LONG WAY FROM PARADISE.

But Brazil is a long way from Paradis, or the place has greatly changed size Eve's peccatillo. Here the flowers have no perfume, the birds no song, teath is frightfully busy everywhere

A tangled mass of wild, luxuriant evegetation cowds close to the city, full of birds of the most brilliant plumage, bugs that look like living jewels, and biossoms of wird scarlet, purple and gold, that make the words appear ablaze. There are no delicate hues nor gentle thus, but everything is intense. The whole country seems painted red and yellow,

Mexico; but none of them could hold a cardle to those that abound in Bra-

il as numerously as files in summer-

time in the United States. Ever since we came here there has been a taran-

tula lurking in our hotel bed-room, visible only at intervals, then, as if an-

imuted by the impish desire to torment strangers, he will dart out from some

rolled up in a brown, woolly ball large saa hen's egg. The instant his spider-

this appears, we rush to the bell rope and summon the servants, when a general bunt is inaugurated; but always

to no purpose, for the wretch has dis-appeared like a second harlequin.

The very best advise I can offer to

the uninitiated in Brazil is this: Nev-ev step out of bed slipperless in the dark nor put a bare foot down by day

without first looking sharp to where it

is going; nor don your hose, nor shoes, nor any other article of clothing with-

out first treating it like a bottle of medicine "to be well shaken before tak-

ing." Never get into bed without first

inspecting the curtains and looking carefully between the sheets and un-

der the pillows. Never poke careless fingers under a table-spread or rug or

into any darkened corner, nor rashly walk into a thicket, or clump of flow-

own garden. Never take active exer-

dse in the hottest part of the day, nor expose yourself to the chilly, poison-laden dews of the night,

nor drink water when you are heated or iced water at any time. Eschew ba-

much arsenic. Whenever you meet an overpowering stench in the street (and

that will be at almost every step in some localities), don't stop to scold

about it, but cover your nose and mouth with your handkerchief and flee as from a pestilence—which it really is. Avoid, if you can, any spot where an old wall is being torn down, or bit of basement being torn down, or bit of

payement being taken up, or a drain disturbed, for those are the very places

disturbed, for those are the very places where the deadly germs of fever lie dormant till molested. And don't be frightened out of your senses if, while being entertained in a Brazilian home, you find a big snake comfortably saleep in your rocking chair, or colled under your pillow, or feel his slimy length drawn slowly across your neck in the night time. It is only the userful and harmless house snake which people keep as we at the north do cats.

That is a doubtful compliment. It reminds me of a remark that a friend of the groom's made at a New Hamp-shire wedding.

"This friend, an observant chap, watched the groom closely during the ceremony, and at the end bore down on the happy man, shook him warmly by the hand, and said:

"Bill, ye done good. I had an idee ye would be skittish while ye wuz bein' tied up, but beroek ye lowked as bold."
