PACIFIC COAST DISPATCHES.

PORTLAND, Oregon, 19 .- The steamer to Laviston, with a cargo of merchandise and passengers, struck a rock at Washiakua ferry and sunk. No lives were lost.

The Tustatin Navigation & Manufac-turing company broke ground to-day

ous dispatches, knowing them to be false, consequently counterfeiting pub-He and private writings; and fourth, complicity in murder, by instigating the arrest and execution of hostages. The friends of the ex-minister of national defence deny the story that has been put out regarding his prostration and weakness. They sesert that he is in no way cast down.

On the 28th ult., at Rome, the Pope held a consistory at which he addressed the sacred college in these words: "We - are, my very dear brothers, in the hands Divine Providence. We have nothing to expect from human aid, for man has shandoned as. Why should we dimemble ! It is better I should tell you that kings and governments, forgetting their promises, leave us to our fate. They have addressed us in five phrases. They sent us the warmest congratulations on the day of our Jubilee, but they are far from taking a step in support of their messages. We can hope for no help from any quarter. King Victor Emanuel will be here in a few days, and will be attended by the ministers of the Catholic States. We have done all that was in our power; but our efforts have failed. All is lost! You will tell me, perhaps, that we have still hope in France, but France can do nothing. She is going through a frightful crisis, which may be succeeded by another yet more dreadful. I repeat it, all is lost, and only a miracle can save us. Turn then to the Almighty and seek interposition from him. Gambetta has been before the Committee of Investigation, appointed by the Assembly to enquire into the doings

of the government of internal defense.

LONDON, 19 .- The Standard says Gladstone will abolish the purchase of army commissions by royal warrant. Several members of the royal family have visited Napoleon. The small pox is decreasing.

Frits' has arrived at Ema. The inhabitants of Metz have sent a petition to Thiers to pardon Rossel. It is reported that Washburne engages that no Communist will be allowed to live in America.

We to investigate the matter says the friends gopt ourselves awake by the amuseof Read will probably settle the amount, ment of dodging the falling stones but he will be at once removed from About once in ten minutes the old mountain gave a shiver, then a burst-like forty thousand muffled cannon, if ever there was such a thing. At each hurst a cloud of black smoke, in the shape of an inverted hay stack, and about thirteen times the size of the Galt House, was driven into the air followed by a mass of livid flame that lighted the country for leagues around. Then buys, look out for the stones. Millions of tone are thrown hundreds of feet into the air, most of them falling back into the crater, but many varying in size from a pigeon's egg to a tobacco hogshead, land outside, and

you must dodge—generally easy enough as they are of a white heat and show as plain as rocket stars. They tumble The ghostly ring of the viewless swords and down the steep cone, hissing and steaming in the snow—she big ones breaking into fragments and flying like a bursting shelf. Now, boys, is the time, ten minutes' interval. We rush up to the very edge of the abyss and look down to see further particulars—see "Dante's Inferne" but you spoil your bosts; I did. You sings your moustache; I did. And you wish you were safely out of it; I did. You turn away sneezing, as if you had accidentally ignited a box of locofocos under your nose; for a moment all is dark, then the long twinkling rows of gas lamps in the streets of Naples seem to spring out of the ground under your feet, though miles away; then you see the lights in the little towns about the base of the mountains, in all save one, and that one the largest. Pompeti-with its great old temple, magnificent theatres, close built streets, and vast arena, is dark; the grim skeletons lying in their ashen beds alone keep their vigil there; their eyeless sockets need no light. No sight that ever I witness d can equal a clear suprise from Vesucius. No one can imagine its grandeur; but you must try to, for I dare not attempt a descripthus. As we stood gazing down on the rootless houses of Pompell, the sun lighting its gray-colored wall-Torre det Greco, with its earthquake-shaken walls-I said: "We have nothing like this in America." "I'm glad of it," said one of the party; "It's awful shabby; don't think it pays." That young man was from Henry county, Indiana.
