AMERICAN.

Garfield Monument Fair.

WASHINGTON, 26.—The board of directors of the Garfield Monument Fair orders that applications for space either for loaned or donated exhibits must be made on or before the 1st of November, and all exhibits must be placed in the hands of the board on or before November 11th. Two dollars will be charged for entry on all exhibits made for the advantage or profit of the exhibitors. There will be no charge for space for exhibits of this class, but all cases, counters, etc., must be put up at the expense of the exhibitor. All packages should be addressed to the Garfield Monument committee, and bills of lading mailed to W. Wilson, secretary of the Board of Transportation and Insurance upon all art exhibits loaned for the occasion and transportation upon all articles donated will be at the cost of the board of directors. Transportation upon all other exhibits made for profit to the exhibitors, will be at their risk.

The Michigan board of commissioners are displeased with the character of some buildings in which the board of directors propose to distribute the exhibits, and to-night unanimously resolved not to go further in carrying out the objects of the enterprise until they receive satisfactory assurance as to the character of the amount to be secured and the amount of space allotted exhibitors from Michigan. They also invite other boards to meet with them at an early date, and take such action as may be deemed advisable.

Wool.

BOSTON, 26.—Wool is steady and firm, and prices are well sustained with a good demand from manufacturers. Ohio and Pennsylvania fleeces bring 41¢ for XX and 42¢ for XX and 44¢ for choice XX and XXX. Michigan X fleeces are firm and in demand at 39¢ and 40¢. I fleeces at 44¢ and 45¢. Michigan and Ohio unwashed fleeces are in demand at 17¢ for low and coarse 25¢ for fine and medium and 34¢ for medium selections. Combing and delaine fleeces are firm and in demand at 42¢ for fine delaine and 46¢ for fine and No. 1 combing. Pulled wools are in demand at 42¢ for choice super, which are scarce, 36¢ for common and good super. Foreign wool is quiet, but the stock is light and there is very little that is desirable in the market.

Failures.

ATLANTON, Ga., 26.—The Western Hardware Company made an assignment this morning. Their liabilities are estimated at \$250,000; assets, their stock of hardware, the value of which cannot now be given. The principal creditors are in Pittsburgh. It is the general impression that they will be able to make a settlement and resume.

Boston, 26.—The wholesale dry goods house of Wellington Bros. & Co. has suspended. Nothing is yet known of the status of the firm's affairs but it is thought that their liabilities are heavy. The firm was regarded as worth from \$200,000 to \$400,000. As near as can be ascertained the liabilities aggregate about \$700,000. Some \$70,000 is secured. About \$22,000 of the indebtedness is for borrowed money. Their assets fully aggregate \$725,000, of which \$400,000 is in stocks \$180,000 in notes and accounts, and \$100,000 in cash.

Redemption of Bonds.

NEW YORK, 26.—Beginning to-morrow, the 27th, and until further notice the Secretary of the Treasury will pay any called bonds without rebate of interest at the rate of \$5,000,000 per week. The announcement for the coming Treasury relief started the stock market up and prices advanced 1-8 @ 11-8. It then began to be rumored that the Treasury would get no bonds to-morrow and the rise halted and prices declined a fraction. About noon Secretary Folger visited the sub-treasury. He was there waited on by representative men, who told him about the situation in the money market. He promised to the following order to Mr. New, Acting Secretary, during his absence: New York, Sept. 26.

Hon. John C. New, Acting Secretary of Treasury, Washington.

The rate of mercantile paper is such that the government should at once release money from the Treasury. Order the Assistant Treasurer here to anticipate the payment of any call bonds without rebate of interest at the rate of \$5,000,000 per week until otherwise directed, beginning Wednesday, the 27th. The bonds will be paid at his office here. I will send letter.

(Signed), CHAS. J. FOLGER, Secretary of the Treasury.

Replies Purchasing Papers.

To day's World has the following: By way of ascertaining what basis if any there might be for certain tales which have been set forth of late in two or three local papers. A reporter of the World yesterday found Mr. Gould in his office, and interviewed him on the subject of his alleged attempt to buy the Associated Press.

Mr. Gould, said the reporter, It is stated in sundry quarters that you have been trying to purchase the Journal of Commerce. Have you any objection to say whether this is so or not.

It is ridiculous, and the only grain of truth in the story is that a gentleman closely connected with the Journal of Commerce, in fact one of its editors, sought an introduction to me at a private house where we both happened to be, and stated that he was thinking of making up a syndicate to purchase the Journal of Commerce and wanted to know if I would go into the operation.

How did you receive the proposition? I naturally asked the editor to let me have a copy of a trial balance of the concern, that I might see what its financial position was. The trial balance was never sent to me. This is the whole story of my attempt to purchase the Journal of Commerce, and this is as near as I ever came to being likely to come to being the owner of that great journal.

Is there any more truth, Mr. Gould, in the story which is flying about in a lively manner that you called on Mr. Jones, of the Times, and offered him \$1,000,000 for fifty-one shares? There is, if possible, rather less truth in that legend. I have had no

financial dealings of any kind with Mr. Jones, of the Times.

This order became known a little after 10 o'clock and the whole situation changed immediately. The rates for money took a plunge downward, leaving off for call loans at 8 1/2 per cent. per annum, although no money was lent below 8 per cent., except for effect. Mercantile paper which has been unobtainable, was favorably affected, and in a comprehensive word, the whole tone was changed from apprehension and distrust to confidence.

Yellow Fever.

Brownsville, 26.—The water is disappearing from the streets. There are five new cases of yellow fever and one death, and nine new cases at Point Isabel to-day. Dr. Murray, of the marine hospital at Arroyo, Colorado, is perfecting the cordons. Communication with Matamoros is opened under the supervision of the health officers. The fever in Matamoros is considered nearly over. There was one death there since yesterday.

There is no fever on the Texas side from a point 20 miles above the place, but the fever is increasing at Reynosa, Canango and Mier with great mortality. Pensacola, 26.—The fever is not subsiding, but it is rather on the increase. There is much destitution among the poor classes. There are 60 new cases and two deaths. The increase of fever is so great and the means of affording relief is so inadequate that the board of health has called a meeting of physicians with a view of systematizing the methods for distributing the means of affording relief so as to help all that are in need.

The Death of Charles Matthews.

HOT SPRINGS, Ark., 26.—The jury inquest in the case of Charles Matthews, editor of the Hornet, killed last Friday, this afternoon returned a verdict that the deceased came to his death by three or more blows by a hickory club in the hands of S. W. Fordyce, D. C. Rogers and Frank Flynn, and that the killing of Charles Matthews was unjustifiable.

A Murderous Burglar.

ST. LOUIS, 26.—Captain J. W. Lee, chief detective of San Francisco, and Charles Aule, detective for Wells, Fargo & Co. Express, arrived here to secure John C. Patterson alias Kehoe, now in jail for burglary, who is charged with robbing a stage coach near Nevada City, Cal., September 1st, 1876, and being accused to the murder of Wm. J. Cummings, of the former place.

A Terrible Threat.

BOSTON, 26.—The boys of the Somerville Glass Works striking for an increase of pay returned to work under the threat of a Chief of Police that he would make them go to school.

Fatal Fight.

COVINGTON, Tenn., 26.—Emily Wilson and Lizzie Kemp fought about their children at this place this morning, and Mrs. Kemp cut Mrs. Wilson's face with a razor, and the murderer was immediately arrested.

Dresden, Tenn., 26.—Thomas Fitzgerald, a man of 30 years, here this morning, and found Reuben Edwards talking to his wife. Fitzgerald seized a table-knife and stabbed Edwards to the heart. The latter three-fourths of the way to the old feud. They went into a darkened room and fought a duel. Straton fired four times, and the bullet killed the murderer instantly. Hollenbeck was quiet and eluded, his antagonist, whom he caught in the wrong corner.

FOREIGN.

Baker Pasha Wants Englishmen.

CONSTANTINOPLE, 26.—Baker Pasha, entrusted with organizing the Egyptian army, is now in the process of recruiting the Khedive that he employ all English officers serving in the Turkish Gendarmerie.

The Porte Don't.

The Porte has addressed a note to the British ambassador demanding to know the steps contemplated by his government in regard to the withdrawal of British troops from Egypt as they are no longer needed in that country.

Calico.

CAIRO, 26.—General Wolsey is suffering from cold and diabetes.

Fatal Collision.

There was a collision on the railway between Mahkavah and Mahsabah to-day, in which ten natives were killed.

Bismarck Recks Britain.

Berlin, 26.—It is certain that the action of Germany will be very favorable to England in the settlement of the Egyptian question.

Brigandage.

Tunis, 26.—Near Kairwan a band of marauders attacked a party of 60 horsemen belonging to the French topographical expedition, and the French commander was killed and seven of his men disabled. The brigands lost thirty killed and fifty wounded.

Smallpox.

Capetown, 26.—Small pox is raging worse than ever. There are 2,000 cases, mostly natives, and 600 have proved fatal. The disease has reached the military, and Cape Town is declared infected, and all vessels are being quarantined.

Constitutional Amendment.

City of Mexico, 26.—A constitutional amendment has been adopted declaring that, in the event of the death or removal of the President, the power shall devolve upon the President-elect, and the President-elect shall be sworn in before the month preceding the vacancy. When the Senate is not in session the President of the permanent committee, alternately a senator or a deputy, shall succeed. Elections will be held immediately. Either to the chief justice has been vice-president.

BRIEF TELEGRAMS.

President Arthur will go fishing to-day.

Association met in Boyd's Opera House, at Ogden, last evening.

A most brilliant comet has been visible to the naked eye for ten days past at about 4 a. m. at Key West, Florida.

A suspected yellow fever ship is anchored in New York Bay, and the case is referred to the New York authorities.

Sir Henry Halford and some of the other members of the British military rifle team sailed for England yesterday.

The German Government is devoting its attention to a project for constructing a canal connecting the North Sea with the Baltic.

At least one firm at Manchester, England, is said to have been in serious difficulty owing to the excessive exports of cotton goods to the East.

A subscription has been started in Austria for the relief of the sufferers by the floods in the Tyrol and the Emperor heads the list with 100,000 florins.

The officers and crew of the British war ship Phoenix, which was wrecked off Nova Scotia, have arrived at Halifax with the guns, stores and materials saved from the wreck.

Yesterday was the first day of registration in Brooklyn for the fall election. The number of citizens enrolled was 18,828, against 18,087 last year, and 45,684 in 1880, the presidential year.

Hon. David Davis, Vice-President of the United States, was given a private reception last night at the residence of F. R. Chandler, in Chicago. About 300 society people were present.

Capt. Hamilton and Male Cummings of the ship Undaunted were arrested yesterday at New York on the charge of cruelty at sea as one of their seamen was killed by falling through fear, into the hold.

A Washington special says: Information is received here that Stephen W. Dorey has been re-elected chairman of the republican National Committee.

The National Council of the order of United American Mechanics is in session at Washington, D. C. The number of members is 15,141; paid for benefit and relief the past year, \$66,071; balance in treasury of the subordinate council and general fund, \$275,932; widows and orphans fund, \$29,515.

CITY COUNCIL.

Proceedings at the City Council on Tuesday evening, Sept. 26th, 1882, Alderman Dinwiddie presiding:

Alex Cohn and five others, residents of Pine and adjacent streets, petitioned that a four inch water main be extended along said street one and a half blocks from South Street to the station, and advance the amounts set opposite their several names, amounting in all to \$500 which petitioners believe to be three-fourths the cost of making said extension.

On motion, the petition was received and the prayer thereof granted on condition that petitioners advance three-fourths the cost of the work, whether it be \$500 or more, said work to be done under the direction of the superintendent of water works.

A petition from Mrs. M. Schriener was presented, complaining that the city had cut its canal through the lot of J. H. Ward, cutting the northeast corner thereof and throwing up an embankment which makes the lot inaccessible by team. Petitioner asked that the city buy her lot, which was valueless to her as it existed, and renewed the offer to sell, made in a previous petition, for \$400. Referred to the committee on claims.

L. Martin petitioned to be granted the right of way through Chesnut Street, between Garden and Bluff Streets, for a water pipe, to be laid from the 30th Ward ditch to his residence. Referred to the committee on streets and alleys, with the watermaster associated.

A petition from W. N. Cook was submitted, praying that he be given a title to a certain strip of land near the military reservation of Fort Douglas, which he had improved by expending several hundred dollars, and upon which he had erected a dwelling for himself and family. Referred to the committee on public grounds.

Applications for renewals of license as retail liquor dealers were submitted from G. S. Erb, at the Continental Hotel, Stewart & Childs, at the drug store on East Temple Street, and Youngberg & Pedersen, at their saloon on Commercial Street. Granted.

Application for renewal of license to manufacture malt liquors at their brewery, Nineteenth Ward, was presented from the estate of R. B. Margret.

The committee on improvements, to whom was referred the petition of Henry Wood, superintendent of the Denver & Rio Grande Western Railway Company, for street lamps on the street between the station and company, reported that the distance would be five blocks, and recommended that the superintendent of gas be instructed to put four lamps to each block along Second South Street from the corner of West Temple to Fifth West street.

Action on this report was, on motion, deferred to the next meeting.

The committee on waterworks, to whom was referred the petition of John S. Johnson and four others, asking that the waterworks be extended 422 feet eastward on Second South Street from the spill located at the corner of Sixth East and Second South streets, recommended that the petition be granted, provided the parties interested first pay into the city treasury three fourths the cost of the same, to be returned in water rates after the usual manner.

A report of the city attorney giving a detailed account of the business of the corporation in his hands for the period ending August 31st, which showed a total of seven cases, to which the city was party in interest, was received and filed.

It was decided, on motion, to let the same of the Council that the gas company be required to extend its mains northward according to the terms of its franchise, and especially along North Temple or adjacent streets, and that the city should in lamp price as far as practicable, considering its present financial condition and the wants and

rights of residents of that portion of the city.

Mr. Chas. H. Crow was appointed alderman of the Fifth Municipal Ward to fill the vacancy occasioned by the death of Alexander C. Pyper.

The subject of the conditions and restrictions pertaining to the grant of a water power to Francis Armstrong for his mill and the black-smith shop adjacent thereto, at the mouth of City Creek Canyon, was referred to the committee on water-works.

Adjourned for one week.

Another New Motor.

A new motor, which the inventor, Geo. V. Sheffield, is confident will supersede steam as a power, is now on exhibition at Nos. 174 and 176 North Street. It consists of an air pump, a vacuum reservoir, and a hollow iron cylinder with two rocker valves. The air pumps exhaust the air and create a vacuum in the reservoir. The reservoir is connected with the cylinder by two iron pipes, and by turning a stop-cock in each of these the air is allowed to pour through the valves of the cylinder into the reservoir, and in so doing it causes the wheel to revolve. The amount of the power exerted on the cylinder will depend entirely on the size of the wheel and the valve. The vacuum is created in the machine on exhibition by the application of steam to the air pump, but the inventor expects to apply the rise and fall of the tides to his air pump, and thus to utilize a natural force in producing his power. By means of floats, to which a system of cogwheels is attached, Mr. Sheffield claims that he can make a series of vacuums in reservoirs at distant points from the river, and that the power thus stored can be used at will. In the exhibition of the motor he uses steam to produce the vacuum and the machine itself works to a charm. If the tides can really be used to supply the force by which vacuums can be created in reservoirs situated in different parts of the city, the new invention will prove a valuable one to its originator.

Natural Fruit Flavors.

Dr. Price's SPECIAL'S FLAVORING EXTRACTS
