STREET SPRINKLING IS POORLY DONE

Councilman Robertson Says That It is in Incompetent Hands.

ENGAGEMENT IN COUNCIL.

Canning is Subjected to a Series of Hot Shots-L. C. Kelsey Appoints ed City Engineer.

Street sprinkling was the subject of a short but sharp engagement in which Councilman Robertson baited Councilman Canning at the meeting of the Council last night, Mr. Canning. the chairman of the sprinkling committee, became quite indignant at the way he was attacked, but that did not hinder Rubertson from pouring hot shot into him with regard to the way the city sprinkling was being done. The matter was introduced by the follow-

ing resolution:
Whereas, It would seem from the
number of complaints received that in street sprinkling the west side of the city is being favored at the expense of the cast side, or if this is not the case the street sprinkling of the city is at the present time being handled in incompetent manner; now

Resolved, That the sprinkling committee be and it is hereby instructed to submit to the Council a report stating the number of carts in use, number and location of blocks sprinkled, and number of blocks sprinkled by each cart.

Robertson went on to say that while some of the remote districts were be ing sprinkled plentifully more populous districts were being shamefully neg-

Canning put on a bold front and stuck to it that all the streets were receiving their share of sprinkling. He had studied the matter closely last season when his son was foreman of the sprinkling department. He said that he was ready as soon as the people re-quested it to put on night sprinklers. Robertson tried to interrupt several times with questions but Canning would brook none of it. When he got a chance to interpolate a remark he sarcastically volunteered the suggest tion that it might be economy on the part of the city to put Canning's son back on the city pay roll as foreman of

sprinkling at \$75 a month.

The resolution was finally adopted and the committee was instructed to be port to the committee of the whole on Friday evening.

It was decided last night that some

of the city's property must be sold to realize funds for the building of a city jail and crematory. The sale of the real estate will be by public auction at a date to be fixed later. The property listed for sale is:
Old city hall corner, 120x155 feet,
State and First South streets.

Southeast corner of North Temple and Fifth West streets, 7x71/2 rods, Triangular lot, 241 feet frontage, on street opposite and south of Warm

Springs grounds. The southwest corner of North Temple and Fifth West street, 20x10 rods. Lot 3, block 86; lots 2 and 3, block 128; lot I, block 147; lot 3, block 153; all in plat D, on the north bench.

Block 10, plat E, at the head of Main Block 31, except 10x5 rods, plat F. Second South between Twelfth and Thirteenth East streets.

Part of lot 3, block 1, plat V, 100x 35% feet, fronting on State street south of the Capitol grounds.

Lots 11 to 14, block 2; lots 1, 2 and 3, block 3, plat V, south of the Capitol grounds.

The mayor's appointment of Louis C. Kelsey, the acting city engineer, to fill the vacancy left by the resignation of his brother, F. C. Kelsey, was confirmed by a unanimous vote. A resolution by Fernstrom was adopt-

ed to the end that certain property owners who had been encroaching on the sidewalks with fences, put up ostensibly for the purpose of protecting trees, should be made to remove them. The author of the resolution explained that in several cases the fences had been allowed to remain so long that the owners had a valid claim to the part of the street their fences enclosed.

A motion by Thomas carried that \$1 .be appropriated to each city ward for repairing streets and be expended under the direction of the members of the street committee from each pre-

Every Lady. It has remained for a Cincinnati wo man to discover the secret of a per-fect skin. She has at last found the key to feminine beauty. All the sighs and heart aches over a poor appearance may now be banished, for it is

MRS. ALBERTA KILEY. within the means of every lady, young and most refined complexion so dear to a woman's heart. Mrs. Alberta Kiley, 413 Scoti St., Covington, Ky., obtained a free trial package and this is what she says: "I am perfectly delighted with the result, It has cleared my skin and you can't imagine how happy I am. It works lige magic." And what is still hore pleasing and convincing Mme. M. Ribault who discovered this great secret sends free to every woman who writes a sufficient quantity of the beautifier to show her how easy it is to attain beauty when you know the simple cruth and the right remedies. It is not a face powder, cream, cos-

metic or bleach, contains no oil, grease, paste, chemicals or poisons of any kind and is absolutely pure.

Write to Mme. M. Ribault, 2351 Elsa Building, Cincinnati, Ohio, and she will mail free, prepaid, in a plain sealed wrapper a free package of her won-derful beautifiers and you will always bless the day you wrote. Do not fail to write today.

National Fire Insurance company, of Hartford, and has discontinued business. The company had \$250,000 capital and \$559,815 assets on January 1.

The Jacksonville Fire will no doubt retire several of the companies that are very heavy losers in that confla-gration. The Southern, of New Or-leans, which reported a net surplus of \$1,000 on January 1, 1901, is said to have \$25,000 in losses in Jacksonville.

JAS. M. RICKETTS CALLED HENCE

Pneumonia Takes Life of Well Known Attorney and Mining Man.

WAS ILL ONLY ONE WEEK.

Had Accumulated a Fortune of \$40,-000, Which He Leaves to Two Brothers and a Sister.

James M. Ricketts the wellknown attorney and real estate man of this city died at the Holy Cross hospital, after a struggle of one week with tubercular pneumonia. The end, while not unexpected came as a shock to his many friends, who will sincerely omurn his death. He was a man who won friends by the score and merited the friendship of every man. A strong testimony to his worth and character is found in the fact that a man when once his friend was always his friend. His disposition was quiet and unassuming but his character was built upon a broad foundation of honesty, intelligence and industry.

Mr. Ricketts built the block that bears his name, on State and Third South streets in 1892 and through the hard times he had all he could do to keep the building and the heavy incumberance that hung over it was a source of great anxiety to him. A few months ago he sold the block to Henry Phipps, the Pittsburg capitalist, and cleared \$40,000 from the sale after paying all his indebtedness. He also held stock in the Anchor mine and was interested in other mining properties in Nevada and Park City. Thus the deceased had just reached the point in life when cares, worries, and anxieties were vanishing, and a radient future had begun to dawn, when the fell destroyer of life removed him from the midst of these pleasing prospects.

J. M. Ricketts was born in Findlay.

Ohio, about forty-eight years ago, and in his youth graduated from the law school of Ann Arbor. In 1875 he went with his parents to Lincoln Nebraska. but soon after he went to Texas. Not being satisfied there he went to Cololaw. He came to Salt Lake in 1889 and engaged in the real estate business During the boom days here he could have unloaded for \$100,000, but he held on to his property until the crash came, and left him very little better off than when he began his speculations.
For two years Mr. Ricketts was the law partner of Charles Baldwin, but at the time of his death he was in partnership with John T. Donnellan in the mining business.

Mr. Ricketts' parents are dead, but he is survived by two brothers and a sister. The brothers, A. C. and A. D., live at Lincoln, Neb., and Champaign, Ill., respectively, and the sister, Mrs. L. M. Ccothorn resides at Lincoln. A twin brother died some years ago from lung trouble, and Mr. Rickett's lungs were weak, which rendered him unable to

fight off the attack of pneumonia.

I. A. Ricketts, a nephew, of Lincoln.

Neb., was at the bedside when the end came, Mr. Ricketts, however, lapsed into an unconscious state two or three days ago and never regained conscious

According to the will left by Mr Ricketts, all of his property is left to his brothers and sister. His sister, however, is only given a life interest. The remains are resting in the undering the funeral services which will be held at the Alta club tomorrow after-noon at 4 o'clock. Rev. P. S. Thacher will officiate. Mr. Ricketts was an eseemed member of the Alta club, and was also a Shriner,

The remains will be shipped to Lincoln, Thursday evening, for interment. The least in quantity and most in quali-

OUTLOOK FOR THE SAN PEDRO ROAD

J. Ross Clark Expected to Arrive Today to Confer With Directors.

COLORADO MIDLAND IN IT.

Old-Time Rumor Regarding the Eastern Outlet for the San Pedro Again Going the Rounds.

J. Ross Clark, vice president of the San Pedro, Los Angeles & Salt Lake railroad company, is expected to arrive from Los Angeles either this evening or tomorrow, when he will meet in consultation with the directors of the road who reside here and also Engineer McCartney regarding the policy for the road in the near future.

Senator W. A. Clark, his brother, was to have arrived in New York from Europe at the early part of this week and will come west as soon as he has attended to his business in the East. It is expected that within the next ten days there will be a call issued for a directors' meeting to be held at the Knutsford, at which all the leading directors will be present.

Now that it has been authoritatively stated that the Gould-Harriman syndicate has no interest in the Colorado Midland, and the Burlington's plans have been frustrated, the old-time rumor to the effect that the Midland is to be extended into Utah to make connections with the San Pedro is once more going the rounds. This time the transcontinental line is to be accomplished by a union between the Clark road, the Colorado Midland and the Rock Island. The rumor is given for what it is worth. One thing is certain, however, the Clark company seems confident as to the future and when the time concertain, trains when the time comes that their trains are running into Sait Lake it will be found that their eastern outlet has been provided for, despite the efforts of the Harriman syndicate to the contrary. If the Colorado Midland remains an independent line of the existing combinations engineered in Wall Street there is promise that the Gould-Harriman-Missouri Pacific-Union Pacific-Denver & Rio Grande-Rio Grande Western pool will have a hard fight for the Pacific const. Utah and Colorado business. Un-less the Burlington comes to the rescue, and reports from the East all go to show that its hands are now securely tied, the key to the situation lies ensentially with the Colorado Midland.

In the meantime the Clark forces are now rolling up their sleeves prior to the real battle which will commence during the first week in June down at Pioche. From that time on it can be confidently expected that the legal department of the San Pedro will be kept busy in the courts of Nevada, California and Utah. Despite the difficulties that confront the new road at every step that is taken the San Pedro fight of way agents are actively at work and grading opera-tions are being pushed in Nevada b low the disputed grade. Flat cars and roll-

upon \$500,000 have been spent upon the Last Wednesday a party of the San Pedro officials visited Long Beach for the purpose of locating a deput at that Californian seaside resort. The Long Beach hoard of trade is considering th proposition of furnishing a site for the company which will build in from Santa Ana. The right of way has already been secured.

ing stock have been ordered and close

OFFICIALS AT UVADA.

Inspecting the Work Done on the Short Line Grade.

General Manager Bancroft and General Superintendent Calvin of the Oregon Short Line have gone down the line in a special to Uvada where they will thoroughly inspect the road and will determine the amount of grading necessary to be done. General Pass-enger Agent Burley accompanies the party. The track now extends twen-ty-five miles below the old terminus and it is expected that before the party returns tomorrow that they will de-termine upon a new terminus further down the line and put in a regular train service to that point. This contem-plated move will come as a boon to those who reside in the settlements further south, and will also have the effect of considerably cutting down the length of the ore hauls from the mines of northeastern Nevada.

The engineering force has been augmented by several surveyors who have been working on the Union Pacific cut-offs in Wyoming, and three grading outfits have been dispatched to the front. The Short Line is also receiving considerable steel for its main line and just as soon as the heavy rails are put down the lighter sixty ive pound rails will be shipped to the Providing the pushed right through to California. placed in the near future, as it will require close upon 50,000 tons of steel to finish the road to Los Angeles.

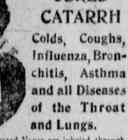

UNION PACIFIC COLLATERAL. Big \$100,000,000 First Lien Con vertible Gold Bonds.

New York, May 22.-The Tribune says: Bankers affiliated with the Harriman syndicate say that collateral for the entire \$100,000,000 Union Pacific first lien convertible four per cent gold bonds of 161, recently authorized ap-plication for listing which has been posted at the stock exchange has al-ready been deposited by the Union Pa-cific, but the exact nature of this col-lateral cannot be learned. It is understood that the \$75,000,000 of Southern Pacific stock purchased in February with the proceeds of \$40,000,600 of the bonds represents part of it and it is assumed that the Northern Pacific stock recently bought, aggregating at least \$78,000,000 par value, according to the statements of Union Pacific interests also was deposited as collateral security. No estimate can be formed of the total amount paid by Kuhn, Loeb & Co., for their Northern Pacific holdings, although it is believed on good authority that they secured most of their preferred stock at well under par,

A provision exists, it is said by which substitution of collateral may be effeeted; so that if the whole amount Northern Pacific stock bought shall be turned in as collateral, part of the comproperty originally covered by the mortgage may be withdrawn from that obligation.

It is the opinion in the street that the \$6,000,000 bends, if sold at par, as were the \$40,000,000 which were disposed of at the time of the Southern Pacific purchase, would not meet the cost of the Northern Pacific shares bought by Kuhn, Loeb & Co. The suggestion is therefore heard that possibly some ar-rangement may have been made for the the St. Paul and the Northwestern, the safeguarding of the interests of which was declared to be partly the object of the safeguarding of the interests of which was declared to be partly the object of the safeguarding of the interests of which was declared to be partly the object of the safeguarding of the interests of which was declared to be partly the object of the safeguarding of

CUBAN RAILROADS. Legal Fight Promised Regarding Proposed Construction in Island.

New York, May 22.—The Times says: A legal fight is promised against the A legal light is promised against the securing of railroad franchise in the island of Cuba by the Cuba company, of which Sir Wm. C. Vanhorne, of Canada, is president. Complaint having been made by interests represented by General Lacret that the company is building a railroad in the island, whereas the Foraker resolution provided that no concession should be made to any one while the military occupation continwhile the military occupation continues. Sir William Van Horne, who is here, said: "Our company was organized about a year ago for the purpose of developing Cuba. We expect to build a railroad from San Luis, near Santiago, to the center of the province of San-ta Clara. Most of the past year has been spent in surveying and grading. We are working only upon land we have actually purchased. We have just as much right to lay tracks on our own land as we have to build houses or do anything else. We are crossing public anything else. We are crossing public highways and streams, it is true, but we are doing this under revocable permits which will have to dorsed or rejected by the constitutional government when it is established. We are not violating the Foraker or other laws and the people of Cuba almost as a unit, are in favor of the building of this

FIXING THE COMBINATION. Santa Fe and Union Pacific to be

Operated Harmoniously. New York, May 22.-The Tribune

The conference just held between A. J. Cassatt, president of the Pennsylvania is practically in control of the H. McE. Twombley, and other directors of the New York Central at the Grand Central station, led to the report that a successor to Samuel R. Callaway was the subject under discussion. This was denied last night. It is now said that the Western situation—that is the control of Union Pacific and Northern Pacific—was under discussion. It is understood that the Pennsylvania and the New York Central will act in harmony in protecting their intersis in the western territory just as they act in harmony in the east. The Pennsylevania is practically in control of the Atchison, Topeka & Santa Fe railroad now and will, it is said, operate it in harmonous relations with the Union Pacific and Chicago and Northwestern both of which are practically Vander-bilt roads. It is also said that the Morgan-Hill scheme in the Northwest-

ern territory is viewed by these interests with disfavor. Trains Again Running.

All westbound trains on the Rio Grande Western today are late. No. 5, which is marked up in two sections, being 4 hours and 30 minutes behind me. The cause of this delay is occa-oned by the washouts on the Denver E Rio Grande. After today it is ex-ected that the trains will be again running on time. In this connection Mr. Heintz last night received the following wire from Col. S. K. Hooper of the Denver & Rio Grandes

Understand that rumor is current that our line is washed out and will be delayed for several days. All trains moving at 4 o'clock this afternoon, and there is no prospect of further delay

More Missouri Pacific Plans.

New York, May 22.-The World says In connection with the delay on the part of the Missouri Pacific, directors in acting on the dividend, there is a plan it is said, on foot to widen the score of the proposed Southwestern combination by securing a New York outlet.

It is said that some large stockholders of Lackawanna has received offers for their holding from starces that indicate that Mr. Gould may want that property as part of the Greater Missouri Pacific system. It is declared that if Mr. Gould secured control of Lackawanna, an arrangement would be made whereby the interests of the New York Central and Pennsylvania would be protected.

Will Meet in San Francisco.

Chicago, May 22 .- Between fifty and seventy-five members of the rallroad and warehouse commissions of the eastern and middle western states will depart from Chicago next Tuesday in a special train for San Francisco where they go to attend the thirteenth annual convention of National Association of Railroad Commissioners. Many of the delegates will be accompanied by their wives and other members of their families, and the party will occupy six Pullman cars.

The delegates will gather in Chicago Monday, and in the afternoon they will hold a meeting to discuss in advance a number of questions that will come before the convention.

From Chicago the route will be via

the Burlington to St. Paul, the Great Northern to Neche, Canadian Pacific to Vancouver, the Northern Pacific line to Portland and thence to San Francisco over the Southern Pacific.

Probably the most important ques-tion to be considered by the commissioners at their convention will be the proper interpretation of gross earnings

Our Sunday school is in excellent condition with a good attendance of teachers and pupils. The nickle collection for the Juvenile Instructor went over a hundred per cent. WAGON AND CARRIAGE DISPLAY.

The Consolidated Implement company has a grand display of wagons and buggies on both sides of the street opposite the Union Store. Mr. Burnett of Smith-field has charge of them and he is doing a big business selling and trading. The Studebaker company also has a good display of wagons and buggies. Mr. Peterson, of Logan has charge of them. Two years ago the same companies sold good many buggies and wagons, and they are doing the same this year. They find Franklin is a good place for their business. Sales are mostly on the credit business: when pay day comes there will be considerable hustling to meet payments.

IDAHO.

Weekly Crop and Weather Report. United States department of agricul-ture, Idaho section, climate and erop bulletin of the weather bureau. Bolse, Ida, May 21.—The past week was remarkable for high temperature, the mean for the state, 64 degrees, is a daily excess of 8 degrees. However, there was a decided temperature change to cooler on Sunday and frest occurred on Monday morning. The frost was light in the northern and western counties, but in the central and eastern it was quite severe and damaging. An area of low barometric pressure pre-valled over the state from the 13th to 17th inclusive. This condition resulted in the development of local storms in

the eastern sections on the 13th and 14th and heavy showers and thunder-storms in the western counties on the 15th, 16th and 17th. CROPS. Northern sections: The season has

showers of the past week and hay crops to a stage the area of bloom to the districts. Fruit has made growth, stock on the ranges ing and the outlook is bright for all

has been beneficial to all showers of the 16th and and timothy to lodge est will likely be earlier than that last year. Meions are making a g last year. Meions are making a file growth, but potatoes are coming up is-regularly. There will be an abundance of hardy fruits. Peaches, apricots and French primes will be scarce. Central sections: The weather has been favorable for growth of grass crops and range grass. Frost on Mon-day morning was sufficiently heavy to injure some bloom. Stock on the range is improving and sheen shearing is is improving and sheep shearing ishear-

ing completion.
Eastern sections: Light showers or curred on the 13th and 14th. In some districts they were sufficiently heavy to assist the growth of spring-sale bench land grain. Irrigation ceiving water from the Snake ri have an abundant flow, but water the small streams has begun to cede and farmers are anxiously antipating the commencement of the spring rains. Grain, hay crops, grass and fruit have made good prog

Ganeral Agent. General Agent. 106 W. Second South St., Salt Lake City,

READING THE HAND.

Professor Sterling has already read the palms of a number of leading citizens. A number of them will be published from day to day. Out of this list the following have been selected

PALMER HOUSE

Formerly the St. James Hotel, 325 South Mais Street (near Third South St.)

PROFESSOR STERLING. THE CELEBRATED FALMIST AND PSYCHOLOGIST

who is now in the city and is recognized by press and public everywhere. All are pleased and delighted with his readings. Multitudes visit his pariors daily and are happy. Palmistry is an exact science, and it excites the wonder and admiration of the most skeptical. Professor Sterling can be consuited on all matters pertaining to the welfare of the human race. Your hands reveal all questions of life, per-taining to marriage, sickness, death. changes, travels, divorces, separators, lawsuits, business transactions, willa, deals, mortgages, lost or absent friends, mining ventures, etc. Consult Professor Sterling. He is acknowledsed the greatest living authority on palmistry and all his work is done in manuscript form, and is strictly confi-

dential. Office hours are 10 a. m. to 9 p. m. daily and Sundays.
Palmistry has been reduced to a

science, and following are some of the results obtained by Professor Stelling of well known persons in this city: M. LICHTENSTEIN, Jeweller.

Men are attracted to you; nature has been kind to you; there is health, wealth and power for you, and a great deal of good you will do to mankind. S. BLOOM,

Professor of the Apex. Liberty, truth, justice, and equality are your greatest attributes. A. HUDSON.

Merchant. Your life line indicates that you will always have many responsibilities. You have success in store for you and you will live to an advanced age.

W. PRICE, Merchant. There will be a man in three month

who will want you to sign papers; you must not do it. You will live to a good old age. E. E. RICH, Merchant,

You have good reasoning powers ready speech and great powers of con-mand. You will gradually advance t public favor in any business. You are H. L. A. CULMER

Merchant, Has to overcome obstacles. Will win success, should marry and be prosper

Palmer House (formerly St. James). 325 South Main street. Room 6. CHARGES 50c, and \$1.00.

Prof. Sterling does not publish pri-vate readings in the daily paper.
