

BIG CROWDS SEE THE HORSE RACES

Multitudes Wend Their Way West This Afternoon.

OFFICERS ARE JUBILANT.

What They Say Now the Exposition Of the D. A. & M. Society is Drawing to Close.

President Empey—"The twenty-fifth annual exposition of the Deseret Agricultural and Manufacturing Society has been a great success. We realize that had it not been for the generous act of the Salt Lake merchants in closing their stores on the afternoon of the opening day, and also the kindness of the board of education in allowing all the pupils to visit us yesterday, that there might have been a different tale to tell. Our thanks are due to Gov. Heber M. Wells and Mayor Thompson for their action in the matter. It has been a great success and we feel repaid in many ways and nights we have been working to make the fair a success. I also wish to cordially thank Watermaster Hines and his efficient corps of men, on behalf of the association for the splendid work they have done, in fact, it is unanimous, the association wishes to cordially thank all the heads of departments for their good work."

Secretary Sears—"Considering the expense we have had and the fact that we went \$8,000 above our appropriation, financially we have done splendidly, but it is not the money we are after, every man has done his part. The weather has been perfect, everything has been harmonious and with thanks to the governor, mayor, and all those who have helped the exposition, we are able to come out all right. Yes, the fair has been a decided success."

J. G. McDonald, chairman amusement committee—"I think we have accomplished great things considering the money we had. The horse races, in my opinion, have materially helped to make this fair a success. Then the closing of the stores was the keynote to the situation. The merchants closed up and allowed their employees to see nothing of the shoppers. It was a gracious act, one that was appreciated. With what we have done this year, as experience, our motto from this time on will be "excellent." The closing hours of the Twenty-fifth annual exposition of the D. A. & M. Society this afternoon were marked by a banner crowd. By 2:15 o'clock there were fully 5,000 people on the grounds, most of whom had gathered to see the horse races. At the rate they were coming in all former big days were threatened with total eclipse.

Every indication points to the fair closing tonight in a blaze of glory. Contrary to the expectation of former years the exhibits apparently have retained their pristine freshness, while the energetic attendants, feather dusters in hand, have to a measure solved the dust problem.

The state fair, can be said to have been an unqualified success, both artistically and financially. While some complaints have been heard that some departments were not so good as the standard set in former years, when the fact is taken into consideration that since last year the society has been to a great extent in moving, erecting buildings and making the race track the general verdict is that wonders have been performed by the energetic men at the helm.

Next year, when everything will be in good running order, the directors promise great things in the way of a state fair. It was early apparent that the exposition built for the purpose designed, by the intention to remedy this defect, by the possible erection of another new building so that a larger display of perishable exhibits may prevail.

The Deseret News exhibit excites a great deal of curious attention. The handsome booth is fitted up with specimens of home printing, the elaborate "History of the Church," just turned out, being made a special feature. Photographs of the old "News" quarters and of the present magnificent building are prominently displayed. Another interesting feature is the old Lammage press, which the Pioneers brought across the plains, and on which the first issue of the "News" was printed, June 15, 1850. This has been expertly surveyed by thousands during the week. Still another feature, which has drawn much admiring comment, is the papering on the walls of printed slips of the country subscribers of the Deseret News, numbering over 22,000. The names are all arranged by towns and cities, and any country subscriber who desired could by a slight effort find his name in the list.

WOODEN PIPE.

An Exhibit That is of Interest to Irrigators Generally.

One exhibit which is causing considerable interest among irrigators who have been visiting the fair this week is that of the Intermountain Pipe Company, manufacturers of wire wound wooden pipe, which occupies a booth out in the grounds adjacent to the midway. This exhibit has been awarded a gold medal for excellence. The wire wound wooden pipe, while being somewhat more expensive than the iron pipe, has been found and found not wanting in other states. Five miles of wooden pipe was laid in Idgerwood Park addition to Spokane 12 years ago. This pipe has given the most complete satisfaction and is in perfect condition today. If a wooden pipe is kept wet, it practically never decays, so that its life is much longer than the life of an iron pipe, and on account of wood being a poor conductor, the water in the wooden pipe is much cooler in summer, and will not freeze near so easily in the winter; and the makers claim a wood pipe is equally as good as iron pipe and costs much less.

The pipe exhibited stands the test of the highest pressure, and is built so as to include all the latest improvements in wooden pipe known to date. It is made of selected, kiln-dried Douglas Fir, and every stick of lumber used in its manufacture is brought here from Puget Sound.

RICHARDSON SENTENCED.

"Razor Jack" Richardson, who, with Sam Grice, stole a trunk from the Utah-Neveda depot and then broke it open and sold the contents, pleaded guilty to the charge of petit larceny in Judge Tanner's court this afternoon. Judge Tanner imposed a sentence of 30 days in the city jail at hard labor.

SMILING SKIES, LARGE CROWDS.

are not permitted to disturb others by leaving before the end of the services; and it is desirable that the same rule of courtesy to others be observed by the congregations of the Saints.

The choir and congregation sang the hymn which, "O Thou great Jehovah, Benediction by Elder Thomas E. Bassett, president of Fremont stake.

Conference was resumed this afternoon by the congregation and choir singing. "Now let us rejoice in the praise of our Redeemer," was offered by Elder William Hodge, president of the Bear Lake stake. The choir and congregation then sang, "Come, come ye Saints," and upon prayer the conference was adjourned.

President Empey—"The twenty-fifth annual exposition of the Deseret Agricultural and Manufacturing Society has been a great success. We realize that had it not been for the generous act of the Salt Lake merchants in closing their stores on the afternoon of the opening day, and also the kindness of the board of education in allowing all the pupils to visit us yesterday, that there might have been a different tale to tell. A NOVEL ARBITRATION CASE.

What the Facts Are in the Matters of Dispute Between Dr. Richards and Trustee-in-Trust of the Church—Former Wants \$57,000 from the Latter.

Considerable speculation and no little inquiry have arisen over the submission through the district court this week of a case of large proportions with Dr. Joseph S. Richards on the one side and Joseph F. Smith as trustee-in-trust of the Church on the other. In brief this is the situation:

In the days of Bishop Hunter Dr. Richards was very desirous of purchasing a piece of property on South Temple street opposite the Temple gates. It had a frontage of about five rods, and was occupied by the Deseret museum, it belonged to Don Carlos Young, who transferred it to the Church on his titling account, whereupon Dr. Richards went to Bishop Hunter, from whom he should be allowed to buy the same for \$3,000, the amount credited to Mr. Young. In the meantime the title had passed to the trustee-in-trust and that Bishop Hunter was not empowered to negotiate in any manner with reference thereto. This is the view that President John Taylor took when the matter was referred to him, and he refused to accept the money tendered by Dr. Richards. President Taylor, it is asserted, had definite ideas concerning the use to which this property was to be put, particularly as to what the proceeds should be used for. As time wore on the property was transferred to the Literary and Scientific Institution. It continued to increase in value very much and when the boom days struck the city Dr. Richards concluded that it was necessary for him to have the property at any price as he had other real estate of big values in the vicinity. Accordingly he paid \$50,000 for it. This is the money that was used to help endow the chair in geology of the State University now occupied by Dr. James E. Talmage. Soon after the transfer last named Dr. Richards, who had received \$50,000 as a husband, had his original contention and the matter went to President Woodruff, who reaffirmed the stand taken by President Taylor. About this time the bottom dropped out of the market so to speak and the price of the property in common with other realty went downward and has never quite regained the altitude which it once held. Dr. Richards is still pursuing his claims and it is in pursuance thereof that the case is now to be adjudicated through the district court without the usual delay attendant upon such suits. The arbitration is friendly in all respects and in accordance with a state law that is expected to be brought into requisition more frequently in the future than in the past. Dr. Richards has chosen as his representatives in the arbitration, Lewis S. Hills and James Sharp, while the gentleman who will act for the Trustee-in-Trust are John H. Barnes and W. W. Ritter. Dr. Richards asks substantially for the reimbursement of \$57,000 which is just that amount in excess of the sum which he avers was acted upon between himself and Bishop Hunter.

ROBBED OF FORTY DOLLARS.

Wyoming Man Finds it Expensive Business to Bother With Stranger.

J. A. Vandeventer, a visitor from Evanston, Wyoming, was robbed of \$40 at the Sanitarium shortly after 11 o'clock this morning.

The young man arrived in the city this morning and wishing to wash off the dust of travel, went to the bathing resort in company with a man named Kelly whom Vandeventer had met some months ago. The latter failed to comply with the rules of the place and deposit his money in a strong box, but took it with him to his dressing room, which he shared with Kelly. They had been in the room but a short time when Kelly said he thought he would go out, and said he would wait for Vandeventer. The latter thought nothing of the matter, but when he got out of the water and began to dress he thought a good many things. He is still thinking. He found that he was short just \$40. He made a search for Kelly, but it was in vain. He made his way to the station and reported his loss. The police are now looking for Kelly with but small chances of locating him.

GOING TO NEW YORK.

That is the Latest Information Concerning the Play "Corianton."

A telegram was received this afternoon from Manager George Thatcher of the "Corianton" company at Kansas City, by the director, asking for permission to take the company to New York for performance in the Manhattan Theater at Broadway and Forty-second street. The desired permission was given later, and the company will appear there on the 20th inst.

A letter from a member of the "Corianton" company, to a friend in this city, dated Kansas City, Oct. 1, says that the company is full of rumors regarding the possibility of going to New York in the management, but no one seems to know anything definite. One report has it that Mr. Frank J. Perley, former manager of the company, is to take the management, and another says that Mr. Anderson, who is in charge of the company, is to go to New York to take the play, and last night a telegram was received by William Bean from his brother, the author, who is in New York, saying that he would come to time at the Broadway Theater a week from next Monday, also asking for flashlight photographs immediately. (The writer adds that he thinks that a Boston agent, who is in the management, seems undecided.) Another rumor is current that the company will return to Salt Lake after the Kansas City engagement. Still another rumor is current that the company will not return to Salt Lake after the Kansas City engagement. Still another rumor is current that the company will not return to Salt Lake after the Kansas City engagement. Still another rumor is current that the company will not return to Salt Lake after the Kansas City engagement.

ANOTHER \$40 ROBBERY.

Late this afternoon Irene Meyers, a colored sporting woman, was arrested by the police on the charge of robbery. It is alleged that she stole \$40 from a stranger who is visiting the city. The woman will probably be arraigned before Judge Tanner Monday morning.

VETERAN'S FUNERAL.

The funeral of Washington Lemon will be held in the Mill Creek ward meetinghouse on Sunday at 11 a. m.

STRIKE SETTLED.

Telephone Linemen and Company Get Together This Afternoon.

The telephone linemen and the company are once more in harmony, the strike is in the past tense, and "all is quiet on the Potomac." There was a conference early this afternoon, between General Manager Murray, Supt. Jackson and a representative of the linemen. The result was satisfactory to all concerned, and a sliding scale of wages was agreed upon to go into effect immediately. This restores to work 35 men in town and five men out in the state, and a number on the northern divisions. Just which side the outcome favors was not stated, but the men are back at work, cheerful as to the future, and the management of the company regards the situation with complacency. It will meanwhile be stated that the transients who started the trouble have sought pastures new.

COAL SHEDS ON FIRE.

Those at Terrace, Utah, on the Southern Pacific, Badly Damaged.

[Special to the "News."] Ogden, Oct. 4.—Word reached Ogden this morning to the effect that the Southern Pacific coal sheds at Terrace, Utah, were on fire and burning ferociously. The sheds contain between 18,000 and 20,000 tons of coal.

Salt Rheum

It may become chronic. It may cover the body with large, inflamed, burning, itching, scaling patches and cause intense suffering. It has been known to do so.

Hood's Sarsaparilla

Promises to cure and keeps the promise. It is positively unequalled for all cutaneous eruptions. Take it.

THE VERDICT

We have tried Three Crown Baking Powder; it is perfect in action; our pastry is light and delicious. We always go to the up-to-date store, where they have it. Quality high. Price regular 25c per pound.

HEWLETT BROS. CO.,

SALT LAKE CITY, UTAH.

30,000 tons of coal. Later information says that the fire is under control. Spontaneous combustion is said to have been the cause.

William Raymond, charged with forgery, was arraigned before Judge Howell this morning and bound over to the district court in bonds of \$500. Not being able to furnish it he was taken to the county jail. Raymond endeavored to pass a check for \$57 bearing the name of Dr. Richards, but was arrested in the act and lodged in jail.

LAWYER'S WIFE SUES.

Wants Divorce from Husband on Account of Drunkenness.

Judge Henry Rives, a prominent attorney of this city, was made defendant in a divorce suit which was filed in the district court today by Stephens & Smith, the attorneys for Mrs. Mary M. Rives, the plaintiff in the action. The complaint alleges that the parties were married in San Francisco on Jan. 27, 1900, and that for more than a year last past the defendant, disregarding his duty as a husband, has been guilty of habitual drunkenness. It is further alleged that defendant is a practicing lawyer in this city and is capable of making \$500 per month from his profession. Mrs. Rives asks that she be granted a divorce, \$100 per month permanent alimony and a reasonable amount for temporary alimony, suit money, attorney's fees and court costs.

TIRE RIDDLE CASE.

Judge Booth Says Defendant's Actions Make Him a Legal Husband.

[Special to the "News."] Provo, Oct. 4.—Judge Booth this morning rendered a decision in the separate maintenance suit of Mary Caroline Riddle vs Isaac Riddle, which has been in court for several months and has attracted attention by reason of defendant's claim that his marriage with plaintiff was a plural one and that therefore she was not entitled to relief as his legal wife.

The decision is to the effect that defendant by reason of his marriage and his conduct in holding out plaintiff as a legal wife is estopped from denying plaintiff as such, and that for the purpose of deciding the rights of the parties to the case, defendant is the legal husband of the plaintiff.

It is decreed that defendant shall pay to the plaintiff \$100 a month, some \$18 per month alimony for her support, and an additional \$100 for attorney's fees. This is in no way to affect the deeds already signed and executed by both parties, and the court is of the opinion that such deeds are valid conveyances.

POLITICAL POINTERS.

Hon. Joseph Howell, Ben E. Rich and Lewis T. Cannon will address a rally at Coalville the evening of Oct. 8. On the following night Messrs. Howell and Cannon will speak at Heber.

WYOMING UNIVERSITY.

TOO LATE FOR CLASSIFICATION.

A SOLITAIRE DIAMOND RING. Finder will be suitably rewarded by returning same to room 90, Commercial Block, city.

ABSTRACTS.

Three points to think of when you get an Abstract of Title to Real Estate

1. Completeness.

2. Accuracy.

3. Responsibility.

The Utah Savings & Trust Co. invites an examination of its complete real estate records, of the methods adopted to secure accuracy, and of its ability to make good any loss caused by error or omission in its abstracts.

The value of an Abstract depends upon these three vital points, insist on an abstract from the
