

That no purchase, grant, lease, or conveyance of lands, or of any right or claim thereto, from any Indian nation or tribe of Indians, shall be of any validity in law or equity, unless the same shall be made by treaty or convention, entered pursuant to the constitution. That only the U. S. can make any contract with any Indian nation, or tribe affective, whether by purchase, lease, or otherwise, and the U. S. can do so only by formal agreement, and that the President may employ the military to remove trespassers from the Indian lands. Gen. McCook substantiates the above points by citations from the revised statutes, and declares the U. S. can make agreements respecting Indian lands only with the Indians themselves, and not with third parties, and only with the Indians by agreement ratified by Congress. Notwithstanding positive prohibitions of this law against leasing or conveyance of lands by Indian tribes, substantially all the lands in Indian Territory set apart for exclusive Indian occupation, Gen. McCook says, are in possession of white men, under leases from Indians, who had no power to lease, and with the tacit recognition of the Interior Department (under a former administration) which, he believes had no power to recognize or assent to any such lease, or possession. The spirit of the long and eloquent appeal with which the letter concludes is contained in the following quotation: "Being, as the leases unquestionably are, wholly unauthorized and illegal, as well as imprudent, should there be an instant's hesitation in disposing of them, and in the summary exercise of all the power and authority of the government in dispossessing the holders under them."

SAN FRANCISCO, 5.—The steamer *Oceanic* arrived to-day with Hong Kong, dates to June 9th. Yokohama. The American bark *B. F. Watson*, Captain Hankins from New York with thirty-five thousand cases of kerosene, was caught fire at the latter place May 18th, and burned to the water edge. Cargo fully, ship partly insured.

A fire at Bangkok May 13th destroyed the saw mill of Grassi Bros., and other property estimated at two hundred thousand dollars. There were a number of lives lost. Nine bodies were recovered; more are believed to be burned in the debris.

The steamer *Glamorganshire*, Capt. Williams, while entering the harbor of Kobe, Japan, to complete the loading of a cargo of tea for New York, was struck on the port side by the American ship *Clarissa B. Carver*, abate the bridge, staying in the after compartment, which was filled with water and made it necessary to beach the steamer and discharge her cargo. The *Clarissa B. Carver* sank 35 minutes after the collision.

A conflagration which occurred on the 30th of May at Toyama, Japan, was of exceptional magnitude, destroying 147 houses. No estimate of the loss is given.

CHICAGO, 5.—To-day at the regular Sunday meeting of the Socialists on Lake front, the burden of each speaker's eloquence was the street car employment strike. The crowd was unusually large and the utterances were unusually sanguinary. Second on the list of orators was John Henry. He said he felt that the time had come for all Socialists and others who hated law and order to rise up, burn and kill. "How many of you have guns and pistols?" he demanded, fiercely. "I have," and "I" were the answers from all parts of the crowd.

"Then get them ready," he said with an effort toward deadly significance. "In a few days, perhaps to-morrow, we may want to use them." The speaker pointed out, amid great applause, how himself and his hearers would march down the boulevards and sweep them from the face of the earth. He concluded by naming prominent citizens and capitalists as enemies to mankind, and, with other speakers of the occasion, condemned the strikers on account of their leniency with their opposers.

WINNIPEG, 5.—Big Bear was captured Friday morning near Carleton by Sergeant Smart, of the mounted police. The Chief's son and one of his counsellors were taken at the same time. Big Bear says his band were on the way to Carleton to surrender. They had been some days without provisions. The scouts and Irvine have captured Big Bear's band were captured. The scouts and Irvine have captured Big Bear's band were captured.

SAN FRANCISCO, 5.—The *Call's* sailing, New Mexico special says: Lieutenant Galewood and 80 Indians and scouts arrived last night and left for Bowie this morning. He reports that they have scouted the Mojave, Upper Gila and Black Range and ascertained that there are no hostilities on this side of the Mexican border. They will join the expedition to the Sierra Madre.

The Mikado of Japan has bestowed the ribbon of the third class on D. W. Stevens, who for many years was first secretary of the U. S. Legation at Japan. Later he was secretary of the Japanese legation at Washington. Orders higher than the fourth class are seldom conferred on foreigners by the Mikado.

SAN FRANCISCO, 5.—John Russell Young, ex-United States Minister to China, arrived here to-day by the steamer *Oceanic* from Yokohama. A letter from North Borneo to a government official, dated Sandakar,

May 15th, states that a sudden attack was made upon the North Borneo Commercial Company's expedition to the West coast of Borneo by eight natives at Kaman, May 13th, who killed Dr. Fraser and four East Indians and dangerously wounded the Commander of the expedition, Captain De Fontaine, R. W. Little and seven Sikhs.

MILWAUKEE, 5.—Telegrams received here give incomplete information of a disastrous fire at Stoughton in this State. Early this morning, 10 large tobacco warehouses with about 9,000 cases of tobacco, were totally destroyed. The losses will aggregate nearly, if not quite, \$500,000. The amount of insurance is unknown. Eastern tobacco buyers are the principal losers. Five hundred men are thrown out of employment.

SAN ANTONIO, Tex., 5.—This morning near Weldon, 150 miles west of here, a freight train was struck by a water spout. The engineer saw the spout approaching, bounding along like a rubber ball, tearing up the earth and uprooting all vegetation in its way and he reversed the train to avoid the water spout, its course being tortuous with the column inclined with a rotary motion. Just before the spout reached the line of the road it changed its course and spun along parallel to the track with frightful velocity. When opposite the train the waterspout burst, deluging the engineer, fireman and brakeman, who abandoned the train and climbed some trees to avoid a wave of water eight feet high and 100 feet wide. The locomotive and 14 cars were raised bodily and carried nearly 200 feet from the track while the road bed was completely obliterated. No one was hurt. The extent of damage to the train is not yet ascertained.

CHICAGO, 2:15 p. m.—The street railway company, under the protection of the police, is hourly enlarging its service, and up to this time, without any outward signs of violence. From four to six policemen are to be found on each car, but the number of passengers being carried is increasing. The company put a large number of cars on the Madison Street line at 1:30 o'clock this afternoon, which has been operated without molestation. The police do not allow any great crowds to assemble at any point along the four routes now covered by the cars.

WASHINGTON, 20.—The President today appointed postmasters in eight cities to fill vacancies occurring by expiration of commissions and resignations. Thirty-nine cases for removals were considered, among these twenty-two suspensions were made and in seventeen cases the alleged cause was not deemed sufficient. The suspensions in one or two cases were for personal misconduct and unfitness and others for partisanship.

## FOREIGN.

VIENNA, 2.—Twenty villages were ignited by lightning and burned in the storms of Saturday and Sunday. Six men were killed while trying to extinguish the flames. Great damage was done to the crops by the hurricane. A water-spout flooded Pesth yesterday evening. The Danube swimming baths, full of people, became loosened and floated down the stream. The people were panic-stricken, but were all rescued.

MADRID, 2.—King Alfonso at an early hour this morning left in an ordinary train for Aranjuez, traveling incognito. No person was aware of his intention to make the journey. On arrival at his destination, he visited the hospitals and their cholera-stricken patients. In the meantime, the King's departure became known in Madrid, the Senate and Chamber of Deputies suspended their sittings and proceeded to the railway station, accompanied by the Queen, and in the afternoon welcomed him back. Alighting from the train he received a tremendous ovation from the vast crowd which had assembled. King Alfonso underwent the usual disinfection process at the railway station on his return.

LONDON, 3.—Prince Bismarck, being entirely restored to health, left Kissingen and passed through Berlin on his way to Kroecheindorf, where will take place on Monday next the marriage of his son William.

MADRID, 3.—During the past twelve hours there were 50 new cases of cholera in Valencia, 105 new cases in Aranjuez, and five new cases and one death in Madrid. Throughout Spain yesterday there were 1,254 new cases and 664 deaths.

ROME, 3.—The Pope has received Father Murphy and restored him to the position from which he was suspended for supporting the Parnellites.

BOMBAY, 3.—There has been but a scanty rainfall so far this season. The prospects for good crops is bad in Madras and Bengal, but in the central provinces satisfactory results are looked for.

CAIRO, 3.—General Wolseley will start for England on Tuesday next, on the completion of the railroad from Wady Halfa to Alashish. On the 15th instant, British troops will occupy the latter place.

DUBLIN, 3.—The Catholic Bishops of Ireland, in session in Maynooth College, have protested against the exclusion of Catholics from educational endowments unless they accept the government system of education, which has been condemned by the church. The Bishops call upon members of Parliament from Ireland to seek to have this grievance removed.

VIENNA, 3.—Terrible reports of the devastation by the storm and flood continue to be received from many

parts of Austria and Hungary. The town of Honodenka has been almost destroyed by a conflagration caused by lightning. Many houses were set on fire simultaneously and 600 buildings consumed. Many persons were burned to death and over 500 persons are homeless. The town of Zachowitz, in Bohemia, has been destroyed by flood. At Visnitz, in Galicia, eight persons have been killed by lightning and thousands of trees have been blasted and uprooted. In Hungary, the corn crop on thousands of acres has been ruined. At Csokos, a church filled with worshippers, was struck by lightning. Two of the congregation were killed and 32 wounded.

LONDON, 4.—The result of the Parliamentary elections which took place during the past week to fill the vacancies caused by the change in the ministry, have rather alarmed the Liberals. They were beginning to feel sure of an easy victory in the coming general elections, but the Tories have more than held their own in the special pollings, and have increased their majorities in such hotly contested boroughs as Wakefield and Woodstock. The Liberal's election agents in many provinces send in discouraging reports about the outlook. They say the agricultural voter is falling away from the liberal interest, and that the laborers appear indifferent about taking advantage of the enlarged franchise. These agents further declare that in the most rural regions of England both the agricultural laborers and the workingmen, this year especially, are under the influence or control of the local squires, parsons, farmers and the authorities. This is accounted for by the fact that the times have for a long period past been unusually hard, and that this class of voters are under more than ordinary obligations to their employers and patrons. The squires, parsons, farmers, and local officials are nearly all Conservatives and with bright prospects before them are exerting all their influence to retain the control of Irish political affairs. The Tory managers are locating the polling places in remote districts controlled by the Liberals, in such a way as to make it difficult for the voters to reach the polls. They also issue circulars among the farm laborers, declaring that the character of their ballots will inevitably be known to their employers. The Irish leaders have arranged to throw the Irish vote throughout England in such a way as to help the Tory candidate in all close districts. The Liberal managers throughout the country are frightened.

## APOSTLE JOHN H. SMITH ARRESTED.

CHARGED WITH UNLAWFUL COHABITATION WITH HIS WIVES.

At about half past 9 o'clock this morning, while Apostle John Henry Smith was doing some work in front of his home in the Seventeenth Ward, Deputy Collins approached and arrested him on a charge of unlawful cohabitation. The complaint on which the warrant of arrest was issued was sworn to by Marshal Ireland, and alleges that the defendant did, between the first day of August, 1882, and the first day of June, 1885, in Salt Lake County, Utah Territory, unlawfully cohabit with Sarah Farr Smith and Josephine Groesbeck as his wives. Mrs. Sarah F. Smith, Jos. Groesbeck, Mrs. John Morgan, Geo. A. Smith and Mrs. Jane Doe, (Miss Arnold) had been subpoenaed to appear as witnesses, and the preliminary examination before Commissioner McKay began at 10 o'clock.

Joseph Groesbeck, brother of Josephine, was called and testified that he had known defendant for about eight years; his sister Josephine lived at home in the Seventeenth Ward, and had done so as long as he could remember, which was about eighteen years; she had three children, the eldest, Sarah, being five or six years of age; the child was sometimes called by the surname Smith; the youngest child was about seven months old; did not know who its father was, but defendant was reputed to be; had seen defendant at the house and take meals with the children occasionally; the occupants of the house were witness, his sister Josephine and her children, ann Miss Arnold; the defendant had never stayed at the house at night.

Miss Sarah Arnold knew Josephine Groesbeck and also defendant; did not know who provided for the family; the children were called Smith; had seen defendant at the house three or four times; did not know how often, but not oftener than once in a week; took his meals there occasionally; had not seen him there either in the morning or evening; he did not stop there at night.

George A. Smith, son of the defendant was called. His mother was Sarah Farr Smith; she lived at home; witness lived there too, but had been away most of the time during the past three years; had been home the past few months; his mother had five children, the youngest a year or two old; his father lived at home; had seen him there, though he had been out of the country for some time; did not know how long; defendant returned home a couple of months ago; witness did not think his mother had been absent with his father, but did not know, as he had been attending school at Provo for the last three years; knew Josephine Groesbeck; did not know whether she had been away or not; during the time witness had been at home his father was there, except when he was out attending to his business.

At the request of the District Attorney, the examination was continued until 4 o'clock this afternoon, to enable the prosecution to find more witnesses, and the defendant was released in \$1,500 bonds, Hugh Anderson and Samuel A. Meritt becoming sureties.

## Castor Oil.

One of the chief uses to which castor oil is now put is that of dressing and softening leather for boots. It was formerly used for dosing children whose stomachs were disordered. And an awful dose it was. Now we give suffering children Brown's Iron Bitters, which tones the stomach, regulates digestion and imparts strength to the whole body. Brown's Iron Bitters is incomparably better than castor oil, and more pleasant to take.
