and brought about a settlement.

Thanking you again, we remain, Yours Truly,

In one week without the knife or radical surgical operation, without pain or de-tention from business, and there are thou-sands of people who know from actual experience that the statements I make are true. I also treat

Blood Poison. Stricture, Hydrocele, Piles, Fistula and **Reflex Disorders**,

under a legal written guarantee to cure perfectly and permanently or refund ev-ery cent paid for treatment. Delays are dangerous, and if you need treatment at all you should accept none but the most reliable and trustworthy. I can furnish bank or personal references, as desired, and will take pleasure in doing so. Con-sultation at office or by letter is free and solicited whether you want treatment of not, and if you want treatment the terms will be entirely satisfactory to you. Ad-dress

MONDAY SPECIALS IN

DRESS GOODS SELLING

Our ever increasing business in this department is conclusive that our goods and prices are always right. All we ask is inspect them and

50 pieces colored wool dress fabrics, consisting of

in Provo, who was ill of a nervous spinal disorder. He spent a day in the academy, renewing old acquaint-ances. The brother has happily recov-ances. ered, but it advised to cut short his rudies for the year.

Miss Zella Ballard of the training school was the moving spirit in a recent school was the moving spirit in a recent excursion, by the students-in-training, to the ponds and bayons of Provo to the ponds and bayons of Provo river. The object was to study those forms of vegetable and animal life which are just now of special interest o pupils. Specimens of frog's and river. forms to pupils. Specifiens of frog's and toa's eggs, various forms of moss, and "pussies" from the most forward shubs, were among the collections carried back to the school room.

The free dance given last Friday evening to all the students who took part in cleaning up and improving the part in cleaning up and improving the grounds, was unique in that it was a comingling of all grades, from the subs to the collegiates. A genial all-school social spirit prevailed. The girls won praise for the dainty refreshments they served on the east balcony of the gymnasium. Among the guests were the Colorado basket-ball team.

All the events in the interclass track atheltics were not given last Saturday; but in those that were, the '05's cap-tured nearly everything in sight, with in these, Mr. Lowe, president of the 's won easily over Colton of the '05's W's won easily over collon of the '05's. He was in every sense a "dark horse," not only to the entire school, but also to himself, as he scarcely knew what he could do. He will, however, be in vidence in the training courses hereafter.

Next to winning the last game with the Colorado basket ball boys, the academy students were glad to have extended to the visiting team the only balm in the long series of defeats. We failed in the second game, so our boys elalm, from the fact that our team had practically disbanded for the season, and the relaxation of nervous tension told seriously against them; also from the fact that one of our star players was too ill to take part in the game.

BEAVER BRANCH B. Y. A.

The weather on Friday and Saturday was delightful and the class contest was therefore groatly enjoyed by all who witnessed it.

From the outset it was to be plainly seen that the contest would be won either by the '03's or '06's, and not until the last few events was it definitely known who would hold the cup the coming year. The decision was finally n favor of the '06's, though Fred Gard!of the '03's made more points by far than any other one contestant.

Some of the Panguitch boys came with the academy boys the other day the former winning the game by three tallies.

Prof. and Mrs. Durham entertained the faculty and members of the academy choir on Saturday evening,

WEBER STAKE ACADEMY

Ogden .- The fine spring weather. seems to have very little effect upon our attendance.

School dismissed last Monday for conference, and reconvened again Tuesday morning.

A game of basketball between the Weber Stake academy and the Logan B. Y. C. is scheduled for the 17th.

The Athletic association will give a rand ball in honor of the visiting members of the girls' basketball team of the B. Y. C. of Logan, which plays our girls on the 17th. A grand time is expected. The game will be played at the pavilion in Lester park.

Prof. Lind took his class to Dr. Haris' office, and there they witnessed the "funny things" of the X-rays.

Last Wednesday at 4:30 p. m. cur boys defeated the North Ogden base-ball team. The score was 16 to 7 in favor of the Weber Stake academy. The president of the Athletic association an-bounced to the school that our boys were of the right material to make a good showing this year.

We have seen notices on the black-board of late of the class of 1906 and others to meet to effect an organization. This is indicative of school pat-notism and perpetuity of class work.

AGRICULTURAL COLLEGE

Logan.-Prof. Swendsen returned to his work on Tuesday after a brief ill-

Trustee Whitmore, Director Widtsoe and Prof. Merrill, the committee on location of dry farms, had a meeting at Nephi last Monday to arrange their tour of inspection of locations. They are how in the southern part of the state and will probably complete their work the coming week.

The building committee of the board of trustees is pushing its work as rapidly as possible, so as to let con-tracts for the new buildings at an early data

Mrs. Goodwin, the librarian, has been sick for the past 10 days.

The annual catalog will be ready for the printer in a few days.

The board of trustees at their meethag last Saturday completed arrange-ments for next year's work. The pol-icy of the institution is in no way changed, and the work will be strengthened wherever possible.

President Kerr gave a brief address at chapel last Tuesday on the work of the college,

On next Tuesday, the class in English 5 begin a study of the Idyls of the King with Prof. Upham.

The Engineering ball last Saturday evening was well attended and a good time reopried.

The senior engineers in their course a applied mechanics under Prof. Jenson have finished the analysis of va-son have finished the analysis of va-son have finished the analysis of va-suspension bridge and will employ bemaelves for the next few weeks in working of the next few weeks in working out a complete design of a sin-gle panel of a long bridge.

The life of the wildcat which has been The of the wildcat which has been one of the attractions of Prof. Ball's laboratory for some months, was sud-deny terminated a few days ago. The professor is now engaged in mounting the specimen for the museum.

The Law club sent a challenge to the students of the B. Y. C. for a public de-bate. It was accepted and arrange-ments are now being completed for the contest. The students of the B. Y. C. are to select a question and the Law stub will have choice of sides.

In the last week's notes, the co-oper-ative experiment of the college and U. 8 department of agriculture should have read hemp instead of flax. should NG VALUES IN SPLENDID M
