

APPEAL FROM SCHOOL BOARD.

Sets Forth Why \$30,000 Loan Should be Permitted.

INTERESTS OF THE SCHOOLS

If the People Withhold Their Permission, It Will Mean Demoralization to the Schools.

An address was issued today over the signatures of President Newman, Chairman Moyle of the committee on teachers and school work, and Chairman Bamberger of the committee on finance of the board of education, to the patrons of the schools setting forth the reason for appealing to the people for permission to maintain the schools to the end of the year. The address is as follows:

To the Patrons of the Schools:

We call your attention to the special election to be held on Tuesday next, and submit the following considerations:

In 1885, school population.....11,941
In 1890, school population.....14,428
Increase.....2,487
In 1890, cost of maintaining schools per pupil.....\$ 18.39
In 1895, cost of maintaining schools per pupil.....17.08
In 1895, income of board for maintenance.....\$214,450.74
In 1895, income of board for maintenance.....232,302.28
Increase of school population five years, 20.5 per cent.
Increase of revenue, five years, 7.6 per cent.

The foregoing figures show that the number of children to be educated has increased much more rapidly than the revenues from taxation, and explains why, in 1890, our school year was three weeks short. The same figures also explain why, again this year, unless you vote in favor of the proposition, we must close all our schools April 24, making a shortage of six weeks on the school year.

The amount necessary to complete our year's work is \$29,000. We believe it is a measure of economy to borrow this money (we get it without interest), which can be repaid out of our next year's revenues.

Failure on your part to grant us this permission means:

First—No graduation of sixty High school pupils.
Second—No graduation of 700 eighth grade pupils.
Third—No promotion in any grade at the end of this year, necessitating the continuance of present classes into next fall.

Fourth—Overcrowding of schools next fall by reason of the hold-over pupils and entrance of about 1,400 beginners.
Fifth—Enormous increase of expense in employment of additional teachers and hiring new buildings next September.

Sixth—Loss of time resulting from delayed promotion and confusion in the system of promotions.

SCHOOL PATRONS MEET.

Large Gathering Endorses the Proposition of the Loan.

Taggart's hall was the rallying point last night of the patrons of the Wasatch school who met to discuss the special school election. A coterie of leading citizens of the district called the meeting, and the sense of the gathering was that the school board should be permitted to borrow the required amount of money. James Maxwell was named as temporary chairman, and Fisher S. Harris was unanimously elected as permanent chairman. J. G. Cross, principal of the Wasatch, was made secretary, and by request of the chairman, stated the object of the meeting. Judge W. H. King made a ringing plea for the schools, saying that Salt Lake could ill afford to lose her present high standard of educational work, and at the close of his address he offered the following resolution: "Resolved, That the proposition to obtain funds to carry on the schools for the current year be heartily indorsed by this convention and that it be the sense of this meeting that every legitimate means be used to secure a favorable vote on Tuesday, April 16th." A few remarks were made by Mrs. Cowan, W. F. Smith and Mr. Maxwell, and a committee with power to act was chosen, composed of James Maxwell, Mrs. J. D. Kenworthy, W. H. King, Mrs. Magie Taggart, W. F. Smith, E. M. Miller, Mr. Homer Hodson, Mrs. John F. Cowan and Charles Crane.

MASS MEETING CALLED.

Gathering to be Held in Ninth Ward to Consider School Election.

A mass meeting has been called for Saturday evening to be held in the annex to the Ninth ward meeting house. It is to be held for the purpose of discussing the school election to be held next Tuesday and to get an expression from the taxpayers as to whether the board of education shall be empowered to borrow the \$30,000 necessary to keep the schools open till the fall school year. James G. McAllister, on behalf of himself and others, has called the meeting, so that the matter may be discussed and reasons for keeping the schools open be put before the taxpayers.

It is also expected that a general mass meeting will be called for Monday evening and will be held in the High school assembly hall.

NEVADA AND UTAH.

The Best Cattle Growing States in the West, Says John Sparks.

Nevada and Utah are the best cattle raising States in the west," said John Sparks at the Kenyon this morning. "I mean by that, that the climate is more favorable than other western States. We don't have blizzards and young cattle have a chance to get a start in life, then they can be shipped to other places to be fattened. The ranges in these two States have been pretty much worked, and it pays to raise the cattle on them, on account of the good climate, and then to ship them to Canada or to other States where they can be fattened on corn and alfalfa. Chicago, St. Louis, and San Francisco are the principal markets of Nevada cattle, though many head are sent to Canada."

The great ranges are being cut up into farms, and I think the only danger of having an over supply of beef is from the States where the farmers all begin to raise a few cattle each, the total number will aggregate more than any one owner would manage on the same amount of property

ABSOLUTE SECURITY.

CURE SICK HEADACHE.

and thus the supply would be greatly enlarged. However, armies must be fed on beef because it may be canned and will keep, and there will not in many years be much of an over supply.

"There is probably not fifty beavers on the entire range land of Nevada for the reason that San Francisco has furnished such an excellent market the past year. On Mr. Howell's ranch there are now about 40,000 cattle, and the annual output approximately will be 9,000 head, though this can be increased if he desires to do so. At least 75 men are all the time employed there."

"I am not going into the cotton raising business, as was said in one of the papers, but will probably find something to interest myself with in Nevada or Utah, for next to Nevada I should prefer living in Utah. It is certainly said that President Cannon should have died in California. He did very much for Utah and was a good man."

AMUSEMENTS.

"The Parish Priest" engagement closed at the Theater last night before a fair house. The Theater will now remain closed until Monday afternoon and evening, when the final performance of "Fatinitza" will be given. The advance sale is now on and tickets have been going with a rush all day.

"Fatinitza" will be rendered in Oden this evening. The company goes on up the Rio Grande Western and at 6:30 this evening and returns after the opera.

The noted lecturer, Ernest Seton-Thompson will be heard on the afternoon and evening of April 20th at the Assembly Hall. Mr. Thompson is famous of the world over as the man who has told all about wild animals.

R. C. Eagon will not return home until next week. He sings in a Tabernacle concert at Provo tomorrow night, and will probably appear in Ogden before his departure for New York.

ARTISTIC JOB WORK.

Turned out on short notice at the Desert News. A big shipment of new types and supplies just in. Our facilities for letter heads, bill heads, tags, envelopes, pads, etc., etc., are unequalled by any establishment in the West.

WARD ENTERTAINMENTS.

ELEVENTH WARD.

A reception and entertainment in honor of Elder Joseph Thomstorf will be given in the Eleventh ward meeting house this evening. Elder Thomstorf is about to depart on a mission to Germany. The program that will be presented will consist of the following excellent features:

Selection.....Choir

Soprano solo.....Agnes Olsen Thomas

Piano solo.....Prof. A. H. Lund

Contralto solo.....Judith Anderson

Xylophone solo.....Adelbert Beesley

Duet.....Prof. E. Stephens and H. S. Ensign

Recitation.....Ethel Allen

Ladies Quartet.....Hattie Carter

Julia Jones, Annie Owens, Hermia Tyler, Connie McAllister

Baritone solo.....John Robinson

Recitation.....Hattie Carter

Violin solo.....Lennie L. Savage

Soprano solo.....Prof. A. H. Lund

Tenor solo.....Josie McAllister

Recitation.....Theodore Best

Remarks.....Elder Joseph F. Thomstorf

Prayer.....Choir

Prof. A. H. Lund, accompanist.

FOREST DALE.

The concert and bazaar given at the Old Farm House last night was a complete success. The hall was crowded and it was with difficulty that the program was carried out. The concert was given by the German band and the booths with their characteristic occupants furnished a very pleasant evening's entertainment. An entire change of program will be made tonight, and another good audience is expected.

Nerves Need Fuel

To feed the vital fires or they lose the power to regulate and control the body. Unnatural stimulants won't do. Like an air blast on dying embers they cause a sudden flash of heat—then all is dead. Give the nerves plenty of fuel, and the worry and fretting, the headaches, the nervousness, loss of sleep, deranged digestion, neuralgia, rheumatism and heart troubles, that burn up the brain substance and destroy the nerve-force, will disappear forever. Don't wait till the fires are burned out. Begin now.

"I was so nervous and restless that I could get little sleep, and the headaches were something dreadful. Pains would start in the temples and travel down the chords at the back of my neck to chest and arms. Doctors gave no relief, but Dr. Miles' Nervine cured me."

Mrs. A. H. WIEMAN, German Valley, Ill.

Dr. Miles' Nervine

creates a good appetite, stimulates digestion, quiets nervous irritation, gives refreshing sleep and sends plenty of fresh blood to the furnaces of the brain and nerves.

Sold by druggists on guarantee.

WILL NOT BE BLUFFED OUT.

Clark Road to be Built Even if Another Survey is to be Made.

GEN. SUT. CALVIN RETURNS

Reports That Four and One-Half Miles of Track Has Been Laid—Whittemore's Version.

C. O. Whittemore of the San Pedro, Los Angeles & Salt Lake since early morning has been in receipt of a number of telegrams at stated intervals from Los Angeles, St. Louis and other points where the directors of the company are at the present time. The tenor of each and every one of the dispatches is "war to the knife."

When seen this morning Mr. Whittemore stated that he had received instructions to take every possible step in order to strengthen their present strong position in regard to the disputed grade over which the Oregon Short Line is now laying track. "I will contest it to a finish in the courts," he said, "and if the ruling should be against us we will at once proceed to start construction over another survey."

"As to the Oregon Short Line laying a first class track over that grade at the present time it is absurd," he added. "The Short Line is doing nothing of the kind. All they are doing now is to get the steel strung along the grade as fast as possible. It is true that good material is being put down, but the rails are being laid without any regard to grade stakes, in fact the surveyors are following after the trackmen and putting in the grade stakes, which is to say the least of it a thing preposterous. Then when the gangs come to a gap they just pile up ties into a rough trestle and lay their rails across the top of them. The trackmen will probably come along later and fix things up, but at present they look kind of queer."

General Superintendent Calvin of the Short Line came up from Ogden this morning, where he has been for some days past superintending the work of tracklaying. He stated to the "News" this morning that when he left Ogden that there was close four and one-half miles of track down, Mr. Calvin said emphatically that tracklaying would be pushed and the work of construction continued "right through to California."

The contest on the grade between the two lines has been going on for some time. One well known railroad man who has been watching the trend of affairs said this morning: "Whatever has been said about 'the dip' in the past there is one thing sure and that is that the hot air has made the Harriman people get a most unusual sleep. They are not building the road, they are just waiting for the Union Pacific line to be built. They will never have heard, under the community of interests, of either the Oregon Short Line or the Rio Grande Western extending through to the South Pacific coming to Salt Lake. Clark is a fighter as his record shows and I believe that he really intends to build this road. If he does you will find that it will pull the others here despite Harriman's reaching plans."

Senator Clark is at the present time in the South of France and will return to America about May 1st.

NEWS IN LOS ANGELES.

Clippings from Local Press on the Railroad Situation and Ogden.

Los Angeles Herald: That the Union Pacific has "jumped" a portion of the right of way declared to be owned by the United States land office, will not hinder the building of the San Pedro, Los Angeles & Salt Lake railroad. The sudden move of the Harriman syndicate was wholly unexpected and was of a radical nature that the ultimate result could only be guessed at.

"Many were of the opinion that it was a mere bluff on the syndicate's part, calculated to scare Senator Clark and his associates and to create a panic among the opposite view, and held that the Union Pacific had at last begun in good faith to make its way to Los Angeles."

CLARK VS WALL STREET.

Los Angeles Express: Wall street has as a matter of fact, not been taking the proposed new Clark road at all seriously. Senator Clark, having unlimited resources of his own, was not compelled to go to the street for assistance in financing his enterprise, and the street could not realize that any venture could be successfully launched without its aid. When the New York money market began to awaken to the situation, there was at first something of a smile of incredulity. A bait was then thrown out in chunks of assorted sizes, first from one part of the country and then from another, that the Clark road might be started, but that it would at the proper time be swallowed up by one or more com-

WALKER'S SUDDEN DEATH.

Chairman of the Atchison, Topeka & Santa Fe Dies of Heart Disease.

New York, April 12.—Chairman Walker of the Atchison, Topeka & Santa Fe railroad died suddenly at his home in this city today of heart disease. His death came as a surprise. He had not been feeling well for the past two weeks but was not so ill as to create any concern among his friends and family. He was to have sailed for Europe today and all arrangements had been made for his departure. Mr. Walker was a widower and two children.

Aldace F. Walker was born in West Rutland, Vermont, in 1842. He was educated at Middlebury, Vermont, college, and at the Columbia law school, after which he served with the New York volunteers in the civil war, advancing to the rank of lieutenant colonel. After of war he came to St. Paul, Minn., where he was a member of the Interstate Commerce commission. On leaving the Interstate Commerce commission, Mr. Walker became chairman of the Western Traffic association, and in 1894 was appointed receiver of the company's property. After the re-organization Mr. Walker was made chairman of the board of directors and he retained this position up to the time of his death.

Minimum Weights.

The Union Pacific announces that on and after April 23 the minimum weight on all commodities moving to Utah, covered by the Transmississippi tariff, will be 20,000 pounds instead of 24,000, as heretofore.

Fast Run.

General Agent Kosmer of the Missouri Pacific received advice this morning to the effect that the 17 cars of cattle consigned by Tallant & Elwood from Montpelier, La. to Kansas City, Mo., arrived at their destination. The run between Pueblo and Kansas City, including a stop to feed at Council

The Blood

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishing and strengthening the muscles, tissues, nerves and bones. But, unfortunately, few persons can rightly claim an absolutely pure blood supply and perfect and unpolluted circulation, and in consequence are exposed to innumerable diseases. Contagious Blood Poison, the greatest enemy to mankind, enters the system through the blood, and Cancer, Scrofula, Rheumatism, Catarrh, Eczema, Salt Rheum, Psoriasis, Tetter—in fact the majority of human ailments—are caused by poisons or humors that engender disease and foster it in a slushy, impure and impoverished blood. Old sores, chronic ulcers and rheumatic pains are common, especially among old people, whose blood naturally grows thin and pale because of the lack of the red corpuscles that give color and strength to youthful blood. Sallow complexions and rough, oily skin evidence some constitutional or blood trouble, which salves, lotions, powders nor any external treatment can cure. Diseases that originate in the blood, whether they manifest themselves in tumors, itching eruptions, muscular or bone pains, require a tonic and blood purifier such as S. S. S., which not only antitoxins and neutralizes blood poisons and humors, but possesses health-giving tonic properties that no other blood medicine does. It goes down to the very foundation of the disease and eliminates from the system everything of a poisonous character or that obstructs and clogs the circulation. It builds up and imparts new strength and vitality to the old inveterate blood, and when the arteries and veins are once more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear.

The Blood is the Source of All Strength

S. S. S. is the only guaranteed purely vegetable blood purifier, and the purest and most reliable in all blood diseases. It has been tested in thousands of cases during the past fifty years and is more popular today than ever. We will be glad to send you our book free, and if in need of medical advice write our physicians all about your case; this information will cost you nothing and comes from experienced and educated doctors. The correspondence is conducted in strictest confidence.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

SPIKE AND RAIL.

Col. Dodge went East last night on No. 4.

General Agent W. E. Coman of the Oregon Short Line is in Idaho on a wool expedition.

John Q. Critchlow, ex-Auditor of the Utah & Pacific, leaves for New York on Monday.

Coming to the Mizzard in Colorado yesterday, No. 1, the Grande Western came in in two sections today, five hours late.

General Manager Bateman of the Salt Lake & Los Angeles is overhauling the freight rates on the opening of the Utah season next month.

Samuel Stark and his assistant, Geo. Fairbanks, are having their hands full at Ogden operating the wires at that end of the line.

All lines into Salt Lake will put reduced rates into effect on the occasion of the funeral of the late President George C. Cannon.

Butte Inter-Mountain: Prince H. M. Cushing of Salt Lake, traveling passenger agent of the Denver & Rio Grande, is in town. He is making a tour of the entire State in the interest of the line he represents.

A big rockslide came down in the Black canyon of the Gunnison yesterday, a few miles west of Sapinero, and covered about 600 feet of Denver & Rio Grande track. Passenger trains were delayed several hours while the track was being cleared.

The Oregon Short Line yesterday hauled a special train of Alberta, Canada, home-seekers north. Among those who were on board with their families were Ed Ellingson, formerly cashier of the Lehi bank, W. Brashaw, William Hindly, Eugene Bushman, Joseph R. Smith, John S. Taylor, Alfred Gurney, F. W. Thomas, Berg Ellingson, T. M. Cook and a number of others. All of them are experienced stock-raisers.

A new type of locomotive on the Chicago, Rock Island & Pacific last week made a record-breaking run, hauling seven cars. It is 132 miles from Davenport to Chicago, and it was covered in two hours and twenty minutes. The first 119 miles was run in 122 minutes, making two stops. There were several bursts of speed when several consecutive miles were covered at a speed of eighty-five miles an hour.

Ogden is getting real cross whenever the Southern Pacific cut-off to Salt Lake is mentioned. It is 132 miles from Davenport to Chicago, and it was covered in two hours and twenty minutes. The first 119 miles was run in 122 minutes, making two stops. There were several bursts of speed when several consecutive miles were covered at a speed of eighty-five miles an hour.

Among the subjects on the program for fixing of rates at this meeting are the general convention of the Knights of Pythias to be held in San Francisco in 1902; the general assembly of the Presbyterian church, to be held in Los Angeles in May, 1902; the convention of the federation of women's clubs to take place in Los Angeles in 1902; the annual meeting of the Young People's Union, to be held in Chicago in July of this year; the thirty-ninth annual encampment of the Grand Army of the Republic in St. Louis in September; the National Irrigation congress at Colorado Springs July 12 and 13 of this year; the national convention of the Travelers' Protective association at Portland, Ore., 1902.

A CORNER IN ERMINE.

The perceres who did not possess "robber" for the state opening of taxes, felt some consternation at the boldness of these necessary appendages, for ermine, says the London Express, besides being very expensive, is one of the only things most from the ravages of "moth." The ermine-lined cloaks are calculated to cost £300 at the very least, at which regulation requires a duchess to appear in public as long as a court train, so that if the rumored corner in ermine comes off there will be a heavy drain upon "pin money" this year.

A Baby's Birth

is very much like the blossoming of a flower. Its beauty and perfection depends entirely upon the care bestowed upon its parent. Expectant mothers should have the tenderest care. They should be spared all worry and anxiety. They should eat plenty of good nourishing food and take gentle exercise. This will go a long way toward preserving their health and their beauty as well as that of the little one to come. But to be absolutely sure of a short and painless labor they should use

Mother's Friend

regularly during the months of gestation. This is a simple medicine, which is to be applied externally. It gives strength and vigor to the muscles and prevents all of the discomforts of pregnancy, which women used to think were absolutely necessary. When Mother's Friend is used there is no doubt whatever.

Get Mother's Friend at the drug store, 61 per bottle.

AGED WOMAN COMMITS SUICIDE

Mrs. Singleton Ferguson of Eureka Jumps In a Well.

WAS SLIGHTLY DEMENTED.

Her Trouble is Said to Have Been Brought Through Worrying Over the Death of Her Husband.

Eureka, Utah, April 12.—Mrs. Singleton Ferguson, aged about 60 years, killed herself by jumping in a well at her home here last night. At intervals during the past year Mrs. Ferguson has been slightly demented which was said to have been brought on through worrying over the death of her husband. As soon as she was missed from her home, a search was begun and Sheriff Cronin and others were out all night looking for the aged woman. At first it was thought that she had wandered into the mountains around the camp, but the searching parties failed to discover any trace of her until at an early hour this morning when the finding of some of her wearing apparel led them to look into the well which is near the house and at about 6 o'clock this morning her dead body was taken out of the well. The well is about forty-five feet deep and contained something like five feet of water. From the position of the body when found it would appear that Mrs. Ferguson had jumped into the well head foremost. All indications point to suicide and it was considered necessary to hold an inquest over the remains. The fall was so great as to cause death had there been no water in the well. It is supposed that Mrs. Ferguson took to her own life at about 9 o'clock last night but it was not until this morning that the body was removed. She has several grown children who are well known and quite popular.

PEOPLE WHO ARE PASSING

W. H. Remington is in Salt Lake from Tacoma and the Northwest. He reports Washington and Oregon to be in a very prosperous condition and says that Tacoma is rapidly coming to the front in the matter of foreign commerce. He thinks that city is second only to San Francisco in its imports and exports. Mr. Remington is much gratified at the success he has met with in his mining operations in eastern Oregon.

County Commissioner Edward Dalton of Tooele is a guest at the Walker House.

Mining Engineer R. M. Pope, of Vernal was in the city yesterday and left last night for New York.

PERSONALS.

Bishop Abiel Leonard left last evening for Colorado. He will be gone four or five weeks and while in Colorado will assist the bishop of that State, who has been ill, to study the church affairs that accumulated during his illness.

F. J. Moran leaves tomorrow for San Francisco. He will be there about ten days on business.

Rev. Dr. David Utter of Denver and formerly of the Unitarian church in this city, will lecture in Salt Lake tomorrow. He will address the Unitarians at the Theater on Sunday morning.

Tayner B. Laymon, formerly steward of the Knutsford hotel, has returned from Ohio. While there he studied law and was admitted to the bar. He has opened an office here, and will practice his profession in Salt Lake.

Springville Independent: A. T. Ogren, representing R. L. Peck & Co., the Salt Lake directory publishers, was here this week looking the inhabitants. Mr. Ogren and the editor of the paper are known to each other in the east during a certain portion of the misty past, and have renewed their friendship. When the directory man shows up at the judgment seat of heaven, he will be asked why he taught the editor to smoke tobacco.

Payson Globe-Header: Miss Mina Walser, of Colonia Juarez, Mexico, arrived in our city last Thursday morning. She came up here for the purpose of studying music. The young lady has considerable ability in this direction and with study will no doubt make rapid advancement. She will study with Prof. McAllister in Salt Lake.

Boxelder News: William Glasmann, editor of the Ogden Standard, has gone east to look up a market for onyx. There is quite an interest being taken in Utah onyx, and that about fifteen miles southwest of here, onyx has been tested by the United States government chemist who reports it up to the required test and satisfactory. As there is considerable onyx in the vicinity of this city, the movement will be of interest here.

Lehi Banner: The many friends of Mr. Charles Orhan will be sorry to learn he is at the Holy Cross hospital of Salt Lake. Sometime ago he wrenched his side from which he has suffered more or less ever since and it was now thought advisable for him to go and have the injured part attended to. He may have to undergo an operation.

Oreida County Republican (Preston, Ida.): Bert Benzon, a young man of 23 years, and a resident of Salt Lake, died suddenly at the home of his mother, Mrs. J. H. Tippetts, of his place, last Saturday evening about 8 o'clock. He came up from the city about a week ago, and seemed to be getting slightly better. The funeral services were held in the meeting house Monday. The speakers were J. G. Nelson, Julius Jensen, G. H. Carver and H. S. Geddes.

Logan Journal: Mrs. Moses Thatcher came up from Salt Lake yesterday morning. She is the guest of Mrs. S. A. Langton, who has been quite ill the past four weeks, but who is now improving.

Pocatello Tribune: Postmaster Ball is in receipt of a letter from Niles, N. Y., from two widows, one young, the other old enough to know better. The sweet young thing evidently wrote the letter and explains that she and her friend, who is 45, think a wild life would just suit them and consequently want to come to Pocatello when the reservation opens. The special request is that they be furnished with some reliable correspondents. Gentlemen who enter into the spirit of the thing can get the names from Mr. Ball.

Boxelder News: J. Y. Rich was in Salt Lake City last Friday and states he had a long talk with Banker J. L. Dooley concerning a canal on the east side of Bear river. He says Mr. Dooley is quite interested in the proposition and requested Mr. Rich to furnish him

DYSPEPSIA
