PREDICAMENT OF THE CITY COUNCIL

Outcome of the Chambers Case Places City Fathers in a Peculiar Situation.

TO CONTINUE PROSECUTIONS.

No Other Judgment But That of Removal—Half of City Council Involved—Will Not Resign.

Ogden, Feb. 23.—An unusually peculiar situation exists in the Ogden city council at the present time. The action of the jury in finding Mr. Chambers guilty, makes it impossible for him to serve the council longer as their president, and whether or not the council will appoint one of their number to fill his place is yet undecided. Mr. Chambers intends appealing his case to the supreme court, but in the meantime he will not have the authority to sit as a councilman. The only judgment that can be rendered by Judge Howell in his

case will be removed from office, and should the judgment of the lower court be reversed by the supreme court, reinstating Mr. Chambers, then the question arises, if the council shall have appointed his successor, what will become of the one appointed, or which one of them would have the greater right to the place.

Mr. Skene is determined in his action against the councilmen, and says that he will push the cases against them if they do not resign. The councilmen are equally as determined, and the present indications are that before the hearings are completed suits will have been prosecuted against five of Ogden's city fathers.

WILL NOT RESIGN.

Attorney J. D. Skene stated yesterday that he would give Councilmen R. B. Paine and W. R. Emmett, until next Tuesday morning to send in their resignations as city councilmen. He declared that if they did not do so by that time, he would bring charges against them similar to the charges against Fred W. Chambers.

Mr. Skene also stated that if Coun-

cilmen Moyes and Craig would resign by tomorrow morning, he would withdraw the charges against them. Emmett was seen by the "News" representative and asked what he would do in the matter. He replied that he would not resign, and that he was prepared to meet any charges that Skene could bring against him.

SALARY DIFFERENCES.

Under the law, the salary of no councilman can be increased during the term of office for which he was elected. When Councilmen Chambers, Craig, Emmett, Moyes and Paine were elected two years ago last November for a term of four years the salary ordinance in effect fixed the compensation of councilmen at \$240 per year. Last year a new salary ordinance was passed by the council increasing the pay of councilmen to \$300 per year with an additional compensation of \$10 per month for committee work, and the five new councilmen are receiving a compensation of \$35 per month for their services. The city, but the five holdover councilmen can under the law only receive \$20 per

COUNTY FAIR COMMITTEES.

Death of an Old Miner in Mental Hospital.

Provo, Feb. 23.—Joseph Miller, aged 75 years, an old time miner who was committed to the state mental hospital from Salt Lake county, Dec. 13, 1888, died yesterday from general debility. Years ago Miller worked at the Comstock mine in Nevada, and while so employed was injured seriously, causing the loss of an eye. From that time his mind became weaker until he was finally sent to the mental hospital here.

He came west from Connecticut in the early sixties and had a sister in Denver, and a brother somewhere in Colorado. The Utah County Fair executive committee met yesterday and appointed the following committees on matters connected with the county fair project, which is meeting with encouraging support in all parts of the county: Planning and advertising—Robert Skelton, J. M. Kirkman, W. D. Roberts, Jr., Don C. Johnson, Heber Jex. Grounds—John W. Farrer, R. C. Wat-

AERONAUT HAS NARROW ESCAPE FROM DEATH.

Oakland, Cal., Feb. 22.—An unsuccessful trial was made by Prof. Montgomery's aeroplane at Idora park today, and it almost resulted in serious injury to David Wilkie, the aeronaut. At the height of 1,500 feet Prof. Montgomery signaled to descend, but the aeroplane did not respond. Suddenly, however, it was seen to drop from its support and it went up from the spectators. For a single moment the aeroplane remained on even keel, then it swerved sharply and began to fall in short circles. Clinging desperately to the framework of the machine, Wilkie could be seen making frantic efforts to regain control of the machine and twice it seemed that he had succeeded. Like a wounded bird, the aeroplane went downward, twice righting itself, only to again plunge toward the earth. The last time the machine floated an even keel it was within a short distance of the ground, and to this fact Wilkie owes his life, for when the machine started again toward the ground, it had but a few feet to fall. It struck with force enough to wreck the machine, but the aeronaut escaped with a bad gash on the nose, and a number of painful bruises.

OUTFIT FOR AN ARCTIC EXPLORING EXPEDITION.

New York, Feb. 23.—On the steamer Hellig Olav of the Scandinavian line, arrived yesterday one of the most curious consignments of freight that ever reached this port. It comprised mainly arctic sledges, kayaks, or Greenland canoes, and a lot of tins, looking like cake boxes, containing provisions for use in polar regions.

The whole was consigned to Capt. Einar Mikkelsen, the Danish explorer, and from part of the supplies which he will take with him on his expedition to Vancouver in the spring in an endeavor to discover new land within the Arctic circle. There were in all about 25 large packages. Among their contents were 15 sledges, built in Christiania under Capt. Mikkelsen's direction, each of which weighs only 35 pounds. They are made of American hickory. Four kayaks are in the lot. Capt. Mikkelsen expects them to be of great use if on traveling across the ice field he comes to open water.

The tins, which form the remainder of the consignment, are so filled with provisions that each has a buoyancy of 15 pounds. Each weighs 45 pounds, against the 60 pounds of the quantity of water it displaces, and if 10 of them are loaded on a sledge the latter breaking through the ice would float a man of light weight. "I intend to make a trial of a vegetable diet," said Capt. Mikkelsen, "and shall essay chestnuts and whole wheat. Thus I can save half the weight required by meat and be able to take provisions for double the distance. I expect to leave for Vancouver within a few days. I shall buy my vessel there, not yet having made a choice, though several boats have been offered."

TWO UNFORTUNATE INCIDENTS MARRED BIRTHDAY BANQUET

Chicago, Feb. 23.—Two unfortunate incidents marred the Washington birthday banquet last night at the Union League club, at which Secy. of War William H. Taft was the chief orator.

F. C. Jocelyn, secretary of the Laurens Hull Lumber company, was stricken with apoplexy shortly before the conclusion of the dinner. He was borne from the hall to a private bedroom, where the physicians pronounced the attack a slight one.

In the middle of Secy. Taft's speech, E. W. Bailey, a board of trade operator became indisposed and walked out of the hall. On the edge of the stairway he fainted and fell half way down the flight. His injuries proved slight and he returned after a rest to the hall.

The high temperature which prevailed in the banquet hall throughout the evening, the heavy pal of tobacco smoke, and the lack of sufficient ventilation are held to blame for the way in which these two men—both widely known—were affected. Several other

month. This does not appear to be a just proposition, but it is the law, and it is believed the councilmen now in office will endeavor to live exactly within the letter of the law, so that they cannot be caught up and prosecuted because of technical violations, as in the case of Mr. Chambers and the other councilmen against whom suits have been brought for their removal from office.

BRIEFS AND PERSONALS.

Washington's birthday was quietly observed in Ogden yesterday. The "Parasol" performance at the Grand last evening being the crowning feature of the day.

Tonight Spillman Riggs will deliver his talk at the tabernacle under the auspices of the Weber Stake academy lecture course.

The Second Ward Dramatic company presented its pretty drama entitled "Saved" tonight at the ward amusement hall.

The auditing of the city's books was commenced yesterday by C. R. Hollingsworth and R. T. Harris, who will complete the work as quickly as possible.

Tomorrow night the W. C. T. U. will serve a dinner in the basement of the M. E. church.

W. C. Stafford of Cheyenne, Wyo., who is chief clerk of the railway mail service, is in Ogden in connection with the weighing of mails. He says the mail clerks are being worked very hard ever since the first of the year, but hopes for a relief for the boys in a short time.

Prof. J. C. Swenson has gone to Castle Dale to deliver a lecture in history before the Emery County Teachers' institute.

Dr. Byron W. King will deliver a series of lectures in Emery county next week. A great treat is in store for those who attend.

Prof. F. W. Taylor gave an instructive talk on dietetics at the parents' meeting in the Maesser school Wednesday evening. Jos. W. Dunn and J. V. Dunn, manufacturers and owners of the patent of the "Get There" delivery cart, have entered into an agreement with A. H. Berrill of Salt Lake, by which he becomes the sales agent for the state. The cart is a trailer of a bicycle, and appears to be a convenient and useful contrivance. The inventor, J. V. Dunn, makes a pleasing and very enjoyable—so the children—exhibition of its use by attaching it to his wheel and taking his children for a ride on his bicycle perambulations.

old men were compelled to leave the room before the close of the program.

ALBERT SONNICHSEN.

Newspaper Correspondent Suddenly Disappears in Macedonia.

Vienna, Feb. 23.—A telegram received here from Sofia, Bulgaria, today announced that Albert Sonnichsen, of Oakland, Cal., a correspondent of the New York Evening Post, had disappeared in Macedonia. He last letter received from him was dated from Sofia, Feb. 6.

Albert Sonnichsen, author, journalist and traveler, was born in San Francisco in 1875, and is the author of one or two books. He has also contributed to the magazines and about two years ago went to Macedonia as a correspondent for the Evening Post and other papers. His absence does not yet cause the Evening Post any anxiety. The last letter received from him was dated from Sofia, Feb. 6.

MOROCCAN SITUATION.

Premier Rouvier Lays the Matter Before the French Cabinet.

Paris, Feb. 23.—Premier Rouvier laid the Moroccan situation before the cabinet today, but no announcement was made concerning a modification of the present status. Minister of Marine Thomson announced his intention to ask parliament to build three battleships of 18,000 tons, which will be the largest French ships yet constructed.

FEARS FOR ALEXANDER.

New York, Feb. 23.—Fears over the condition of James W. Alexander, former president of the Equitable Life Assurance society, were expressed today by the three physicians who have been attending him since an operation was performed yesterday. This was the second operation on Mr. Alexander in two weeks and was performed for an organic trouble. His physicians today said that he had thus far failed to rally from yesterday's operation as rapidly as he did from the first one.

IOWA MONUMENT PLACED.

Chattanooga, Tenn., Feb. 23.—After three trials with intervals of months, the Iowa monument in Rossville Gap was placed in position yesterday afternoon. The monument is massive and beautiful. The date for its dedication will be fixed by the commissioners appointed to locate the site and erect the shaft.

Plain Words on Catarrh Cures

Just at this time of the year the newspapers are filled with advertisements of Catarrh cures of one kind or another. In all probability every one of them can be found on sale in our store. But we cannot guarantee these various remedies; of course, they may be meritorious—as to that we cannot say. We buy them from the manufacturers, and certainly would not sell them if we thought they were in any way injurious.

There is one Catarrh cure we know all about, and that Catarrh cure we back up with our reputation as pharmacists, and with our bona-fide guarantee.

That remedy is Rexall Mucutone.

We know how Rexall Mucutone is made, what medicines are used in compounding it, and the scrupulous care with which it is manufactured, and we know that it is an honest, meritorious remedy, that has cured thousands of chronic sufferers from Catarrh.

The very first dose of Mucutone will brace you up, will give you new strength and hope, will convince you that at last you have found a medicine that goes right to the spot and does the work for which it is intended; and with each succeeding dose you will feel better and better, stronger and stronger.

You will regain your appetite, will find yourself eating heartily, and will feel that your food is doing you good.

You will note an increase of blood.

Your hands and feet will be warm, instead of cold and clammy.

Your nerves will become steady. You will sleep soundly, and you will get up in the morning wonderfully refreshed and despondency will be a thing of the past; and besides, Rexall Mucutone will accomplish all this in an astonishingly short time.

It makes no difference whether you are just beginning to feel badly or whether you have suffered for years—we say Mucutone will cure you—just try it out on this statement. If it does not do all that we have claimed for it, we will immediately refund your money. You can get a large trial bottle for 50 cents.
