A NEW ENTERPRISE.

It is not generally known that a move is on to establish a canning fac-tory somewhere in Granite stake. But such is the case. During the forepart of the week word of a meeting was quietly passed around, among the lead-ing man of the county, who have means back such an enterprise. Some fifbusiness men met in the Granite stake house Wednesday night and discussed at length the possibility of establish-ing a canning factory to take care of the surplus fruit, which the people are unable to dispose of in any other way. It was shown in this meeting that there are thousands of bushels of fruit raised in this county arnually which has to be fed to hogs, while there is as much more which rots on the ground, all for the want of a market. A committee of 13 was chosen to investigate the matter thoroughly and report their findings at the earliest

possible date. It was also suggested that the people form a fruit growers' assocaltion, through which producers may be able to reach the markets outside of the state with the fruits and garden pro-

THROWN FROM A BUGGY.

A lively runaway occurred at the Highland Boy Wednesday last. As a man whose name could not be learned, came driving along the street at a lively rate, in a light buggy, the wheel struck a rut, throwing the driver out under the wheels, which passed over his body, but as the rig was light no harm was done. All that could be seen of the ficing horse was a cloud of dust an when the shaken driver picked himse up he had the appearance of a m who had stood at the rear end of a thrashing machine all day. No seriou harm was done, the horse being caught near Bingham Junction.

CITY COUNCIL SESSION.

The meeting of the last city council was a regular monthly bill night and a great many claims and bills were allowed. The water question was again taken up and after considerable wranging the petition which was prepared and presented to the council by the "business men of tha elty was thrown in the waste basket Thus the city council ignored the set timent and desires of the citizens. The proposition to build a court which was taken up by the council some time ago, was laid on the table until spring. Eight

Special Correspondence. Solomonville, Ariz., Oct. 6 .- This af-

The walls of the county jail were washed away, and walls of some dwelling houses were washed down and considerable down washed down and considerable damage done household goods. No lives were lost and no one hurt. Solomonville is situated at the junction of the San Simone and Gila valleys, the San Simone drains a district of about 70 by 100 miles, reaching to the borders of Old Mexico, like a great funnel, the smaller end tapering as it joins the Gila at Solomonville. In early days this coun-try was covered with grass and vegetation, as the rains fell the water soaked in the earth and came seeping out for weeks following a heavy rain, but it is different now. As the writer and President William D. Johnson were nearing the county seat we noticed a storm up the San Simone in the distance, and by the time we reached the drain channel, it was a raging torrent. Court was to convene Monday, the 3rd inst. Judge Doane was water bound in New Mexico on the Santa Fe, and obliged to go around through Phoenix, arrived just in time this evening to be caught in the storm.
