DESERET EVENING NEWS.

Thursday, - - - October 1, 1868.

LOCAL AND OTHER MATTERS.

CORRESPONDENTS writing for publication are requested to write on one side of the paper only. No notice can be taken of anonymous communications. Correspondents' names must in every instance accompany their communications, not necessarily for publication, but as a guarantee of reliability.

THEATRICAL.—Mr. Hardie takes his Benefit to-night. There is a splendid bill—"JACK CADE," and the "LOST CHILD," with a beautiful duet between.

THE MAILS.—We have been courteously informed to-day by Mr. Tracey, and Postmaster Street, that Wells, Fargo and Co., will carry the mails to-morrow morning, as usual, until further instructions. We are gratified at this. The manner in which they have carried the mail, from the time when they got the road properly stocked, and the first severe winter over, has given the utmost satisfaction; and we hope they will continue to carry it until the lines of the U. P. R. R. and the C. P. R. R. meet. There was a large demand for Wells, Fargo, & Co's. envelopes to-day.

PICTORIAL.—Mr. Dwyer, of the "Railroad News Depot," handed us to-day a late number of *Frank Leslie's Illustrated*, accompanied by a colored cartoon of "The Horse Tamer," representing General Grant as a boy learning a horse to pace. The picture is a very fine one. Mr. Dwyer is driving a thriving business in the "News" line.

MORE GOODS.—Dunford & Sons and Woodmansee & Bro. got in a large quantity of goods to-day. Our market is getting well stocked.

GREEN RIVER CITY.—The authorities at Green River City have issued an ordinance making it the duty of the police to notify all persons carrying fire arms or other deadly weapons, that it is contrary to the city ordinance to carry them inside the corporate limits. The *Index* of the 25th has a police report of seventeen cases. Not bad, that, for an infant burg like Green river.

SHOOTING AT LARAMIE.—A general shooting affray is reported at Laramie city, lately, in which a fellow named Bob Saunders shot at and killed Peter Creamer. The difficulty originated in a "dance house." Sanders was arrested, taken before a Justice, who proposed to release him on $200 bonds to appear before the District Court; but Sanders could not obtain the bonds, so he was held till after dark, when he was turned loose, and went, it is supposed, to the mines.

EN ROUTE.—We had a call this morning from W. H. Hallock, Esq., proprietor of the New York *Journal of Commerce*, *en route* from Japan to the East. The gentleman is well posted on Japanese matters, and his communications on the subject will be valuable and interesting. He goes East to-morrow morning.

PROGRESSING!—The members of the Helena (M. T.) press have not been manifesting the most loving and fraternal feelings towards each other for some time past. The editorial corps of the *Herald*, the *Post* and the *Gazette*, have been keeping up a sort of triangular combat, such as Mr. Midshipman Easy was engaged in under the direction of the mathematical gunner. Angry words and vituperative adjectives have abounded, and latterly "pistols and toothpicks" have been in order. Fisk & Smart of the *Herald*, it seems were shot at, and the same evening the business man of the *Gazette* nearly stopped a bullet, though his paper does not say there was any attempt at murder in the case, only a couple of drunken rowdies firing. The telegraph lately brought word of Dr. Beall, connected with the *Herald*, having been shot and killed by Mr. Pinney of the *Post*, and that the killing was justifiable, being done in self-defence. This homicide has doubtless grown out of the wordy warfare which the various papers have been engaged in, but details of the occurrence have not been yet received by mail.

Since writing the above the *Post* has been received, and from the statements there, it would appear that Beall forced the fatal quarrel.

MORE INDIAN TROUBLES EAST.—The Colorado *Tribune* of the 25th comes to us laden with more accounts of Indian troubles in that Territory. It says "Reports of murders, burnings and thieving operations come in so thick and fast that we can hardly keep track of them." On the morning of the 24th, twenty Indians dashed at John S. Jones' ranche, eighteen miles up the Platte from Denver, and drove off forty-six head of a herd of ninety-two horses belonging to Mr. John Hughes. "During the afternoon a party of twelve or fifteen armed men started in pursuit of the stolen horses and thieving Indians." The same morning "about nine o'clock Messrs. Wakeman and Van Tuyle, of Wilson Park, eighteen or twenty miles from town, arrived with the dead body of Nicholas Wamb, who had been killed and scalped by Indians on Wednesday afternoon at a lake near Van Tuyle's house." The *Tribune* closes an editorial on the subject with "Extermination is the word. Either the whites or the Indians must shall it be?"

HOME TOWN.—Elder Jacob Gates called in this morning, having arrived from "Dixie" last night. He is well and reports matters prosperous in the southern country.

SALT LAKE CITY SEXTON'S report for September, 1868.—Males 27; females 28; of these, under 21, children 32. Died of the following causes, as reported: Bowel complaint, 2; dysentery, 1; consumption, 3; old age, 4; inflammation of brain, 2; water on brain, 2, dropsy, 2; general debility, 2; childbed, 2; stillborn, 1; Diarrhœa, 1; convulsions, 1; Erysipelas, 1; Inflammation of lungs, 1; typhoid fever, 1. Total interments 50.
JOSEPH E. TAYLOR, Sexton.

SCIENTIFIC.—We are pleased to learn from Bro. Robert L. Campbell that Brother Park, school teacher, of South Willow Creek, has a very fine cabinet of natural history, which is well worthy of attention. Mr. Park is a devotee of science. Many compliments have been made upon his school, and the manner in which he has it supplied with the paraphernalia of education; and the cabinet alluded to is not only of exceeding value in giving a practical character to the instructions in natural science, when he made it for that purpose, but is of importance to the entomologist, the botanist, and the mineralogist. In the mineralogical department of his cabinet he has 187 specimens, embracing among other things fine nuggets of gold, and gold quartz from Idaho, Colorado, and Wyoming Territories, nice specimens of rock-salt from Washington county, and it is altogether a very interesting collection. The entomological compartment contains 138 specimens. Connected with this are some rare specimens of birds' nests; and the leg and claws of a mountain eagle, which was shot while making a juicy meal off a rabbit. The botanical compartment has 101 specimens, a number of which, however, are not indigenous to this Territory, some of them having been obtained from the States. We hope Bro. Park's example will be followed by many others, and by other school teachers, for such cabinets are very valuable in conveying information concerning the departments of natural history thus represented.
