

## AMERICAN ARMY IS OVER MARRIED.

Such is Statement of Gen. Corbin Who Would Forbid Young Officers to Become Benedicticts.

## SHOULD HAVE A COMPETENCY.

Pay of Subaltern Officer is Barely Sufficient to Provide for His Needs.

Washington, Sept. 20.—That no army officer be permitted to marry until he has first secured the permission of the secretary of war and satisfied that official that his income is sufficient to support himself and family, and that he is entirely free from debt, is the recommendation made by Maj.-Gen. Henry C. Corbin, adjutant-general, commanding the Atlantic division and department of the east, which was issued at the war department today. Regarding marriage in the army, Gen. Corbin says:

"I desire to reiterate in effect what I have formerly said on this subject, which statement, however, has been misread, misquoted and misunderstood. "Marriage of army officers who have made no provision for assuming the responsibilities thereof is harmful, both to the army and to the officers themselves. To this broad statement there are, of course, exceptions, as there are to all broad statements, but the general fact remains that our army is over-married. The pay of a subaltern officer is barely enough for his proper support and the expenses of his equipment and uniform. If to this is added the inevitable expenses attached to a family, it is not only probable, but almost certain, that when an officer strikes his balance at the end of the year he will be behind if he has no income but his pay."

"That a bachelor officer is more valuable to the service than a married officer does not follow, nor do I wish to be understood as so saying, but the married officer is less valuable if in marrying he has not exercised that prudence which should govern all transactions in life."

Further on in his report Gen. Corbin says:

"I am firmly of the opinion that no officer should enter the marriage relation without first getting the authority of the war department, and as a necessary condition thereto, that his income after marriage will be sufficient to support himself and family, and, above all, if he is to live on his pay, he should state on honor that he is free from debt."

## Arrested For Counterfeiting.

Farmington, Me., Sept. 21.—LeRoy A. French of San Francisco, claiming to be a member of the United States secret service force, assigned to the state of Maine, to apprehend counterfeiters, drove to this place yesterday from Bangor, 40 miles away, and lodged in jail G. A. Harlow of Pittsfield, Me. French charged Harlow with being a counterfeiter.

Later, W. L. Butler of Rangeley, a liverman from whom French secured the horse and buggy, had the alleged

## Bad Blood

Pimples, rashes, eczema, boils, headache, nervousness, debility—these are some of the results of impure blood. Medical authorities agree that impure blood can be made pure and rich. Your doctor will tell you about Ayer's Sarsaparilla.

Bad blood follows constipation, and constipation follows a sluggish liver. Ayer's Pills are liver pills. They produce natural daily movements in a natural way.

25 cents. J. C. AYER CO., Lowell, Mass.

secret service officer landed in jail on a charge of stealing the conveyance. French was arrested while endeavoring to cash at a local bank three checks aggregating \$400, signed by Harlow. He had taken the jailer to identify him. State police here say they do not know French as a secret service officer.

## No Ultimatum to Building Trades.

New York, Sept. 21.—Issuance of a general strike ultimatum to the employers by the unions in the Building Trades Alliance here has been postponed. It was to have been presented today with the purpose of attempting to end the lockout in force against the alliance unions. Meantime, the employers claim to be filling the places made vacant by members of the alliance.

A revolt has taken place in the plasterers' union. About 400 men employed exclusively in ornamental plastering withdrew and formed a union of their own. Part of the members returned to work at once, ignoring a strike ordered by the old union.

## Gave Some of Their Cuticle.

Chicago, Sept. 21.—A dispatch to the Record-Herald from Milwaukee, Wis., says: George Faulkerson, William Andrews and a man named Lee have given or lost square inches of cuticle at Mount Sinai hospital, three years old, who was terribly burned. The operation was successful and the child has a chance of recovery.

## Population of Buenos Ayres.

New York, Sept. 21.—A municipal census has just been taken, says a Herald dispatch from Buenos Ayres. The exact figures are not yet known, but the population of Buenos Ayres is estimated at about 1,000,000. The Argentine capital is now the largest Spanish speaking city in the world.

## Inspector of Russian Artillery

St. Petersburg, Sept. 21.—The emperor has appointed the Grand Duke Sergius Michalevitch to the newly created post of inspector-general of artillery. The grand duke is an uncle of the emperor and governor-general of Moscow.

## Escaped Prisoners Recaptured.

Trinidad, Colo., Sept. 20.—George Hitt and Harvey Beaumont, two of the prisoners who escaped from the county jail here yesterday, were captured at Clayton, N. M., today and have been brought here to jail. The men were captured by a Colorado Southern freight conductor, who gets \$100 reward offered by the sheriff.

## BATTLE WILL TAKE PLACE AT MUKDEN

Kuropatkin Preparing to Make a Determined Resistance at That Point.

## HE HAS AN IMMENSE FORCE.

Renewed Attack on Port Arthur Expected to Result in Its Fall Within a Fortnight.

Tokio, Sept. 21. Noon.—An impression is growing general that an engagement will soon take place at Mukden. Gen. Kuropatkin is evidently preparing to make a determined resistance to any attempt to dislodge him, and is entrenching and constructing defenses. He has an immense force available, but the opinion is expressed that the pass would be a more favorable location for defense. The Russians, however, are unwilling to suffer the loss of prestige which would be involved by the abandonment of Mukden.

Both armies are now rested and have recovered from the effects of the fight of Liao Yang. They are in condition to fight and the weather is favorable for military operations. The roads are drying and the Japanese are speedily restoring the railway. A party of military attaches who recently came to Liao Yang from Tokyo were dragged for 10 miles in open trucks by coolies. The army is now forwarding rolling stock with captured cars and engines, and the service will soon be thoroughly organized.

With the Liao river open the task of transporting men and supplies to the advanced base of operations at Liao Yang is simple.

There is much speculation now as to the extent of the fall and winter campaign. It is generally thought that Field Marshal Oyama will continue pressing Kuropatkin back until the winter falls and will then strongly guard his advance line until spring. The Japanese carried on an aggressive campaign against the Chinese during the winter, but conditions are different this year.

A renewal of the attack upon Port Arthur on never and more aggressive lines is expected this week, and it is predicted in well informed quarters that the reduction of that fortress will be accomplished within 10 days or a fortnight.

The authorities continue silent concerning operations there. The publication of a small list of casualties in the naval brigade operating on land is the only recent official utterance in reference to the siege.

The spoils taken at Liao Yang continue to grow. General Kuropatkin reports the capture of four miles of railway rails and 200 tons of coal.

## Corn Crop Not Out of Danger.

Chicago, Sept. 21.—Although the corn crop is not entirely out of danger, the indications throughout the west are that it will be harvested before the killing frosts unset the present calculations of the farmers. Reports to the weather bureau last night indicated safe temperatures throughout the west, with

## The New Political Party

Has got to stand for good bread or lose the women vote. Therefore

HUSLER'S FLOUR.

possible light frosts in northern Illinois, Wisconsin, Iowa, Minnesota, the Dakotas, Nebraska and Kansas, an intimation of killing frosts in parts of Minnesota, Wisconsin, and Michigan, followed by the assurance that warmer weather would soon prevail in the Dakotas and Montana.

## Populists in a Quandry.

Portland, Ore., Sept. 20.—As a result of a meeting held in Salem, Ore., petitions are now being circulated by a committee representing the Populist party in this state in an endeavor to secure a necessary number of signatures for the endorsement of four electors chosen at the meeting that the names may appear on the ballot at the coming presidential election.

It was at first intended to hold a convention at which an electoral ticket would be elected, but it was found that the time was too limited and nomination by petition was substituted.

## MRS. BOTKIN ARRAIGNED.

Must Answer to Charge of Murdering Mrs. Ida H. Deane.

San Francisco, Sept. 20.—Mrs. Cordelia Botkin, who is under sentence of life imprisonment for the murder of Mrs. J. B. Dunning, appeared in Superior Judge Dunn's court today to answer to the charge of having murdered Mrs. Ida H. Deane. It being shown that the transcript of the evidence today in the lower court, where the preliminary examination was held, has not yet been filed, the case was continued until Oct. 4 for trial.

## AUTOMOBILE ACCIDENT.

Machine Swerved and Threw The Occupants to the Ground.

Chicago, Sept. 20.—Miss Neva E. Scott of Chicago was seriously and six other persons slightly injured in an automobile accident at Twentieth and Michigan avenue today. The occupants of the vehicle are said to have planned to start today for St. Louis.

Besides Miss Scott, the injured are Miss Helen Davies of New York, niece of H. C. Davies; N. C. Murphy, theatrical manager, of Boston; Dr. R. Smith of New York; Miss Grace Brown of Chicago; Miss Zola Terry of Peoria, and Miss Helen Reidy of St. Louis.

A hose stretched across the street caused the automobile to swerve and crash into the curb, throwing the occupants to the pavement. The men in the party, despite their injuries, assisted the bruised and frightened women to the grass plot beside the boulevard and summoned medical aid. Miss Scott is said to have sustained internal injuries.

## IMPORTED CHINESE WOMEN.

Chinese Interpreter and China Mayor Arrested for It.

San Francisco, Sept. 20.—H. L. Eca Da Silva, former interpreter in the San Francisco Chinese bureau, under Commissioner North, was arrested today in St. Louis by United States secret service men on a warrant telegraphed from this city on an indictment by the federal grand jury. Da Silva was taken before a United States commis-

sioner and ordered removed to San Francisco for trial. He and Lee Toy, known as the mayor of Chinatown, in Philadelphia, will be arraigned on Sept. 20 on a charge of importing women into the United States for immoral purposes.

Lee Toy who was arrested five days ago was released today on \$5,000 bail.

Da Silva and Lee Toy arrived from China on the Doria a few weeks ago with 207 Chinese acrobats and 12 Chinese women for the exposition at St. Louis. Four of the women confessed that they and their companions were slaves and were being brought to the United States for immoral purposes. The four were not permitted to land but the eight other women were allowed to proceed.

Philadelphia, Sept. 21.—With every prospect of gaining a reprieve and eventually a commutation to a short term of imprisonment, James Webb, under death sentence for the murder of his wife and mother-in-law, has declared in his cell at Moyamensing prison, that he wishes to die and by his own act has cut off his only chance of escaping the gallows. When his attorney went to the prison with the documents needing the convicted man's signature, Webb refused to sign, and said he wanted to die on the gallows.

## HIT BY LIGHTNING.

Played Hayco With Reno Power And Light Co. Plant.

Reno, Nev., Sept. 20.—Lightning hit the electric light wires of the Reno Power Light & Water company tonight and as a result the big generator of the company was burned out and for some time the town was in darkness. But for the auxiliary plant at Floriston the town would have been in darkness throughout the night. Electric storms have been frequent here for the past several days. Considerable damage has been done, but no fatalities are reported.

## HOTEL THIEF ARRESTED.

Charles Burke Nabbed by Officers In the Auditorium, Chicago.

Chicago, Sept. 21.—Charles Burke, declared by the police to be an expert hotel thief, has been arrested at the Auditorium hotel. Nearly a score of letters and checks, which have been identified as being the property of hotel guests in Chicago and St. Louis were found in his pockets. Under the name of William H. Hopkins, he is declared to have cashed a \$200 check at the Auditorium hotel, which later was declared a forgery. Burke denied the charge.

Burke is said to have obtained at the clerk's desk in the hotel a letter addressed to Max Toltz, a guest. The letter contained a registry notice and with this Burke is accused of obtaining the registered letter belonging to Toltz.

The loss of the letter cost Toltz a contract worth \$10,000 to him.

## Patriarchs Militant.

San Francisco, Sept. 21.—The International Council of the Patriarchs Militant have decided to change the design of the cap now worn by the uniformed Odd Fellows. The new cap will be the same as that worn by the United States army, with the exception of the necessary Independent Order of Odd Fellows attachments.

The council has also decided to impose a per capita tax of 25 cents for the purpose of assisting in maintaining the headquarters of the order at Maquoket, Iowa.

## Dredgemen Ordered to Strike.

Chicago, Sept. 21.—Orders for a general strike of the dredgemen now employed in Boston harbor on government work have been issued from the Chicago headquarters of the International Dredgemen's union. The strike order was the result of the refusal of

the Boston dredge contractors to sign the wage scale and agreement recently presented by the union.

This agreement calls for an increase of wages for all dredgemen. It fixes the pay for engineers on the dredges at \$15 a month, and that of the other dredgemen at a slightly lower figure. The wage scale has been accepted by all the contractors on the Great Lakes.

## Supplies For Siberia.

New York, Sept. 21.—A dispatch from London to the Times on the subject of marine insurance says:

Business is active in steamers with coal, oil, and stores for Russian accounts. It is clear that urgent measures are being taken to secure supplies for Siberia and Manchuria before the winter. Underwriters are skeptical as to the weather permitting steamers which have still to sail from Europe to reach Vladivostok.

It has been known for months, the correspondent adds, that unless large quantities of oil are got out of many of the eastern Siberian towns may be in darkness during the winter.

## Three Argentine Generals Dead.

New York, Sept. 21.—Three Argentine generals have died in the last three days, says a Herald dispatch from Buenos Ayres, Argentina. These are Lieut.-Gen. Gelly y Obes, Division Gen. Arredondo and Brig.-Gen. Pico. Gen. Gelly y Obes was the oldest veteran of the Argentine army, and rose from the ranks to the highest position.

## Henry Weinhard Dead.

Portland, Ore., Sept. 20.—Henry Weinhard, brewer and capitalist, and one of the most public spirited men in this city, died tonight of uræmia at the age of 75 years. Mr. Weinhard had been unconscious for two days.

Henry Weinhard was born in Ludenbourn, Wurttemberg, Germany. He learned the trade of brewer in Stuttgart. Young Weinhard came to America in 1851 and to the Pacific coast in 1856. His first brewing venture was on this coast at Vancouver, Washington, when in 1859 he bought the John Money brewery. A few years later he secured a half interest in a brewery in this city, becoming sole owner of it in 1866. This plant Mr. Weinhard developed into one of the largest brewing establishments on the Pacific coast.

Although Mr. Weinhard became one of the richest men in the Pacific northwest he was always genial and approachable, especially to his own countrymen. He was a liberal contributor to all benevolent enterprises and a warm friend of every project to advance the interest of Portland. Mr. Weinhard left a wife and two daughters. He was a Mason and a member of several societies.

## Disgusting hands from Eczema cured by D.D.D. Prescription

By reading this lady's experience you may save yourself years of fearful agony.

D. D. D. Company, Chicago.  
Gentlemen—I have suffered for a long time with fearful sores on my hands. In fact my hands were nothing but huge sores. It started from a very little spot between two fingers. I tried everything and many doctors, but until I began using D. D. D. nothing helped me. I was even discouraged with this at first for I used it for four months but the hands continued to peel and scale and were too hot. I kept on though and at the end of the fifth month there was some improvement, and in seven months I was cured. To say that I am grateful doesn't begin to express my feeling. Life is now worth living, thanks to you. Sincerely, MAY BRINSON, 1126 Seminary Ave., Chicago.

Thousands of wretched people are miserable—driven almost to insanity by the terrible itching and burning sensation of Eczema and other skin diseases.

Many imagine they are suffering from bad blood, when as a matter of fact the blood has nothing to do with it. These awful eruptions are caused by little germs that attack the skin externally, which can be rooted out quickly, leaving the skin clear, soft and healthy. The misery is cleared away as surely as the sun shines above. Not merely attempted, not a temporary relief—but a clearing of it all away absolutely and permanently.

## The D. D. D. Prescription,

a specific formula, put up in sealed bottles with authentic label at \$1.00 per bottle, has proven to be the only certain cure for these diseases. Its record of cures is astonishing, amazing, almost miraculous. It is a liquid, used externally, non-greasy.

Try it on your guarantee.
