Milford was made a division point on the Salt Lake Route about three months ago to take the place of Black Rock. The town is surrounded by a large area of state lands and flowing water can be struck at a depth of 200 feet. A fair sized settlement has sprung up since the Salt Lake made this point a division station, and its population is increasing rapidly. As it is a passenger and freight division town, conductors, engineers, passengers and freight crews and all other changes are made there. The main points along the Salt Lake Route are its eastern terminus, Salt Lake, Milford, Las Vegas and the Angles, the Angles, the Newhouse and Frisco branch of the Salt Lake Route leaves the main line at Milford and a large smelter, owned by Boston parties, is located in the immediate neighborhood.

R. G. W. PLANS BIG SHOPS.

Shops, to cost in the neighborhood of \$50,000, are to be built by the Rio Grande within a short time. The new structure will be erected near the site of the present car shops and will be so equipped that box, as well as flat cars can be built in this city. The local shops will repair and build box and flat cars for the Rio Grande and Western Pacific. The Rio Grande is in bad shape on account of a lack of motive power and rolling stock and extensive changes are planned for this city in the shape of construction and repair shops. The old blacksmith shop will be used entirely as a repair shop for engines. Work will be commenced upon this shop when the breakers.

"NO PLACE LIKE HOME."

S. H. Babcock, formerly traffic manager of the Rio Grande Western in Salt Lake, is visiting in this city after an absence of three years. Mr. Babcock is now engaged in business in Denver, Colorado. When he reached Salt Lake, he said this morning, "I felt that I was at home. I was with the Rio Grande Western for 13 years in this city. When I left Salt Lake to go to the railroad business, Denver is a great city and it is growing wonderfully. I have a warm spot in my heart, however, for Salt Lake and intend to spend several days looking up old acquaintances and familiar spots here." The first thing Mr. Babcock did upon arriving here was to call upon Col. Benton and other officials of the Rio Grande Western's ticket and freight department. He wandered through the various offices, shaking hands with the old and getting acquainted with the new-comers. "There's a dear gone from this corner," or "When did you move this fine stand?" are a few of the remarks he dropped as he strolled through the department. "Salt Lake is a dandy town," he said enthusiastically. "I can see changes in the little portion of it I have seen so far. I like the Salt Lake papers and keep in touch with Utah affairs, so you can see I think a great deal of my old home." Mr. Babcock is a personal friend of all the local railroad men.

MUSICAL RECITAL.

Ladies' Literary Club the Scene of Delightful Entertainment.

The first of the musical recitals to be given at the Ladies' Literary club, under the direction of the music section of the club, was given last evening. The program was one of the successes of the season, sufficiently so to encourage the management in continuing the series as a permanent feature of the club work. The program as printed was carried out, the management and the evening being the performance of the overture to "Tannhauser," by Miss Cecelia Sharp. It was a brilliant display of technical accomplishment as well as intelligent interpretation that captivated the audience. The oratorio of "Sampson," with a dramatic power that marked him as a great artist, was the other work marred by forgetting his lines. The new cellist, Mr. Press, showed himself a fine addition to the club, and his playing was much admired. It is doubtful if the Orpheus club ever did in the city, and the excellence of their work was the subject of general remark. It was a successful evening all around.

POULTRY SHOW OPENS TO PUBLIC

Pens Are All Tagged With Blue Ribbons for the Winners.

FUN FOR THE EGG THIEVES.

They Are Being Tempted With Spoiled Hen Fruit From the Incubators.

The poultry show was opened to the public this afternoon, and a big throng was quick to take advantage of an opportunity to see the birds. Incidentally a good joke was played on a few unsuspecting persons who thought they could get some high priced eggs without paying for them.

In each pen an egg or two a day is laid by the fancy birds, and these are carefully gathered by attendants to prevent any outsider from getting them.

Today, however, persons were noticed gathering in eggs, one neat plan was evolved to make the practice pleasant. After the good eggs had been removed, some bad ones, very bad ones in fact, were taken out of the incubators where a candling process had determined which were good and which were spoiled. These were distributed among the pens, and the wise ones watched their more unfortunate brothers carry the articles away.

Judge Hemmick finished his work this afternoon, and will leave tonight for Pueblo, where he has been engaged to judge a Colorado show. He said at noon that the barred Plymouth Rock hens and the Black Minorcas shown here had greatly surprised him, as they had scored fully up to the highest standard found anywhere. The general average of the show was excellent, and its only weakness is that more varieties could be shown.

President Plummer won everything in sight in the show, with a few minor exceptions, taking first, second, and third prizes, together with several individual prizes.
