tween Manager J. M. Herbert of the Rio Grande lines and General Manager W. H. Bancroft of the Oregon Short Line, which was held in the private office of the latter, Mr. Herbert stated to the "News" that the two railroad companies were in favor of the erection ef a union depot in Salt Lake, providing the city would grant the necessary franchises. In addition, Mr. Herbert stated that work would start shortly upon the new machine shops; there would be some minor changes and departures from the original plans, but, he said, the shop extensions would to all intents and purposes be along the lines which were planned by President Palmer and Col. Dodge before the merger of the Rio Grande Western into the

Gould system. While these subjects have been broached every time Mr. Herbert has come to Salt Lake this morning Mr. Herbert gave definite information which will have the effect of gladdening the hearts of every resident in this city and send realty on the westside soaring in a manner that will bring a

The fight in which Gen. Methuen was aptured occurred before dawn March between Winburg and Lichtenburg. Orange River Colony. The British force numbered 1,200 men. The Boers captured all the British baggage. Gen. Methuen is retained as a prisoner, The text of Lord Kitchener's dispatch unnouncing the capture of Gen. Methuen is as follows:

ILLINOIS ANTI-TRUST Washington, March 10 .- The United | the anti-trust law of the state of Illi-States supreme court today decided the Illinois anti-trust statute to be uncon-

nois. The first two contentions received very slight consideration, the court act. Under that law the corporation could be dissolved, if the law is valid.

He quoted the law at length, laying special stress upon the ninth section exempting farm products, concluding that this provision is antagonistic to provisions of the Constitution granting equal protection to all under the law. He also held that the exempting clause is so interwoven with other portions of the statute as to render it impossible to elminate it from the as entirety and therefore held that the entire law must be held to be invalid.
