MAY HAVE MORE SNOW.

The weather "took a sudden turn for the worse" Saturday evening, and when Salit Lake woke up Sunday morn-ing, a wet snow was failing. It was cold, raw and unpleasant all day, but towards night, it began to moderate, and while the mercury went down to 57 this morning, there was a rapid rise in the temperature later, and this after-noon it is pleasant again. The weather bureau looks for a further rise in the mercury, though the conditions appear to be unsettled. A moderate high area is a low area above and one beneath, and the two may drop down in the rear of the high area as it progresses east-ward, and give more rain or snow. The precipitation of yesterday amount-ed to 26 inches or about two inches af snow ,26 inches or about two inche of snow,

WANT SIGN REMOVED.

Ministers Object to Whisky "Ad" Above Smith's Drug Store.

At the Ministerial association meeting today, a paper was read by Rev. J. H. Worrall on the reception and dismission of church members. The essayist dwelt on the necessity of the scriptural requirements in this matter, as based on the apostolic requirements in the second chapter of Acts.

O. L. Coxe, general secretary of the Y. M. C. A., was appointed a committee of one to call on Dr. Dreuhl of the drug store at the corner of Second South and East Temple streets, to see if the glaring whisky sign on the roof can not be removed. The ministers consider that sign a disgrace to the town, and say it is a source of offense to decent sentiment.

weak, puny children are afflicted with it in nine cases out of ten.

And yet it may develop so slowly as to cause little, if any, disturbance during the whole period of childhood.

It may then produce dyspepsia, catarrh and marked tendency to consumption before manifesting itself in much cutaneous eruption or glandular swelling.

Common indications of it are: bunches in the neck, abscesses, cutaneous eruptions, inflamed eyelids, sore ears, rickets, wasting and general debility.

Many medicines are said to eradicate scrofula but
