What Might Have Been Heard.

Almost any day during the Centennial, a knot of physicians might have been seen gathered around the elegant glass case, standing in the Main Building in which Benson's Caprine Porous Plaster was exhibited, discussing its merits and superiority over other porous plasters, and the listener might have heard words of warm praise fall from their lips as they spoke of the revolution it would likely effect in remedies for diseases treated externally, such as rheumatism, lame and weak back, spinal and kidney disease, sciatica, lumbago, sprains and bruises, and all aches and pains of a local nature. With these opinions the Centennial jurors, who were also learned physicians, were in perfect accord, and awarded the manufacturers of Benson's Caprine Plaster the only medal given to porous plasters. To avoid fraud, see that the word Caprine is out through each plaster. Sold every where. Price 25 cents.

BENSON'S CAPRINE POROUS PLASTER

was invented to overcome the great objection ever found to the old style of porous plasters, that of slow action in bringing relief. Benson's Caprine Porous Plaster relieves pain at once and cures quickly. It imparts a sensation of gentle and stimulating warmth and brings rest and comfort to the sufferer.

MALIGNANT and subtle indeed is the poison of Scrofula, and terrible are its ravages in the system. They may, however, be permanently stayed and the destructive virus expelled from the circulation with Scovill's Blood and Liver Syrup, a potent vegetable detergent which eradicates all skin diseases, leaving no vestige of them behind. White swelling, salt rheum, tetter, abscesses, liver complaint, and eruptions of every description are invariably conquered by it. Druggists sell it.

Important to Threshers and Farmers.

Russell & Co., of Massillon, Ohio, inform me that they are now prepared to furnish a TRACTION ENGINE to run their Separators that will propel themselves and Separator over any ordinary roads faster than horses commonly walk. June 1st, 1879, one of their machines with traction engine can be seen at my wagon yard, at which time a trial trip will be made. Circulars giving description of this new invention will be out March 20th. Send for one to
