It was learned that the complainant, Nelson, filed the com-plain against the Davis woman this morning. It was issued by the county attorney, but Assistant County Atty. Carlson knew nothing about the mat-ter. Inquiry was made from the desk sergeont and other police officials, but none knew anything about the woman. Some one said she was arrested by Pa-trolman Kast, who is on the night shift and who was then home sleeping the sleep of policemen. The name of Ivy Davis does not, or did not at this writ-ling, appear upon the register of arrests. Here is another tangle for the police to unravel. That the woman was ar-rested there can be no doubt. That she is charged with the crime of grand larceny is testified to by the official complaint. But where is the woman?

WORK RESUMED.

Salt Lake Public Service Company Secures the Necessary Capital.

The financial troubles of the Salt Lake Public Service company are apparently ended, as the company yesterlay resumed work upon its power lants in Cottonwood canyon. They have been shut down now for several months and the resumption of work follows the refinancing of the company through the sale of its bonds to a com-pany of English capitalists,

The capital required to complete the plants is available and has been ar-ranged for and immediate steps will be taken to renew such franchises as have need in the last few months. The Cot-onwood power plant will be the first onsideration, and within the next few ays the company expects to put a trge force of men to work and force he plant to an early completion.

J. J. Chambers, formerly president and manager, has resigned his position with the company and hereefter the management will be in the hands of J. C. Hornung, resident engineer for the J. C. Hornung, resident engineer for the W. H. Schott company of Calcago. Whether work will be commenced on the local plant at the corner of First South and Fourth West streets has not yet been definitely decided, but any delay will not be other than temporary and the work of laying the pipes through the streets of the city will be resumed just as soon as the franchises can be arranged for. It is difficult to determine just how long the work of constuction will re-POLICE SEARCH

long the work of constuction will re-quire but it is the company's object, if possible, to serve customers with heat in the down town districts next winter.

To Carry Utah Delegates to National Irrigation Congress Supt. 29.

Negotiations were opened yesterday with the railroads to furnish a special train for the Utah delegates to the National Irrigation congress at Al-buquerque. Fred J. Klesel who is mak-ing the negotiations informed the pas-senger agents that 250 or 300 delegates and excursionests from the state are expected to attend the congress. The propositions of the Rio Grande and Oregon Short Line will be submitted to the executive within a few days. Yesterday Governor Cuti r appointed 15 delegates to represent the state at the congress in response to the call for delegates issued by the executive com-mittee of the Sixteenth congress. In addition to these delegates, delegates are to be appointed by the municipal governments of the state, commercial clubs and church and society organi-zations. The county commissioners have the right to appoint three dele-gates from each county. Governor Cutler's proclamation fol-lows: train for the Utah delegates to the
