## DESERET EVENING NEWS SATURDAY MARCH 30 1907

## Veterans, Attention!

This is for the "boys" of "Zion's" Camp" and the "Mormon Battalion."

Surviving members of those famous organizations that played such a promment part in the events of the early history of the Church, are cordially invited to attend a reunion to be given in their honor by the First Presidency at the Lion House on Tuesday afternoon, April 9. This will be one of the great events of the April conference.

The First Presidency have for some time felt that such a reunion would be a proper acknowledgement of the importance of the services rendered by those who in the early days, cheerfully responded when the call was made upon them. The veterans are rapidly being removed from this sphere of action. There are very few survivors of "Zion's Camp," and, possibly, not more than fifty members of the "Mormon Battalion." They are scattered over a wide area of the country. Some live in Utah, some in California, some in Arizona. Some, probably, have settled in Canada. It would be well if as many as possible could be brought together at the coming reunion.

CONFERENCE OF

SUNDAY SCHOOLS

Convention of Stake Officers and Boards to be Held Next

Week.

SOME INTERESTING PAPERS.

Program of Proceedings Preceding the

Big Annual Conference in Taber-

nacle on Sunday Evening.

On Thursday, April 4, there will be a

convention of stake Sunday school officers and boards held in the Latter-

day Saints university buildings prior

to the annual conference of the Deseret

Sunday School Union, which occurs

in the tabernacle the following Sunday

evening under the direction of the Deseret Sunday School Union board. The general assembly of the dele-

gates and those interested will be

called to order on Thursday morning at 9:20, and prior to separation an hour

later to various departments a short

program will be in order. In the various departments papers on live topics connected with Sunday school work will be read, and following each there will be time allotted for discussion of the subject.

As mear as possible the entire pro-gram and convention will be guided by a time schedule that has been allotted. The program, covering all depart-ments, will be as follows:

We hope this invitation will reach all for whom it is intended. Friends of the veterans : .ould call their attention to it. In case they do not happen to see it themselves, and we suggest that those who live far away and may not be able to undertake the journey without financial or other assistance, should receive such from their friends, in order that the reunion may be complete and an event never to be forgotten by those in whose honor it is given.

We als suggest that Stake Presidents and Bishops look after this matter and see to it that none is absent for want of means to undertake the journey

The invitation is also cordially extended to the wives and widows of the members of the two organizations. We hope to see a general rally of the veterans. To many of them it will be the last before the great reunion on the other side.

Veterans, attention! JOSEPH F. SMITH, JOHN R. WINDER. ANTHON H. LUND.

THURSDAY EVENING. The stake workers with their hus-

hands, wives and escorts will her her guests of the general board at a "so-ciable" to be held at the Lion House, Salt Lake City, conducted by the gen-eral superintendency and Deseret Sun-day schoel Union board.

and it is no uncommon sight to se and it is no uncommon sight to see every lot with an oil fire going in it. Sometimes even the extremity of fir-ing buildings is resorted to in order to save the budding fruit."

R. G. Miller of Price, Carbon coun-ty, Utah, is at the White House. Mr. Miller is enthusiastic over the pros-pects for his section of the state, and says that farmers, fruit misers and sheep and stock men are all prosper-ous ous,

W. E. Tribble of Green River, Wyo., is in town and registered at the Wil-son. Mr. Tribble is one of the pro-gressive citizens of a mighty progres-sive town, and brings nothing but en-couraging words from the little east-erg Utah burgh which is so rapidly forging to the front as a modern municipality. "Part of our big dam went out with the high water." said Mr. Tribble today, "but it was only the part that was built to go out; that is to say, three cribs on top of the big dam in the Green river were pur-posely made loose and had they not gone out it would have been necessary to blow out the whole dam, which is W. E. Tribble of Green River, Wyo to blow out the whole dam, which is i,040 feet long. Our dam is all right," said Mr. Tribble, "and we ex-pect some splendid results in irriga-tion from it."

En-sign: 9:48, welcome to Sunday School workers, General Supt. Joseph F. Smith; 10, introduction to the work of the convention. Second Asst. Gen. Supt.

Smith: 10, introduction to the work of the convention, Second Asst. Gen. Supt. David O. McKay; 10:20, announce-ments: 10:30, separation into depart-ments by marching. Afternoon session-1:55, organ music; 2, song by the assembly, "Sowing;" 2:05, prayer; 2:08, solo, Sister Hazel E. Barnes; 2:13, answers to written quos-tions previously submitted; 2:18, intro-duction to "outline" work, Second Asst.

Foul Odor of Indigestion, Smoking, Eating or Drinking Stopped at Once With Stuart's Charcoal Lozenges.

## Trial Package to Prove it Sent Free.

Bilious breathers, onion eaters, indigestion victims, cabbage consumers, smokers, drinkers and those with gas on the stomach are in a class all by themselves, distinguished by a power-

on the stomach are in a class all by themselves, distinguished by a power-ful bad breath. They all breathe, and as they breathe, they whiff out odor which makes those standing near, turn their heads away in disgust. The pitiable part of it is that these victims do not realize what a sickening thing a bad, offensive breath is to others. Charcoal is a wonderful absorber of fasses and odors. It absorbs 100 times its own volume of gas. Stuart's Charcoal Lozenges will put a stop to your bad, offensive breath, and to your belchings, whatever the cause or source, because the charcoal quickly absorbs all noxious, unnatural odors and gases. If you suffer from indigestion and belch gas as a result. Stuart's Char-coal Lozenges will absorb all the gas and make you stop belching. If on getting up in the morning you have such a bad, billous breath, that you can almost smell it yourself. Stuart's Charcoal Lozenges will get rid of it for you quickly. If you have been smoking or chew-ings of hav

coal Lozenges will make your breath pure and sweet. Charcoal is also the best laxative known. You can take a whole boxful and no harm will result. It is a won-

and no harm will result. It is a won-derfully easy regulator. And then, too, if filters your blood, -every particle of poison and impur-ity in your blood is destroyed, and you begin to notice the difference in Your face first thing,-your clear complex-ion.

At McCarty's all this week, 25 E. 2nd So. Wilson Hotel Bldg. Opening dance Saltair, Friday, April 5

Mr. and Mrs. H. E. Lopas of Grand Junction, Colo., are in the city stop-ning at the Wilson. Mrs. Lopas came ping at the Wilson. Mrs. Lopas came in last evening with her daughter, who was on her way to Goldfield. Mr. Lopas was already in the city, with his son, and the family joined at the hotel. "Grand Junction is the center of a great fruit relsing country," said Mr. Lopas today. "Some of the lands with bearing fruit trees bring as high as \$2,000 per acre, which seems a big price, but the value of the crop more than justifies it. Raw land sells for \$300 per acre. The whole country between Graad Junction and Palisede, a distance of 12 miles, is one solid between Graad Junction and Palizade, a distance of 12 miles, is one solid orchard. A peculiar feature connect-ed with fruit growing in that locality is the scheme they have for fighting frost from the buds. Every year the frost comes rather late in the spring, and the trees and their sprout-ing buds must be protected. Frost warnings are sent out in advance, and the weather man gives the signal, the public bells are rung and whistles blown and loads of crude oil, of which there is a plentiful supply in that section, are sent around to the resi-dents. The oil is sprinkled on damp straw, etc., and fired, and a cloud of dense smoke is produced from the thousands of fires thus kindled. The smoke hangs like a pall over the sur-face of the earth, effectually keeping the frost from the fruit trees. No expense is spared by the orchard own-ers in making smoke in frost time.

Larboon of April 22

P. J. Holohan of Twin Falls, Idaho, is registered at the Wilson. "Things are humming out our way," said Mr. Holohan today, "The North Side Land and Water company is going to open up 30,060 acres of land under its new canal at Milner on, the 22nd of April, and great preparations are go-ing on for that event. A townsite is to be opened, a large bank and several business houses for which are aiready contracted, and a regular blowout is expected on that occasion. We are having some politics, too," Mr. Holo-han continued. "It was agreed to nominate a non-partisen city ticket for Twin Falls, and this was done at a convention of all parties held in the Dise therein." a convention of all parties held in the Ring theater. Several spirited contests were had for places on the ticket, but the fights were all made in convention, and everybody agreed to stand by the nominees, whoever they might be. A first class ticket was named, headed by Fred A. Voight for mayor.' . . . William P. Folger of Spokane is at the Wilson. "Spokane is the coming city of the great northwest," said Mr. Folger, "and her growth has been

Folger, "and her growth has been something phenomenal. Ever since the fire in 1888 the people have seem-ed determined to make a great city of Spokane. And there is no reason why they shouldn't. They have the country, the resources and the push necessary to make a great city. The climate of Spokane is so salubrious that most of the millionaire mining men have built their homes there. The schools are unsurpassed, and as a

men have built their homes there. The schools are unsurpassed, and as a home city it is ideal. Spokane is also becoming a railroad center, and lines radiate out into Idaho and Canada; besides having three great transcon-tinental lines centering in the city, namely, the Northern Pacific, Great Northern and the Oregon Hallroad and Navigation company. Spokane is also the northwestern center of the and Navigation company. Spokane is also the northwestern center of the great lumbering industry, and billions of feet of western pine, spruce, fir and larch are shipped from this point monthly. Live commercial organiza-tions are always boosting for Spokane, and she has her 200,000 club. You have a great country here," said Mr. Folger, "but you'll have to hurry to pass Spokane."

pass Spokane." S. C. White of Waterloo, Iowa, ac-companied by his wife and little daughter and Mrs. White's sister, Miss Jessie Kistner, is registered at the Kenyon. The party are on their way to southern California on a pleasure trip. In conversation today Mr. White said he had been in Sait Lake once before, 10 years ago, and that he no-ticed great improvements in the town since that time. In speaking of his home town, Mr. White said he was engaged in the mercantile business in Waterloo, and that the people were generally prosperous in that locality. Asked as to whether there were any indications of panicky conditions in this vicinity, Mr. White said: "Water-too is a city of about 20,004 people. Last year 400 new residences were built in the town, and this year there are contracts made for between 509 and 600. This does not look like re-trenchmient. The Wall street flurry is due to too much water in the stock?" said Mr. White.
