BEAUTY:

OR, THE

Secret of a Fair Face

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate possesses that basis and starting point of real beauty—a pure and clear complexion.

What nature has thus denied, art must be called upon to furnish.

It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unfortunate Daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion.

It conceals all natural blemishes in the most surprising and effective manner.

It removes all roughness, eruptions, redness, blotches, freckles, and tan with magical power.

It drives away all evidences of fatigue and excitement.

It makes the flabbiest face beautiful.

It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund, and plump.

It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a sultivated beauty.

The Magnolia Balm removes all the pallor and greenish sere discolorations so frequently seen, while it is as harmless as water, as it is so life-like in its effects that the closest observer cannot detect its use.

Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

President Hayes Visits the Post Office.

NEW YORK, 2.—This afternoon, President Hayes visited the Post-office and was received by Postmaster James, who escorted him through the building and explained the workings of the department. Mr. Hayes was introduced to the employees and heartily cheered, and, in return, made a brief speech. He will attend a further meeting of the trustees of the Peabody Fund to-morrow; beyond that his movements are not known.

The Cricket Match.

In the cricket match the Australians in the second innings scored 72 with the loss of only five wickets, thus winning the game. The totals of innings were—Australians, 162; New Yorkers, 151.

Contested Will.

In the Vanderbilt will case, to-day, the surrogate declined to commit Mrs. Stoddard for perjury.

The contest of A. T. Stewart's will began to-day, and an argument was heard on the order served upon S. F. Kneeland to show cause why Ira Shafer should not be substituted for him as attorney for Alexander Stewart, the old farmer, who says the late A. T. Stewart was his first cousin.

The Elevated Railroad.

The grand jury has decided not to indict the officers of the Metropolitan Elevated Railroad Company, but has made a presentment declaring the line to be a nuisance and an invasion of private rights.

The Fitzjohn Porter Case.

A session of the court in the case of Fitzjohn Porter was held to-day at Governor's Island. The judge advocate opened the government's side of the case with a long and exhaustive address. He reviewed the original trial and was very severe on General Porter, saying that his defense had always been a series of afterthoughts, and that he had adopted a theory to which he had attempted to fit facts. He maintained that Porter's new evidence had really not thrown any light on the question, and that there were several discrepancies and contradictions in his testimony. He dwelt at some length on the subject of McDowell's connection with the events in question, and claimed that Porter alone was responsible for the action of the Fifth corps and that he would so prove by his witness and by the documentary evidence he would submit. He also claimed that the witnesses he would bring forward would give a different view of Porter's conduct than has thus far been received through the accused's evidence, and that his conviction by the court martial was proper and the sentence merciful. The address occupied the greater part of the day's session.

Business Prospects.]

The *Public* to-morrow will not give the usual weekly table of business at the clearing houses, but the present aggregates for the month and for the quarter. The editor thinks the exchanges at 23 clearing houses by no means discouraging in the aggregate, although they indicate a marked decrease in the volume of business at some of the points. The transactions for September, 1878, were smaller by about 10.7 per cent. than those of Sept., 1877, but the decrease was mainly due to a decline in the stock speculation at New York. Outside of that city the aggregate exchange at 22 clearing houses is smaller by about 4.2 per cent. than in Sept., 1877, but the decline would have been greater but for the remarkable activity in mining speculation at San Francisco. Probably the actual decrease in the volume of business, not speculative in character, was about 6 per cent., and as the decline in average prices during the past year, has been considerably greater, this indicates an increase in the quantities of products transferred. The remarkable decline at Milwaukee, due to the partial failure of the wheat crop in the region of the tributary to that city, and at New Orleans, due to yellow fever, affect the general result perceptibly.

The Pedestrians.

O'Leary finished his 245th mile at midnight and retired for two hours' rest. At 10.30 Hughes had completed 212 miles when he left the track, and at midnight was still resting.

The Peabody Educational Fund.

The annual meeting of the trustees of the Peabody Educational Fund took place to-day. It was attended by President Hayes and Secretary of State Evarts. Robert E. Winthrop, president of the board, made a short address congratulating the members upon the presence of President Hayes, who has broken away from his official duties to show his interest in educational matters. Notwithstanding the serious shrinkage of their income, he said the course of free public schools at the south had made most encouraging progress the past year, and while they could do nothing as a board to aid in relieving the physical suffering of the southern brethren while the plague is raging, they could do, and had done, and were doing not a little to promote that intellectual and moral improvement which must sustain them in every trial and be the basis of their future prosperity and welfare.

National Bank Note Redemption.

WASHINGTON, 2.—The effects of the recent circular of the Secretary of the Treasury providing that the charges for the transportation of national bank notes for redemption shall be paid by the banks remitting the notes, instead of those issuing them, as heretofore, have already been noticed at the department. Receipts for redemption, which ran up to $1,000,000 a day during last September, have fallen off to $400,000 to-day, and most of these notes were shipped to the treasury prior to October 1st, when the circular took effect. The banks in neighboring cities rushed their notes to the treasury prior to October 1st, and now the receipts from them are very small. From New York, to-day, there was but one package of $1,000, while receipts from that city have usually reached $100,000 daily, and oftentimes double that sum. It is thought the receipts for redemption will soon be less than $100,000 daily, instead of $500,000 as heretofore.

Yellow Fever Reports.

HOLLY SPRINGS, 2.—No appreciable improvement; 17 new cases and 11 deaths in the past 24 hours.

BILOXI, 2.—One hundred cases and 18 deaths to date.

THIBODEAUX, 2.—Fifteen new cases and 2 deaths from fever of a mild type.

NEW ORLEANS, 2.—The New Orleans relief committee, composed of the presidents of 30 old established charitable institutions, having been refused by the Howard Association have again appealed to the Secretary of War for rations for the destitute. They state to the Secretary of War that the reports of those who are in a position to know, show that the Howards cannot and have not relieved a large part of the destitution in the city.

Suspicious Indians.

SIDNEY, Neb., 2.—A report from Ogallala, this afternoon, says that Indians were seen a few miles south of there. The telegram was signed by many citizens and received by Col. Thornburg, who telegraphed the citizens that immediate aid would be sent them. A detachment of soldiers with 18 days' rations, 200 rounds of ammunition to the man, and a wagon train loaded on a special train with an engine attached, awaits orders. Thornburg requested the citizens of Ogallala to send out scouts south of the town to ascertain the location of the Indians, to better enable him to act upon the arrival at Ogallala. It is thought by many that this is a decoy by a small band of the Indians to draw the attention of the troops, to better enable the main body of Indians to effect a crossing over the Union Pacific Railroad.

The Red Cloud Indians.

OMAHA, 2.—About three months ago it was announced that the Indians of the Red Cloud Agency would be removed to their permanent location, and orders for transfer have been expected ever since, but have not yet been received. The Indians are pleased with the new location, though reports to the contrary have been circulated, and they have been impatiently awaiting orders for removal. Matters have been dragged tediously along until the Indians become thoroughly disgusted with the slow way of doing business, and last week after receiving their rations, they all gathered up their traps and without assistance of the agent or authority of the government, struck out across into the new reserve. There was no violence. There are about 6,000 Indians in a body and they took with them the cattle herd in which there are about 600 head.

Fight with Indians.

ST. LOUIS, 2.—A special from Leavenworth says: The troops had a fight with the Indians at 4 o'clock this morning, but does not name the place. Lieut. Broderick, 23rd Infantry, was wounded, and Corporal Stewart, of the 23rd Infantry, and five soldiers killed. Captain Mauck, with his command, has crossed Glover Creek, in close pursuit of the Indians. The bodies of 13 settlers, killed by the Indians, have been brought into Buffalo station.

Patent Infringement.

CHICAGO, 2.—Henry M. Stow, of San Francisco, yesterday, filed a bill in the United States circuit court, against Charles E. Ray, United States Express Company, Cyrus H. McCormick, and others, to restrain the infringement of his patent for wood pavements.

FOREIGN.

GREAT BRITAIN.

The City of Glasgow Bank Failure.

LONDON, 2.—A dispatch from Glasgow states that the causes of the failure of the City of Glasgow Bank are reported to have arisen from an advance of the amount of £6,000,000 to four firms of East India merchants, who have been unable to meet their engagements. Much sympathy is felt for the unfortunate shareholders of the bank. Much of the stock is held by ladies and gentlemen who lived retired, on a moderate competence, and now find themselves reduced from circumstances of comfort to absolute poverty. Seven hundred and fifty persons employed by the bank and its branches are affected by the failure.

The Afghanistan Campaign.

In view of the possible winter campaign in Afghanistan; an immediate dispatch of bedding and extra clothing for the troops in India has been ordered.

Resignation of Herr Szell.

A Vienna dispatch states that the Emperor has accepted the resignation of Herr Szell, Hungarian minister of finance. His has not decided about the other resignations. A compromise is considered likely.

The East Indian Squadron.

The admiral of the East Indian squadron has been ordered to send a number of ships into the Persian Gulf.

The Turks and Insurgents.

A Belgrade dispatch says: News from various parts of Bosnia shows that the Turks and insurgents have abandoned further open resistance, having become convinced that neither moral nor material assistance can be any longer hoped for from the Porte, unless other political complications arise. Upwards of 4,000 insurgents fled to Servia, where they have been disarmed and interned. Among them are two pashas, 200 beys, and a whole battalion of Nizams. They brought with them three Krupp guns, 1,000 breech-loading rifles, horses, stores, etc. Small bands cross the frontier daily with their wives, children, and property.

Insurrectionary Leaders.

A Ragusa dispatch says: The Prince of Montenegro has ordered the leaders of the old Herzegovinian insurrection, who have been hitherto in the city of Montenegro, to proceed with their bands, on the 6th of October, to Bilek, where the prince's father-in-law will formally surrender them to the Austrians.

GERMANY.

The Key-note of the Russian Policy.

BERLIN, 2.—The *North German Gazette* has a significant letter from St. Petersburg, saying the key-note of the Russian policy is tranquility on the basis of the treaty of Berlin, and Russia will not support the enterprises of Afghanistan.
