THE benefits conferred by the use of GLEN'S SULPHUR SOAP are not confined to the eradication of cutaneous eruptions. It has also the power of transforming a coarse and freckled skin into the softness of velvet, the blended hue of the lily and the rose, and the sweetness of the violet. It is also a protection against the contaminations of disease, and defies the morbid effects of the contagious emanations of the worst pestilences.

Consumption Can be Cured.

Schenck's Pulmonic Syrup, Schenck's Sea Weed Tonic, Schenck's Mankrae Pills, Are the only medicines that will cure Pulmonary Consumption.

Frequently medicines that will stop a cough will occasion the death of the patient; they look up the liver, stop the circulation of the blood, hemorrhage follows, and in fact they clog the action of the very organs that caused the cough.

Liver complaint and dyspepsia are the causes of two-thirds of the cases of consumption. Many persons complain of a dull pain in the side, constipation, coated tongue, pain in the shoulder blade, feelings of drowsiness and restlessness, the food lying heavily on the stomach, accompanied with acidity and belching up of wind.

These symptoms usually originate from a disordered condition of the stomach or a torpid liver.

Persons so affected, if they take one or two heavy colds, and if the cough in these cases be suddenly checked, will find the stomach and liver clogged, remaining torpid and inactive, and almost before they are aware the lungs are a mass of sores, and, later, the result of which is death.

Schenck's Pulmonic Syrup is an expectorant which does not contain opium or anything calculated to check a cough suddenly.

Schenck's Sea Weed Tonic dissolves the food, mixes with the gastric juices of the stomach, aids digestion, and creates a ravenous appetite.

When the bowels are constive, skin sallow, or the symptoms otherwise of a bilious tendency, Schenck's Mankrae Pills are required.

These medicines are prepared only by J. H. SCHENCK & SON, N. E. corner Sixth & Arch Sts., Philadelphia.

And are for sale by all druggists and dealers.

History of Turkey.—"The History of Turkey, and Causes of the War of 1877," by J. D. O'Connor, is a compact little work, well and tersely written. Besides the causes of the present war, it gives the geography, chronology, and statistics of the Empire; the ethnology, primitive traditions and sociology of the Turks, and the genealogy of the Ottoman Dynasty.

The Russo-Turkish war now waging renders the subject matter of the book more than usually interesting. It is for sale at Dwyer's; price 75 cents.

City Council.—The Council met last evening, Mayor Little presiding.

Petition of William Thorne and other residents of the 7th Ward asking that the gas mains be laid to and a street lamp be erected in front of the 7th Ward new meeting house; granted as to the street lamp, providing the gas company lay the necessary extension of the mains.

Bills for October, as follows, were allowed and the amounts appropriated: City Marshal's expense account, \$114.20; his department expenses, \$300.57; board of city prisoners, \$1,563.55; at 15 cents—\$239.52; gas, \$1,151.50; police salaries, \$92; care and keeping of three insane patients, \$100.25; janitor at City Hall, \$200; watchman at water tanks, \$60; collecting dog tax, \$23.

The Council adjourned till next Tuesday evening at 8.30 o'clock.

Storing Grain.—There will be an annual meeting of the several committees on Storing Grain, held at the Council House in this city, at 2 o'clock p.m., Saturday, Nov. 17. The officers and members of the different branches of the Relief society in Salt Lake City, and other localities adjacent, are cordially invited to attend. It is expected there will be a full report given of all grain stored by women in Utah Territory, and what preparations have been, and are being made to carefully preserve the same. The meeting will no doubt be fraught with interest to all enlisted in this noble enterprise. The women of Utah have engaged energetically in this peculiar mission, and they should avail themselves of every opportunity of gaining information in regard to this mammoth undertaking.

CHAIRMAN GEN. GRAIN COM.

Jump County Items.—The Young Men's Mutual Improvement Association of Nephi reorganized for the winter season last week. The officers are:

David K. Udall, President; James Jenkins and Thomas Belliston, Counselors; Isaac Grace, Secretary; Jacob G. Bigler, Jr., Corresponding Secretary; Adelbert Casler, Librarian; John Ellison, Treasurer.

The Levan Association also reorganized recently, with the following officers:

Thomas B. Higham, President; John Witbeck and Peter P. Poder, Counselors; W. B. Franklin, Secretary; John W. Shepherd, Corresponding Secretary; Martin Neilson Librarian; Charles Mangleston, Treasurer.

Eighth Ward.—The Mutual Improvement Association of the 8th Ward met last evening and reorganized with the following officers: Samuel H. Leaver, President; Joseph L. Rawlings and John Cartwright, counselors; Charles B. Tuckfield, secretary and treasurer; H. J. Wallace, assistant secretary; Isaac Brockbank, Henry Wallace and John W. Snell programme committee; John M. Chamberlain, choir leader; George Alley, Ephraim Warren and Franklin J. Hewlett, deacons; with a roll call of fifty members.

Museum.—A pamphlet has been received from Professor O.C. Marsh for which Mr. Barfoot the curator of the Deseret Museum desires to express his thanks. It is a report of an address delivered by that able zoologist and profound reasoner before the American Association for the Advancement of Science. The close of that address is so closely in accordance with our ideas, as founded upon modern revelation that we transfer it to our columns:

"Light, heat, electricity and magnetism, chemical affinity and motion, are now considered different forms of the same force; and the opinion is rapidly gaining ground that life, or vital force, is only another phase of the same power. Possibly the great mystery of life may thus be solved, but whether it be or not, a true faith in science knows no limit to its search for truth."

Temple Rock.—A specimen of rock was recently brought to the Museum by Hon. D. H. Wells; the rock is exceedingly hard, contains traces of large sea weeds (fuoids) such as are seen in many similar rocks of the silurian age. This rock is being used for the Temple at Logan. The rock used for the Temple at Mantle is an oolitic limestone, probably of the Tertiary age. This also contains fossil fish (ganoids). The granite used for the Temple in this city is a rock which by its nature is not likely to contain any traces of organic forms, as it is igneous in origin, although of comparatively recent extrusion. The foundation of the Temple at St. George is of basalt (black rock). This is also of igneous origin, and is classed among recent rocks; the super-structure of that Temple is of red sandstone of the Triassic epoch.

THE LADIES OF WEBER COUNTY.

At a special meeting of Weber County Relief Society, held in Ogden in July last, President Brigham Young requested that each branch of the Society of that county should make a written report of their condition and circumstances, financial, etc., to be read at a general meeting in the Ogden Tabernacle three months from that time. In accordance with that request the meeting convened in the Ogden Tabernacle, Tuesday, Oct. 30, at 10 o'clock a.m. On account of the high wind on that day there was not such a large attendance of sisters as had been anticipated, yet there was a good representation from the various towns of the county. The reports were brief, comprehensive and systematic, and those who heard them had good opportunity of judging women's capacity for managing business, and also wisely disbursing funds for charitable purposes. These reports dated back to the commencement of each respective branch of the Society and gave full statistical particulars.

Many excellent remarks were made. The meeting was ably conducted by Mrs. Jane S. Richards, President of the Weber County branch of the Relief Society.

There were present from Salt Lake City, Miss E. R. Snow, Mrs. M. M. Kimball, Mrs. E. B. Wells, Mrs. L. G. Richards and Mrs. Zina Y. Williams, and from Brigham City, Mrs. Harriet Snow. These ladies each addressed the meeting, expressing their zeal and earnestness on all subjects which related to the building up of Zion. Home industries, especially sewing, was one item to which the particular attention of the sisters was drawn. The storing of grain by women, the promoting of home literature, and sustaining of the Women's Exponent were treated upon in a spirit calculated to do good.

President D. H. Peery, before the close of the meeting, spoke eloquently upon the intuition of women, their spiritual characteristics, their oftentimes wise counsel and judicious caution, and the lasting impressions of the early teachings of mothers. His good words to a woman will not be forgotten by those who had the pleasure of hearing them.

At the close of the afternoon session.
