got five and a half months in the penitentiary and LaBlanche three months.

NEW YORK, Oct. 4.—Jack Lane, of Brooklyn, and Jimmie Morris, of Newark, N. J., fought nine terrific rounds on Long Island this morning. In the eighth round Collins broke his wrist by a sledge hammer blow on Lane's head. Collins fought the ninth round with his good hand, essaying to finish the battle with a rush, but did not succeed. In the tenth round Collins was unable to go on and the fight was awarded to Lane.

LONDON, Oct. 4.—The inquest on the body of the woman found murdered in Mitre Square, on Sunday morning, was had today. The testimony of the surgeons who had made an examination of the body proved that the uterus and one kidney were missing.

MARION, Ohio, Oct. 4.—A report reached here this morning of a serious wreck at Kents, Indiana, on the Chicago & Atlantic Railway, last night, in which the fast freight collided with a work train. Both were running at full speed. Forty laborers on the work train are reported killed. It is impossible to get the officials to talk.

SHERBROOK, Que., Oct. 4.—Judge Rioux rendered a decision this morning in the case of Debaun, the defaulting assistant cashier of the National Park Bank of New York, ordering that he be surrendered to the United States. The defense is applying for a writ of habeas corpus.

FROM WEDNESDAY'S DAILY OCT. 19.

UTAH'S INDUSTRIES.

The Magnificent Showing Made at the Exposition.

OPENING EXERCISES AT THE FAIR.

AN EXCELLENT EXHIBITION OF UTAH'S PRODUCTIONS AND RESOURCES.

Since Saturday last the scene at the Fair building on the Tenth Ward square has been beyond description for the bustle and stir that have been going on preparatory to the opening of the great exposition at 12 o'clock today. For seven years no scene of a similar nature has been seen, and never before in the history of the Territory has an exhibition of such magnitude been witnessed.

President J. R. Winder, Secretary H. M. Wells, directors W. H. Rowe, N. A. Empey, Chas. Read, Francis Armstrong, E. M. Weiler, and Treasurer E. A. Smith, have borne the burden of the excessive labor that has been necessary in the accomplishment of the great result. Under the most favorable circumstances the management of a fair is no easy task, but with the conditions that have existed, connected with the erection of the building, scarcity of funds, and the limited time afforded, it can but be said that the success wrought from such a state of things is simply wonderful, and will stand as an enduring evidence of the energy, enterprise and good judgment of those who have brought it about.

For three days exhibits have been pouring in from various parts of the Territory, and those to whom was assigned the duty of arranging them have had no time to rest. But out of the disorder that was unavoidable, a beautiful scene was evolved by the time of the Fair opening today. Of course everything was not in its place, as some of the exhibitors had not been able to bring their exhibits in time. These were, however, quickly arranged as fast as received, and without inconvenience.

Of the display we have not the space to give a detailed description. On the lower floor were assigned the field crops, vegetables, fruits, flowers, minerals, furniture, oils, paints, hardware, glassware, etc.; on the second floor, surrounding the court, were the fine arts, ladies work, leather goods, sculpture, etc., and outside of the main building were the animals, agricultural implements, etc.

A striking feature of the vegetable division was Sandy's contribution. There were cabbages, potatoes, and other vegetables, and among the lot were a number of American squashes; one of the latter, raised by A. J. Gushing, was 88 inches in circumference and weighed 184 pounds. A gentleman on viewing this mammoth specimen suggested that it would be a good campaign document to forward to the National Democratic Committee as a sample production of the Territory best entitled to Statehood.

An article that attracted attention was a home-made cooking stove, in P. W. Madsen & Co.'s exhibit; the stove was made by J. T. Lovett & Son, of this city.

The exhibit of butter and cheese also attracted special notice, and it is the finest of the class ever made in Utah.

The ladies work department is duly arranged in the south end of the upper portion of the building. There can be seen fancy work of almost every description and of a class that cannot be excelled anywhere.

The fine art department is under the personal supervision of Geo. M. Ottlinger, Esq., who, though not a member of the board of directors, has given them valuable assistance in this line. The entire north end of the building, upstairs is occupied with this department, and then there is scarcely room to hold it. All of Utah's best artists are represented, and their combined works are a marvel of beauty.

Owing to the cold, drizzling rain that prevailed all forenoon, and other circumstances that could not be controlled, the opening exercises did not commence until 1 o'clock. Contrary to general anticipation, in consequence of the storm, there was a very large attendance, the building being thronged both in the gallery and the main hall.

On a platform in the main hall was the Theatre Orchestra, under the direction of Prof. W. E. Weihe, and a chorus from Stephens' Opera Company.

At precisely 1 p. m. the concourse of people was called to order by Hon. John R. Winder, President of the Des-

eret Agricultural and Manufacturing Society.

The Theatre orchestra then rendered Offenbach's overture, "Orpheus."

The opening prayer was offered by Apostle Franklin D. Richards.

"The Anvil Chorus," from "Il Trovatore," was then rendered by the Stephens Opera Company and the Theatre Orchestra.

Gov. Caleb W. West was introduced and was received with applause. He said, in substance:

I am happy to be here on this occasion and to see so many present. For several years the society has not held annual exhibitions, but this season the Legislature made an appropriation for a building, and this square was generously donated by Salt Lake City for the uses of the society.

By indefatigable efforts the directors of the D. A. & M. Society have brought to pass what you now see. The spirit of enterprise shows forth most nobly here. We are a young community, but here are the evidences of our energies, of which any community may well be proud, and which in many respects cannot be surpassed by the older communities. We have a thrifty, industrious and prosperous people, and before us we behold their handiwork. I trust the people will recognize the necessity of an institution such as has managed this work, and give it cordial support. It will exhibit their ingenuity, energy and resources, and result in invaluable benefit to all. Here we can come to unite for the good of the Territory, forgetting for the time all differences; for here there should be no differences. All meet here for the common weal.

President John R. Winder said, substantially: In the year 1855 the Legislature chartered the D. A. & M. Society, and in 1856 the first exhibition was held in the Deseret News building. Since then our fairs have been held at various places, but now, through the generosity of the Territory of Utah and Salt Lake City, we now have a spacious square and a magnificent building. We thank you all who have aided us in this great work, and appreciate your kindness. The exhibition is now open.

Prolonged applause followed this announcement, and the exercises were closed by the orchestra rendering a selection from "Maritana."

FROM THURSDAY'S DAILY, OCT. 4, 1888.

THE EXPOSITION.

Description of the Contents of the Main Building.

On entering, the building, a glance over its contents shows they have been well arranged for convenient display. Turning to the right immediately on entering, the visitor approaches the display of confectionery of H. A. Tuckett, which is very large and embraces a great variety. This is a highly creditable exhibit of home-made goods.

Arbogast & Trumbo, a little further on, are engaged in making, before the visitor's eyes, confectionery of beautiful forms and fine quality.

In the south west corner of the building is an interesting collection of Utah mineral specimens, such as ores, building stone, coke, coal, etc., which serve to indicate the mineral wealth of this region.

The display of show cases by G. F. Culmer & Bro. included a number original and artistic in design, and very handsome. Home-made demijohns were an interesting feature of this firm's exhibit.

The Salt Lake Glass Works had a display of their wares which was very handsome, interesting and creditable. It embraced bottles in great variety, fruit jars of different sizes, and uncovered demijohns holding from half a gallon to two gallons; also a number of fancy articles, such as canes, ladies, etc.

Denbalter & Sons had a handsome pyramid of samples of the various summer drinks they manufacture.

Some very handsome pianos and organs are included in the Calder exhibit. Hewlett & Saderup show a great variety of summer drinks manufactured by them.

The Provo Pottery has some excellent samples of jars, vases, etc.

Elias Morris has an exhibit which includes some very handsome mantels, grates and hearths; a variety of Portland cement piping; fire clay manufactured into tiles, brick, etc.; and some very artistic marble work. Nothing in this exhibit was specially prepared for the Fair, the articles being taken from regular stock.

Henry Dinwoodey's display of furniture is very fine, the most interesting article being the Hoy bed-lounge, which is an elegant and very convenient thing. It is manufactured at Mr. Dinwoodey's establishment. Several articles of upholstered furniture made entirely in this establishment were excellent. A large easy chair, made throughout since last Monday morning, was one of the handsomest articles of the kind ever displayed in this city.

Mr. Scott Anderson, of the Andersen Sign Company, attracted much attention by the rapid and skillful manner in which he produced neat sign cards, for use in the building.

The Utah Cracker Factory has a surprisingly fine and varied display of the goods it turns out. Over 75 different kinds of crackers, cakes, etc., are shown in this exhibit, many of them
