SALT LAKE CITY, APRIL 30, 1908.

RAISE THE FUNDS.

The Citizens of Salt Lake cannot afford to suffer the plan to send the High School boys to the coast to fall through lack of the necessary financial support. The concert in the Tabernacle, which will be given for the benefit of the excursion fund, should be liberally patronized.

SOME FIGURES.

The manipulators of the so-called American party, who are exceedingly anxious to increase the debt of the City, in order that they may have public funds for party campaign purposes, have, of course, not for a moment considered the financial ability of the community to carry the extra burden.

and the per capita indebtedness, \$89.02. But the financial management of New York is no pattern for a small place. According to the New York World the funded debt is now somewhere about \$800,000,000, besides which there are something like \$69,000,000 outstanding revenue bonds and resolutions of the Board of Estimate authorizing somewhere about \$15,000,000 more bonds and a floating debt of \$100,000,000, more or less.

TWO GOVERNORS.

Among the many notable governors of States today, Hughes of New York and Folk of Missouri stand as high as any in the estimation of the people.

Gov. Hughes has resolutely endeavored to carry out a substantial program of reform in his State. That he has not succeeded has been through no fault of his. The reactionary elements of both his own and the opposing party in the legislature have succeeded in defeating or at least delaying most of the measures which he especially recommended.

In New York politics, it is said that to adjourn early, after having done substantially nothing, has ever been the political maxim. Presidential years, and to this the leaders this year have been attentive.

Gov. Hughes has had a task precisely similar to that of New York's executive, but has been more fortunate in carrying it through. It is not denied in Missouri that when Folk came into the office, bribery, lobbying, corruption and greed were rampant.

SPEAKS OF RUFFIANISM.

Rabbi Dr. Tobias Schanfarber, of Chicago, the other day delivered an address in which he proved the somewhat startling fact that Russian tactics against Hebrews are not entirely unknown in this country.

might take the question in hand, for it is no longer a local matter, but has assumed national proportions and should call for the consideration of a national organization.

Give today; tomorrow may be too late.

When money talks it usually says "Adieu" and not "Au revoir."

Another currency bill is to be framed. The frame should be made of filigree.

Must a boss be an ass? asks the New York World. No; but the boss must be.

If four battleships would insure the world's peace, what would eight battleships do?

Judging by appearances, Secretary Taft certainly appears to be a strong candidate.

A New York girl drank two quarts of varnish. Her polish was not confined to the surface.

Here is a school boy's translation of Honi soit qui mal y pense: "The same be to him that thinks evil of it."

It doesn't take very long for dropping water to wear away the stone used in some buildings in this city.

JUST FOR FUN.

Pooling the Doctor.

An old Scotchman, not feeling very well, called upon a well-known doctor, who gave him instructions as to diet and exercise and rest.

The Scotchman rose silently and was about to withdraw when the doctor detained him to mention the all-important topic of the fee.

"Aw, mebbe," said the old Scotchman, "but I'm nae gaun to tek yer advice."

A Doubt.

Madam (to the nursemaid, who has just brought home her four children from a walk)—Dear me, Anna, how changed the children look since I last saw them! Are you quite sure they are the right ones?—Phlegmatic Blaetter.

Russia's Milky Way.

Russia is invading Persian territory with the slither design, undoubtedly, of locking the whey out of the Kurds.—Chicago Tribune.

A Thorough Job.

"I want a good revolver," began the determined-looking man.

Missed the Job.

Molly—I just dote on Uncle Sam's brave sailor boys.

The London Saturday Review says that what the Americans should do is to produce virtuous millionaires.

"It is gratifying to know that the first thing that gave out at the Eagle's recent reception was its large supply of distilled water," says the Wichita Eagle.

Trouble of a serious nature is looked for on the Indian frontier. The Punjabis clans are said to be rising to revenge the punishment meted out not long ago to rebellious tribesmen, and it is feared that the Amir of Afghanistan is backing the hostile movement.

If a couple of dollars should be lacking in the sum needed to pay the railroad fares for the High School cadets to the coast, we presume the railroad could trust the boys, for an indefinite period, for that sum.

There is a story from Los Angeles about a man of philanthropic spirit who proposed to build an \$80,000 church for the benefit of the community in which he lived, but who had no money to back up his promises and his orders on contractors.

It is a splendid record. In fact, not alone New York, Missouri, and Minnesota, whose governors are mentioned as presidential probabilities, but many others of the States, including our own, have good reason to be proud of their governors.

Rabbi Dr. Tobias Schanfarber, of Chicago, the other day delivered an address in which he proved the somewhat startling fact that Russian tactics against Hebrews are not entirely unknown in this country.
