

so changed that her husband did not know her. Her name was Mary Barron.

Gov. Butler—What was her husband's name?

Witness—I don't know. He lives in Boston.

Gov. Butler—Never mind; the newspapers will bring him to me tomorrow morning.

On cross-examination, witness said of 73 children who came there in a year, only one lived.

CHICAGO, 3, 10.15 p.m.—The indications are the entire democratic city ticket is elected by 5,000 to 8,000 majority.

The election returns from Madison, Wis., show the same result, and the municipal elections generally throughout the country have resulted in the election of the democratic candidates.

Cincinnati, 3.—Unofficial returns show the democrats have elected the mayor. But five precincts of 60 in the city are yet fully reported. These show republican gains. Official reports gathered at the Lincoln Club indicate that the vote is close between Sadler and Stephen's for mayor. E. Shelby's election is secured by 3,000 to 5,000.

Denver, 3.—Incomplete returns indicate that ex-Gov. L. Rount is elected mayor, together with the whole city republican ticket, with the probable exception of city attorney. Rount was compelled to accept the nomination, as the only man who could unite the republican factions, and beat both oppositions. He received a majority over all.

Cincinnati, 3.—Commercial Gazette's special: Republicans elect candidates in Foresta, Lebanon, Van Wert, Gallon and London, Ohio; a divided ticket is elected at Mansfield, Pomeroy, Newark and Akron. The Democrats elect the entire ticket at Chillicothe, Findlay and Xenia. Ohio has elected a democratic Solicitor.

Little Rock, Ark., 3.—The municipal election resulted in the election of Dramer for Mayor; Griffith, police judge, Hudson, treasurer; all democrats, though political lines were not drawn. Dr. Theodore Linde is elected Mayor of Hot Springs.

St. Louis, 3.—Of five councilmen elected to-day, two were democrats, two republicans and one independent. The proposition to fund the city debt carried.

Leavenworth, 3.—Dr. S.T. Neely, democratic candidate for mayor, is elected to-day by a larger majority than any mayor for years.

Evansville, Ind., 3.—Indications at his hour are that the whole democratic city ticket, and four out of seven and perhaps five out of seven Councilmen are elected.

Cincinnati, 3.—The Common Council on joint ballot stands, democrats 42, republicans 38. The official returns will be necessary to show the majorities of the officers elected.

Omaha, 3.—The city election to-day has been hotly contested, and the count is unfinished at midnight. It is believed that Champion I. Chase, republican nominee and liquor interest candidate, is elected by about 40 votes over ex-Judge Savage, the candidate of the democrats and citizens.

12:30 a.m.—The republicans concede the election of the entire democratic city ticket by 6,000 to 10,000 majority. The democrats claim 2,000 to 14,000. This is a decided democratic gain compared with the election last fall, when it was practically a tie, the result depending on the personal popularity of the candidates: half democrats and half republicans were elected. Two years ago Harrison was elected mayor by 2,000 majority. The ticket elected to-day is as follows: Carter H. Harrison, mayor; John M. Dunphy, John S. Grinnell, city attorneys; John Neumaster, city clerk. The council will be overwhelmingly democratic; of 18 old members who held over, three are democrats.

FOREIGN.

LONDON, 2.—Prominent officers connected with the railways throughout the kingdom, have been in consultation with respect to recent outrages, and as a result the railway companies have resolved on the organization of a protection corps, whose duty it will be to watch suspicious persons traveling the roads, and guard against the carriage of parcels supposed to be used in the prosecution of unlawful and disloyal designs.

Among other measures taken for the purpose of thwarting dynamite makers, experiments will be un-

dertaken with a view of preparing an analysis of the various forms and component parts of all substances that are capable of being employed as explosives. The result of these experiments will be given to the police, and it is believed the ingenuity of the men who are now engaged in the manufacturing and use of those diabolical contrivances will be thwarted by this means.

Parnell has received a letter from his friend and co-laborer, William Redmond, who has gone to Australia to organize land leagues in that country. Redmond reports he had been successful beyond all expectations, and prospects are brighter in their Ireland on account of his visit.

The failure is announced of C. Deveau & Co., merchants of this city; liabilities \$400,000.

The steamer Indiana to-day took the first batch of emigrants forwarded free by the British government to America. The party numbered 75, and was principally made up of persons evicted in Connemara, Ireland.

The returns of the financial year show that the revenue of Great Britain was £39,004,000; expenditures \$59,056,000. Commenting on these figures the Times says: "We may assume the greater part of the additional funds voted for prosecuting the war in Egypt were defrayed from the total expenditures. The prospects of the budget for the coming year thus appear satisfactory."

The Government bonded warehouse on Springer street at Liverpool, was entered yesterday and a number of casks of spirits opened and contents spilled, supposed with incendiary intent; no fire, however.

Liverpool, 2.—Corn old mixed dull, 5s. 11d.; new mixed dull, 5s. 7d. Receipts of wheat since last reported from Atlantic ports, 52,000 quarters; Pacific, 5,450; other sources, 24,250. Receipts of corn 50,000.

Dublin, 2.—Reports from Limerick, say that owing to the improved condition of affairs in that city the extra police which have been kept for some time past, have been materially decreased.

Cork, 2.—It is reported that the police believe an infernal machine factory has been established in this locality.

Berlin, 2.—The celebration of the birth of Bismarck yesterday was the occasion of much brilliancy. Military bands performed national and operatic selections before his residence. Visits were made in person by Emperor William, many ladies of distinguished households, officers of high rank, foreign ministers and other notables, who congratulated the Chancellor. Many telegrams were also received congratulating the Prince upon the recurrence of his 68th birthday. Numerous floral offerings were displayed.

The statement is made that Bismarck has under consideration the propriety of dissolving the Reichstag, should it continue refractory on the question of the construction of the bill providing for increase of military pensions.

Pesth, 2.—The funeral of Count Maphat Von Esenhely, murdered at Ofen, took place yesterday. The town was draped. The Oberhans will go into mourning one month. The police have positive information that the assassin is an Italian named Sponga, formerly apothecary assistant, lately out of employment. Many years ago the Count was stabbed and robbed by the scoundrel who has escaped.

Vienna, 2.—Edwin Booth appeared Saturday evening in Hamlet. He received great applause. The Presse newspaper expresses disappointment, and says the acting was below what was expected of Booth.

Rome 2.—Cardinal Pierre Francis-Meglia is dead.

Madrid, 2.—The marriage of Prince Louis Ferdinand of Bavaria to the Infanta, Marcella Paz was celebrated in the chapel of the royal palace to-day, with the usual state ceremony. The patriarch of the Indies was present. The King and Queen of Spain were sponsors.

St. Petersburg, 2.—The revolutionary party in Russia has issued a proclamation announcing that their preparations are complete to meet a coronation of the Czar, and have every hope of success in fully carrying out their long-devised plans. The proclamation contains a warning to all persons that they shall, if they value their personal safety, keep at a distance from the Czar during the ceremony of coronation. The pronunciamento concludes, "We will strike once more for the freedom of Russia." The proclamation is printed in letters of red, and bordered with stripes of the same color.

Madrid, 3.—It is officially announced that two companies of Spanish troops have started to occupy Santa Cruz de la Peguena.

London, 3.—A Bohemian newspaper states that Francis Joseph Emperor of Austria, will spend the summer at Carlsbad for the purpose of trying its healing waters. A special from Vienna says he has for months suffered from a painful internal malady.

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so safely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and insist on having it. Don't be imposed on with something recommended as "just as good." The genuine is made only by the Brown Chemical Co. Baltimore, Md.

Deservedly Popular.

Unless it had great merit Parker's Ginger Tonic could not be so popular. Its sale has spread remarkably everywhere, because invalids find it gives them new life and vigor when other medicines fail entirely.—Ohio Farmer.

BAKING POWDER IN BOTTLES.

The largest concern of its kind, in the world, (the famous Rumford Chemical Works of Providence, R. I., manufacturers of Horsford's Baking Powder, etc.) announce that after an experience of over twenty-five years in putting up baking powders in tin and glass, they are satisfied that a properly made glass bottle has several advantages over the tin can for that purpose, and they have, therefore, at considerable extra expense, adopted the former for the Horsford.

The bottles have a wide mouth to admit of a teaspoon, and when emptied will be found very convenient for many household uses.

The glass bottle is much cleaner than the tin can, and will preserve the strength of the powder much better. All baking powders gradually lose strength when exposed to the air, and this fact explains the variation in the strength of the same brand of powder in different cans, with which all housekeepers are familiar.
