

## SWEDEN AND NORWAY MAY CRY QUILTS

King's Veto of the Separate Consular Law Created a Great Sensation

### A DISSOLUTION OF THE UNION.

It is Possible and International Complications May Perhaps Follow.

Christiania, May 28.—King Oscar's veto of the separate consular law created a great sensation as possibly involving a dissolution of the union between Sweden and Norway and perhaps even international complications may arise through the king's decision.

The king's decision was given in the Norwegian council sitting at Stockholm. Each member of the cabinet indignantly urged the king to sanction the consular law. When they all had spoken, King Oscar read a declaration of the dissolution of the union. The crown prince on April 2, that the matter was solvable only by mutual negotiations. He added that he could not give his consent to the law because the existing consular service could not be abolished without mutual agreement. The existing arrangement, he said, was established by a resolution of the mixed council and his love for both peoples impelled him to withhold his sanction.

The members of the cabinet urgently protested that his majesty's decision

## Ladies Only.

It Is Women Who Need Most Relief From Little Irritating Pains and Aches.

Dr. Miles' Anti-Pain Pills are for women. Woman's delicate nervous organism is the least fertile influence, and some ache or pain is the result.

The remedy is at hand—Dr. Miles' Anti-Pain Pills.

They act most marvelously on woman's nervous organism, and relieve and cure the pains to which she is a martyr. Headaches, neuralgias, pains, monthly pains, and all kinds of pains disappear, as if a gentle hand had lightly soothed them away. Dizziness, Rush of Blood to the head, Toothache, Backache are all cured by these "Little Comforters."

Cured without danger of disagreeable after-effects; cured quickly; cured without unnatural action on liver, stomach, or other internal organs.

Dr. Miles' Anti-Pain Pills please the women, and the children take them because they are easy to take and soothe all their sufferings.

For years I suffered with sick headaches, at times suffering untold agonies, could not endure any excitement, and was a nervous wreck. I was brought on these terrible spells, I tried numerous remedies without relief until I tried Dr. Miles' Anti-Pain Pills, and they have cured me. When I feel symptoms of sick headache, I take a pill and I get the attack. When I am tired and nervous, a pill soothes me. —MRS. SARAH WATKINSON, Hialeah, Fla. Price, 25¢ a box. Never sold in bulk.

**FREE** Write to us for Free Trial Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Pain. Also send us your name, and we will diagnose your case, tell you what is wrong, and how to right it. You will be surprised at the results. Write to Dr. Miles Medical Co., LABORATORIES, ELKHART, IND.

was not only the rejection of a pressing demand by the whole of the Norwegian people, but drawn up as it was in disregard of the cabinet's unanimous advice and without the advice of the king, it was a breach of the constitution and a violation of the constitutional rights, independence and sovereignty of Norway and would mean dissolution of the union.

No member of the Norwegian government, they said, could counteract such a decision without from that moment losing his fatherland.

The members of the cabinet having presented their resignations, King Oscar read his reply, declaring that he could not accept them as it was clear that no other cabinet could be formed at the present time. The ministers, however, declined to withdraw their resignations. They had beforehand agreed to the king to defer action on the matter until it could be dealt with in the full council at Christiania, but the king had announced his liability to accept them.

The king's veto of the law therefore is constitutionally non-existent. The Norwegian newspapers commenting on the situation, declare that the king's decision shows that Norway no longer has a sovereign willing to follow the country's advice, but that this fact will draw the Norwegian people yet closer together in strength and unanimity.

### AMERICAN STEEL RAILS CHEAPER ABROAD THAN AT HOME

Washington, May 28.—In view of the published policy of the isthmian canal commission to buy in the cheapest market there have been a great many inquiries as to the price of steel rails, one of the principal articles of supply which figured in the commission's decision.

Col. Edwards, administrative officer of the canal commission, addressed an inquiry to Secy. Drake of the Panama Railroad company, intended to elicit information on this point. He received a reply which in substance is that the price for steel rails in the United States for the past 12 months has been uniform at \$28 per ton, while in foreign markets the price was \$24 per ton. The exceptions were where rails were sold in the United States for export, when the prices were established by direct negotiations and were matters of private record. The Panama Railroad company convinced the manufacturers that its rails were purchased for export to foreign territory (which Mr. Drake says it is), and was able to get in June last 70-pound rails for \$22.75 per ton, and 60-pound rails for \$22.50 per ton. Last January it bought 1,200 tons at \$20 for first class and \$24 for second class, and more recently purchased 1,500 tons for canal construction at \$25 for the railroad at \$24.45, all three contracts being made in competition with foreign manufacturers, whose list price was \$28 f. o. b. at New York, or \$27.25 c. l. f. at Colon, exclusive of wharf and port charges.

### Four New Openings in Vesuvius.

Naples, May 28.—The eruption of Mount Vesuvius continues, the volcano showing four new openings through which lava flows, while the immediate surrounding country is covered with ashes. The funicular railroad has been compelled to cease running.

### Religious Revival in New York.

New York, May 28.—The first of the great mass meetings planned by ministers now working to inaugurate a religious revival in this city has been held in the academy of music. The big theater was about two-thirds filled. Unique methods were used to gather a crowd. A dozen automobiles, ten of them furnished by a woman deeply interested in the revival movement, invaded the main thoroughfares and streets in the vicinity. Reinforced by music, speakers in the automobiles told of the meeting and besought all to attend.

### William Bedlow Crosby Dead.

New York, May 28.—William Bedlow Crosby, one of the oldest lawyers in New York, and who was a paymaster in the navy during the civil war and consul general to Rome under President Grant in 1872, is dead from heart disease at Dobbs Ferry. His maternal grandfather was Benjamin Franklin Butler, attorney general of the United States under President Van Buren.

### Society of Friends.

New York, May 28.—The religious society of Friends is holding its 123rd meeting at the Madison House, 1100 and 1102 Fifth Avenue and 1104 and 1106 Fifth Avenue. Friends from many nearby places and far away cities are in attendance, only a few of the attendees wearing the picturesque, simple dress of the old-time Quakers. Sunday was devoted to worship, there being five gatherings during the day.

### CIVIL SERVICE EXAMS.

Several Good Positions Under Government to Competition June 21.

There will be civil service examinations in this city June 21, for the position of assistant, office of seed and plant introduction, department of agriculture, salary \$1,800; also for position of lead burner, United States mint service, at Denver, at \$4.25 per day; and for those positions in the United States mint and assay service at Denver: Three engineers, \$5.50 to \$14.25 per day; seven firemen, \$3.50 per annum; two electricians, \$3.50 to \$4.25 per day; one adjuster of scales, \$4.25 per day; four assistants assay department, \$3.50 to \$5 per day. July 15, for the position of editorial and statistical assistant, bureau of the census, \$900 to \$1,200 per annum.

### MRS. WARDROP DEAD.

Well Known Resident of Twentieth Ward is Called Home.

After an illness of over nine months, Mrs. Isabella A. Wardrop died this morning at 7 o'clock at her home in the Twentieth ward. The deceased was born in Nauvoo, Ill., March 19, 1846, and came to Utah on a child in 1859. She resided in the Thirtieth ward for many years and the rest of her life was spent in the Twentieth ward, where she has scores of friends. During her sickness she was always cheerful and patient and very considerate of those around her.

Mrs. Wardrop was the daughter of Lucy McIntosh and John Wardrop. Two children survive her, viz: Isabella and Douglas.

The funeral will be held Wednesday afternoon at 2 o'clock in the Twentieth ward assembly rooms.

### DEMAND FACTS.

About What You Eat

When it comes to food, demand to know the facts about what goes into your stomach.

Not only that it is pure but that you are not deceived in the description of its contents and condition. Some flaked breakfast foods that have thus far failed, are now being advertised in close imitation of the Grape-Nuts and advertising, thinking in that way to finally make a success of the failure.

But false statements of the merits of human food will never on earth build up a business. These flaked foods are not pre-digested. They are not fully cooked and the starch in them is starch still and has not been turned to sugar as claimed.

Chemical analysis tells the truth and the analysis of the famous chemists of the world show Grape-Nuts the only prepared breakfast food in which the starch part of the wheat and barley has been transformed into sugar and then ready for immediate digestion. Why is this true? All the thin rolled flake foods are made by soaking the grains of wheat or oats in water, then rolling, drying and packing. These operations do not cook or pre-digest the starch.

Contrasted with this pretense, observe the care, method and skill in making Grape-Nuts.

The barley is soaked about one hundred hours, then it is slowly warmed for some days and spread on a large base being developed and part of the starch turned to sugar, and later on all of it, then the grains are baked and the sprouts stirred off, and the grain is ground, sifted and mixed with the creamy colored flour made from white and macaroni wheat. This mixture must be skillfully made in right proportions. This blended flour contains just the ingredients demanded by nature to rebuild the soft gray substance in the nerve centers and brain, but how to make the food easy to digest, that was the question.

It certainly would not do to mix in drugs, for there is a certain failure sure to come to the person depending on drugs to digest food. They may do for a temporary expedient, but pure food and digestible food is the only final resort and safe way. So to change the remaining starch part and prepare the other elements in this blended flour it is made up into massive loaves like bread, the inside being dark cream colored and quite sticky to the touch. These loaves are sliced and again go through long cooking at certain temperatures. Then the rock-hard slices are each one carefully inspected and ground ready for packing and use, having gone through 19 or 20 hours in the different operations.

When finished, each little granule will show a sparkling glassy surface. A magnifying glass will bring it out clearer and develop little pieces of pure dextrose sugar, not put on or poured over, (as the hand of a large Sanitarium once stated in its paper, thus exposing its appalling ignorance of food processes) but this sugar exudes from the interior of each as the starch is slowly turned to sugar in the process of manufacture. This kind of sugar is exactly like what is found in the human intestine, provided the starch of the grains, rice, bread, rice, cake, etc., has been perfectly digested. But many are weak in that form of digestion and yet need the starch, so Grape-Nuts supply them pre-digested and ready to go quickly into the blood.

Visitors are shown freely through the works and can follow the steps of making Grape-Nuts from the grain to the finished product. The proportions of different kinds of flour, and the temperatures are not disclosed, and it seems impossible for others to steal these secrets of the makers. But purity, cleanliness and skill are shown in every corner of the immense pure food factories. People who take for granted that they are getting food from choicely selected food, those who want the food to rebuild the soft gray substance in brain and nerves that give the go, the vigor, the life, will understand why the makers who try to copy the announcements about Grape-Nuts have failed in the past. There's a reason for Grape-Nuts and a profound one.

## AUSTRO-HUNGARIAN POLITICAL SITUATION

It Has Become Really Serious, Reaching an Acute Stage That Is Threatening

### CROWN IS VERY AGGRESSIVE.

Affairs Have Not Been So Bad Since 1807—A Revolution Is Not Impossible.

Vienna, May 28.—The political situation in Hungary has passed within the last few days from the passive stage of recent months into a comparatively acute stage that is threatening really serious consequences. Count Tisa, it is said, will be removed from the premiership next week and in his stead will be appointed, if he can form a cabinet, Gen. Baron Fejervary, formerly Hungarian minister of national defense, which office he had to resign because of great unpopularity arising from his extreme partisanship to the crown in matters within his jurisdiction.

The rights guaranteed Hungarians under their constitution, leading many of that country, are upon the eve of being threatened by the crown's action, and the Hungarians are preparing to contest these infringements in a manner which holds the possibility of bringing serious results to the mutual life of the dual monarchy.

The possibilities with which the political situation is pregnant, may lead to a state of affairs meaning practically revolution, especially as Baron Fejervary is thought to be a man who will carry out the crown's wishes irrespective of Hungarian national demands. The situation has not been so threatening as it is today since peace was established between Austria and Hungary in 1867.

The struggle in Hungary today can fairly be called in its broader outlines an energetic affirmation of popular rights against the undue prevalence of the royal prerogative. In the development of the Hungarian political situation, the rights guaranteed by the constitution which the king is sworn to respect and which dates back a thousand years, consecrated by the blood of countless thousands of Hungarians, are being threatened.

The country is thoroughly aroused with a view to protecting its most sacred institution against army assault. The Fejervary ministry would be colorless and neutral and composed of members of the minority, would be unconstitutional, unlawful and unpatriotic and be sharply attacked by the opposition. It is pointed out, would also be unconstitutional.

The Hungarians are in no spirit to accept such procedure. Among the measures which the Hungarians declare they will employ in defense of their constitutional rights are the refusal to pay taxes, which cannot be legally collected before the house of deputies passes the budget, the refusal to grant recruits and the refusal of Hungary of its pro-rata contribution to the expenses of the dual monarchy.

In a short time, Hungary will open the demands of the state in every possible way. Throughout the entire country it is becoming increasingly evident that the dual monarchy will not allow itself to be pushed aside and the Hungarian counties are beginning to petition the house to preserve the integrity of the constitution with all the means at its command.

The Hungarians are now threatening every man who may accept a post in the Fejervary ministry with death.

### Exposure.

To sell draughts, to keep and cutting winds, sudden changes of temperature, scanty clothing, undue exposure of the head and neck, public speaking and singing, bring on coughs and colds. Ballard's Horehound Syrup is the best cough medicine.

Mrs. A. Barr, Houston, Texas, writes, Jan. 13, 1905: "One bottle of Ballard's Horehound Syrup cured my cough. It is very pleasant to take. I feel like a new man. Sold by Z. C. M. I. Drug Dept."

## Nine Nations

Now Use Liquezone. Won't You Try It—Free?

Millions of people, of nine different nations, are constant users of Liquezone. Some are using it to get well; some to keep well. Some to cure germ diseases, some as a tonic. No medicine was ever so widely employed. These users are everywhere: your neighbors and friends are among them. And half the people you meet—wherever you are—know someone whom Liquezone has cured.

If you need help, please ask some of these users what Liquezone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Liquezone; then let us buy you a full-size bottle to try.

### We Paid \$100,000

For the American right to Liquezone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of difficult cases, that Liquezone destroys the cause of any germ disease.

Liquezone has, for more than 20 years been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 11 days' time. The result is a liquid that does what oxygen does, it is a nerve food and blood food, the most helpful thing in the world to the system which is exhibiting, vomiting, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$100 for a disease

germ that it cannot kill. The reason is that germs are vegetables; and Liquezone—like excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquezone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison and it cannot be used internally. Every physician knows that medicine is almost helpless in any germ disease.

### Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma, Abcesses—Anemias, Kidney Diseases, Bronchitis, La Grippe, Leucorrhea, Malaria—Neuralgia, Bowel Troubles, Migraine, Neuritis, Nerve Heart Troubles, Coughs—Colds, Pleurisy—Quincy, Consumption, Rheumatism, Colic—Cramp, Catarrh—Cancer, Venereal—Diarrhea, Dysentery, Throat Troubles, Eczema—Erysipelas, Stomach Troubles, Gonorrhea—Gonorrhea, Tuberculosis, Gout—Great, Tumors—Ulcers, Hay Fever—Influenza, Variocole, Women's Diseases.

All diseases that begin with fever—all inflammation—all catarrh—all contagious

diseases—all the results of impure or poisoned blood.

In nervous debility, Liquezone acts as a stimulant, accomplishing what no drugs can do.

### 50c Bottle Free.

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you, to show you what Liquezone is, and what it can do. In justice to yourself, please accept it today, for it places you under no obligation whatever. Liquezone costs 50c and \$1.

### CUT OUT THIS COUPON.

For this offer may not appear again. Fill out the blanks and mail it to: The Liquezone Company, 88-61 Valhalla Ave., Chicago. My disease is \_\_\_\_\_ I have never tried Liquezone before. I will take it \_\_\_\_\_ 50c. Give full address—write plainly.

Any physician or hospital not yet using Liquezone will be gladly supplied for a test.
