## Head Ache Sometimes?

If so, it will interest you to know that it can be stopped with Dr. Miles' Anti-Pain Pills; and without any bad after-effects, and this without danger of forming a drug habit or having your stomach disarranged. They positively contain no opium, morphine, cocaine, chloral, ether or chloroform in any form. Dr. Miles' Anti-Pain Pills relieve pain, and leave only a sense of relief. The reason for this is explained by the fact that headache comes from tired, irritable, turbulent, over-taxed brain nerves. Anti-Pain Pills soothe and strengthen these nerves, thus removing the cause. They are harmless when taken as directed.

"We use Dr. Miles' Anti-Pain Pills for the cure of headache, and we find them to be the best remedy we have. They will cure the severest case of headache or sick headache in a few minutes. ### ONE DAY MORE TO FISHING SEASON

Outfits Getting Ready to Depart For Canyons Tomorrow Night.

### FISHERMEN MEET TONIGHT.

Will Hold a Last Conference Before Beginning Quest of Finny Tribe in Utah Streams.

There's one more day to the fishing season. Tomorrow evening the first crop of enthusiasts are entitled to be under way in their favorite grounds. Friday morning the sport will be on, and every Utah stream will probably be whirled by a bunch of anxious anglers, who will return with very meagre catches, and join the protective association.

Fishing this season will be different in character from that of former years. Every man with a pole and reel who realizes that something has to be done, and will appreciate what few fish he may catch, will be out. Lake fishing will appreciate the need for a pooling of an interest in the work to rejuvenate an honorable and almost extinct Utah sport.

WHERE TO GO.

The upward trend this year will be more from the enthusiastic and inexperienced than from the older fishermen. A canvass of the situation today brings out reports from almost all of the famous reservoirs that they have postponed their trip, a week or else are going out to the valley streams, and get out family and into the air. The reason for this is that the waters are unusually muddy and too high to make good fishing.

The most accessible streams are Spring Creek down the valley, the two Cottonwoods, either for valley fishing or canyon fishing, according to the time available to reach them. Valley fishing is the most popular, and the most successful. The Cottonwoods are the most popular, and the most successful. The Cottonwoods are the most popular, and the most successful.
