EDITOR & PUBLISHER.

BREVITIES.

A number of married ladies in New York have clubbed together and agreed not to dance round dances with any except their own husbands. Good girls.

The false hair mania has invaded fashionable nurseries at the East, and ten year old belles are to be seen with long braids hitched on to their natural capillary covering.

A heroic father in Montreal chose fine and imprisonment rather than tell the census man the ages of his unmarried daughters.

In the Elgin watch factories 300 of the 800 employes are girls. These girls earn from $10 to $20 a week, and perform the delicate operations incident to the business more skillfully than men.

A short time since two fashionable young ladies were holding high converse over the virtues of a certain new dress. "And does it fit well?" asked one. "Fit as if I had been melted and poured in."

A poor Irishman offered an old saucepan for sale. His children gathered around him and inquired why he parted with it. "Och, me honeys," answered he, "I wouldn't be after parting wid it, but for a little money to buy something to put in it."

For the winter, velvet suits will be in demand, and the various imitations of the genuine silk article will probably be in greater favor than ever. The prices for these goods will probably not vary much from those of last season.

A Scotch minister recently told his neighbor that he spoke two hours and a half the Sunday previous.

"Why, minister, were you not tired to death?" asked the neighbor.

"Aw, nae," said he, "I was as fresh as a rose; but it would have done your heart good to see how tired the congregation was."

A New Orleans youth called, with his intended, on a magistrate to have the marriage ceremony performed in haste. "For, you see," he observed, "there's another man has a license to marry her, and he may be along at any moment." The magistrate hereupon hesitated, and the would-be bridegroom suggested a compromise. "I say, judge, marry us anyway; and if the other fellow makes a fuss about it, why, confound it, he can have her." This arrangement was agreed to and the marriage proceeded, to the mutual satisfaction of all the parties.

The high school of Springfield, Ohio, graduated the young ladies of its last class in calico dresses, as pleasing to the eye of taste as the hand of economy. This was brought about by a thoughtful suggestion of the Superintendent, and the hearty acquiescence of the girls themselves, on the only ground on which high schools can long be perpetuated, namely, that being supported by taxation, they must be open to all classes of society, and confer their advantages upon the poorest of their pupils, without prescription by fashion or creed, expenses or anything else.

The British markets are being supplied with a new article of food, kangaroo tail. It is imported in tin cans, like Australian mutton, and is called kangaroo venison. Those who have tried it give a favorable report of its qualities, and it bids fair to become popular. An English journal says that those who are vegetarian because they object to the destruction of animal life, can eat this meat without scruple, as the tails of kangaroos are so large that they must be an inconvenience to their owners, while, by placing the animal under the influence of chloroform, their tails can be painlessly amputated and packed in tins before they are aware of the operation.

A correspondent writes to inform us that the readiest and most useful remedy for scalds and burns is an embrocation of lime and water and linseed oil. These simple agents combined, form a thick, cream-like substance, which effectually excludes the air from the injured parts, and allays the inflammation almost instantly. He mentions a case where a child fell backward into a bath tub of boiling water, and was nearly flayed from her neck below her hips. Her agonies were indescribable; but her clothing being gently removed, and the lime and oil preparation thickly spread over the injured surface, she was sound asleep in five minutes. Subsequently the parts were carefully washed with warm milk and water three times a day, the oil dressing renewed, and the little patient rapidly recovered. Though all the scalded skin came off, she did not have a scar. This remedy leaves no hard coat to dry on the sores, but softens the parts, and aids nature to repair the injury in the readiest and most expeditious manner. The mixture may be procured in the drug store; but if not thus accessible, slake a lump of quicklime in water, as soon as the water is urgent, use boiling water over the lime, and it will become clear in five minutes. The preparation may be kept ready bottled in the house, and it will be as good when six months old as when first made.—*New York Sun.*

SPECIAL TO THE DESERET NEWS.

By Telegraph.

Per WESTERN UNION Telegraph Line

WASHINGTON.

Ku-Klux.

WASHINGTON, 3.—A telegram from lieutenant Carrow, U. S. Marshal of North Carolina, to A. J. Salis, chief clerk of the department of justice, says Judge Bond refused yesterday morning to continue the Ku Klux cases upon any arrangement. Pluto Durham continued his case on affidavit. Nine pleaded guilty yesterday, and arguments will be prepared.

NEW YORK.

Trouble Anticipated.

ROCHESTER, 3.—Tweed arrived tonight with a large delegation of New Yorkers, and there are indications of a severe fight in the convention to-morrow. It is said the State committee has proposed as temporary chairman to Tammany, one of its bitterest enemies, and the proposition is indignantly rejected. Reports are in circulation that twenty car loads of roughs are on the way here from New York, and that the police will be brought in large force to preserve order. It is thought L. Robinson will be temporary chairman.

A Dig at the House of Lords.

The London *Telegraph*, of Sept. 23rd, says the Birmingham liberal association has addressed a circular to the liberal members for the parliamentary boroughs on the subject of reform in the House of Lords. The circular says, "We believe the time has arrived when a hereditary principle which neither ensures wisdom in an individual, nor patriotism in a body, must be abolished, when the second chamber must be brought into union with popular sympathies, and when the undoubted right of the House of Commons to carry the will of the people into action, over all opposing interests and authorities, must be secured."

Religious.

The London *Times* of Sept. 23rd, in an editorial, says: "A portent is announced from Scotland. A bishop and an arch-bishop have appeared in the pulpit of a Scotch Kirk, and conducted divine service. This announcement has given a severe shock, as might have been expected, to sensitive ecclesiastical nerves this side of the Tweed. A well known archdeacon declares that by conducting worship in a Presbyterian chapel, these prelates have forfeited their own claim to the exclusive privileges, endowments and position of a bishop of the Church of England; and that they are henceforth morally disqualified from prosecuting any of the inferior clergy for a breach of the law. Men of another temper welcome the abandonment of sacerdotal claims as a public recognition of non-Episcopal churches, and the commencement of a reciprocity in pulpits.

ILLINOIS.

Fires.

CHICAGO, 3.—There have been an extraordinary number of fires in the city for the past three days. There were five to-day, the most serious of which destroyed seven small dwellings, with a loss of $10,000.

A special says a terrible fire is raging in the woods north of Greenbay, Wisconsin, and it is reported the town of Oconto is burning.

PACIFIC COAST DISPATCHES.

SAN FRANCISCO, 3.—The Odd Fellows College and Home Trustees met this morning, and resolved that the institution required $100,00 cash to be raised within one year. They then elected the following officers for the ensuing year; for President, Newton Booth; Vice-President, J. A. McClelland; Secretary, C. N. Fox; Treasurer, H. B. Brooks. F. P. Dunn was elected a Trustee, to fill a vacancy caused by the resignation of H. B Brooks.

It is ascertained that Leon, who is under arrest on suspicion of murdering his wife, frequently had quarrels with her, and on the night of her death tied her upon her bed. The coroner held an inquest this evening.

P. R. Rodgers, who shot a bullet through the hat of a man who came to serve a writ of ejectment on him, and then returned the writ to the court, endorsed in his own handwriting, "served with a vengeance," was to-day sentenced in the municipal court to eighteen months in the penitentiary.

Two old San Quentin men are in custody, charged with committing various burglaries; among them that of Mrs. Cook's hair jewelry depot, from which they took $700 worth of goods. This is the fourth time she has been robbed.

Recent prosecutions of lottery-ticket venders here have practically ended the sale of tickets in nearly all the schemes announced in interior towns. The Grass Valley tickets are selling, however, to a considerable extent, and the Brooklyn Alameda Company enterprise is going ahead, the tickets being taken up quite rapidly.

The heat is still very severe.

Belcher is stiff at 400 and Ely at 90, this afternoon.

The corner stone for the Masonic hall at San Bernardino was laid to-day with appropriate ceremonies.

A slight shock of earthquake was felt in the vicinity of Wilmington on Saturday.

SHASTA, Cal., 3.—Under Sheriff Jackson and party are bringing in two of the stage robbers, five horses and four rifles, captured sixteen miles from Susanville. Three of the robbers escaped before the Sheriff's party came upon them.

CARSON, 3.—Isaacs, the guard who was so badly wounded at the breaking out of the prisoners at Carson, had his leg amputated to-day and fears are entertained that he will not recover.

FOREIGN NEWS.

PERSIA.

Terrible State of Affairs.

LONDON, 2.—Advices from Teheran, of the 7th says 80,000 perished in Mesched during July, and the remaining 40,000 were captured by the Afghans and enslaved. Many were executed. Extortion, insurrection, pestilence and inundation continue. The government refuses the aid offered by England and Russia.

The San Francisco *Alta* says that since the prevalence of the present chignon fashion, "the crime of jerking the hair out of your wife's head is not so sinful as it formerly was. It is just as ungentlemanly as ever, but it doesn't hurt as it used to!"
