IMPORTANT CASES CALLED.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is central by location, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making East connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburgh, Fort Wayne & Chicago, Kanakake Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets on the Old Pioneer Route—

The Chicago and North-Western. You will find on all through trains Pullman sleeping, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stenard, General Passenger Agent, Chicago.

EVENING NEWS

Saturday, January 8, 1876.

Local and Other Matters.

Thermometer 37 degrees F. in the shade at 1 p.m. to-day. Threatening storm.

A Change.—This morning was fine, mild and beautiful, but the afternoon brought a threatening snow storm.

Very Mild.—A communication to us from Chicago, dated Jan. 1st, states that the mercury in that city on that date was 70 deg. above zero. Very mild, we might say warm.

Interesting.—On the fourth page of to-day's NEWS will be found a very interesting communication from Elder Miles P. Romney, relative to the missionary labors of himself and Elder M. H. McAllister, in Wisconsin.

Snow Storm.—Shortly after one o'clock this afternoon a very heavy snow storm set in. The feathery flakes were unusually large, some of them being, we should judge, about two inches in diameter.

A Mistake of a Hundred Yards.—We are requested to say that the statement of a city contemporary that the petitions of 23,000 ladies of Utah for a State government, etc., was "177 yards long, is incorrect, and should be "177" yards long.

Ferocious.—To-day John Buckley was fined \$50 for assaulting and beating another man and exercising his carterious propensities on the unfortunate individual's thumb, by inserting his molars in it.

Handel and Haydn Society.—We are requested to announce that a meeting of the Handel and Haydn Society will be held in the University Building on Monday evening, at 7:30, when a full attendance of the members is requested.

Sick.—The numerous friends of Father James Turnbull, of the 11th Ward, who reached his 84th year last Thursday, will regret to learn of his continued illness. He was taken with a severe cold and cough about three weeks ago, and has been confined to his bed ever since.

The Statistician for December completes the second volume of this useful monthly. It contains 120 pages, filled with statistical information, useful to the dwellers in the Pacific States and Territories. John P. Mains, compiler. L. P. McCarthy, publisher, 123 Washington Street, San Francisco.

Can't Do Without It.—A lady came into our office the other day and paid for the NEWS in advance. She declared that if she could not subscribe for the NEWS, without limiting herself to two meals a day, she would do so, and take the NEWS for her third meal.

Theatre.—The Theatre is open this evening, being the first night of the Salt Lake Dramatic Combination. They will present a very attractive programme, consisting of the beautiful drama of "The Outcast" and the farce of the "Area Belle."

Next performance on Wednesday evening.

Accident.—To-day, while William Hilton, in the employ of the supervisor of streets, was handling some water-pipes, one of them, weighing about 500 pounds, fell from a height of over four feet, the bell end striking his foot upon the instep, crushing it severely and tearing the upper of the foot clear off. The injury will be likely to disable him for a considerable time.

Stealing Blankets.—Leo Gohn, a young fellow who appears to have a desire to keep warm at the expense of somebody else, was before Justice Pyper to-day, on a charge of stealing blankets, which was sustained, and he was fined \$25, which he will probably pay in prison. Though young in years, he is old in offenses against the law, having had a limited conception of the principles of *meum and tuum*.

For San Francisco.—Messrs. Blumhardt Brothers, the well known dry goods merchants, having closed out their business in this city, leave to-morrow morning for San Francisco, where they purpose settling up in the wholesale line. They will visit Salt Lake, occasionally, on business in future. They have made numerous friends by their unobtrusive, gentlemanly course during the few years they have sojourned in this locality.

Preparatory.—Marshall McAllister is having the Representatives' Hall, City Hall building, prepared for the session of the Legislature, which commences on Monday. The floor was being covered to-day with a new carpet, manufactured at the Provo Woolen factory, the first article of the kind, other than hand-loom production, that we have seen of Utah manufacture, and it is a very creditable commencement in the line of carpet weaving by water power machinery. The Provo factory is a progressive establishment.

The Van Valkenburg Case.—Last evening deputy Sheriff Florida, of this county, arrived in this city from Christian County, Illinois, with William B. Kelley, indicted for participation in the murder of Peter Van Valkenburg. The relatives and friends of the deceased, who reside in Montgomery County, adjoining Christian County, made powerful efforts to prevent his being brought to Utah. Mr. Florida states that he received valuable aid

in countering these efforts, from Mr. John D. Ricks, cousin to Col. Thos. E. Ricks, of Logan, and clerk of the District in the part of Illinois where he resides.

Correspondence.

On the Brazos River Well Received—

NEAR KIMBALL, TEXAS, Dec. 21, 1875.

Elder Angus M. Cannon.

Dear Brother,—We landed in Dallas in four days, wanting two hours, from home. Myself and wife and ather mother, about seventy miles south-west from Dallas. We are on the Brazos river, about 170 miles above where I lived when I received the gospel, and from which place (Fort Sullivan) I left for Utah twenty-one years ago next March.

This is a beautiful and productive country and has the appearance of being healthy, the greatest object being to change the sudden and great changes in winter. Last Saturday morning it was so cold that I saw pools of water frozen over, and the last two days with this morning have been very warm. But the people here warn us that we shall see it cold enough before Spring puts forth its great foliage. My wife and I have lived in this country and two of them in eight. They all own land on or near the river, one, the youngest, is merchandising in Kimball, this is distant. The kindred and people around have treated us very kindly. Some of them believe the gospel, and several of them intend to take opportunity to do so, but some are little tender footed from, as I think, worldly considerations.

My health has much improved lately, though last Sunday, when I started to go to Brook's School-house to fill an appointment, I felt very unwell from recent exertion, and would have gladly been excused, but being our first appointment in the neighborhood, I felt bound to go, and myself and Elder Dixon H. Greer each spoke to a very respectable and attentive congregation, among whom were two Baptist preachers.

The Sunday previous we held a meeting at the house of Thos. L. Greer, some twenty miles west of this. There was a crowded house of seemingly fair intelligence and very attentive, and after meeting a number remained to talk with us and seemed much interested among them Col. Berry, a prominent man of the county, his wife and three children, a school man, and a few others.

We have baptized none yet, but are told there are some who wish to be baptized before we leave here. I expect to make the neighborhood headquarters, and Kimball my postoffice, but I want to travel some in Hamilton, Travis and Bell counties, if my health and the weather will permit. I have much hopes that, by the help of God, our Father, we shall be enabled to do some good. We feel first. Some of our friends have some fears of opposition, although they have merely hinted such fears, but I feel right, feel that I am in the line of my duty, and I realize that God is with us. Then what is there to fear? We have borne a strong testimony to several hundred of the people of Bosque county, a testimony that some will never be able to get rid of, or forget, and I hope the seeds sown will bring forth some fruit ere long.

I find here several families baptized by Elder Fredrick Thomas and others, mostly feeling well. They treat us kindly. I have thought it might be best to organize them and instruct them to hold their meetings regularly, meet weekly for worship and instruction, and to commemorate the death of our Lord and Savior Jesus Christ.

I have not heard from Bro. Perry, Alpha, or Box, since we arrived here. Bro. Box traveled with us to Revere and stopped at his place a few miles beyond Dallas, to see his uncle, and I have not heard from him since. I wrote a short article on marriage for the Dallas Herald last week, my object mainly being to let the brethren know where I was.

I can't help wishing there were twenty or thirty active efficient Elders in this State, if only for the winter. Think of a State 500 miles more in length, and not a half dozen Elders to labor in this vast region, and then not an experienced proclaimer of the Gospel in that small number, but I remember the Lord will do his work in his own way, and within his own time.

A Visit to the Fireman's Hall.

SALT LAKE CITY, January 7, 1876.

Editor Deseret News:

While traveling through your city last evening, seeking for something to break the monotony of mud and water, which are so abundant at the present time, I wandered in the vicinity of the City Hall. While there I heard strains of music which tempted me to go a little nearer to where I thought the music had ceased. I was invited to look around by a person who was sitting by the stove. I embraced the opportunity, and while looking around at the engine and apparatus, the choir struck up again. I ventured to speak with the person who was playing, and was informed that he was a member of the Fireman's Mutual Improvement Association. I asked if there was any objection to my going up stairs. The gentleman said, not that he knew of. So I went up and was kindly invited by the gentleman at the door. The first thing that met my view was the word "Welcome" on the wall, nearly done with evergreen. Every one seemed so sociable and friendly, I felt so too. Next I noticed in evergreens, "A Merry Christmas," next were the words, "United We Stand," over a great sized engraving of President Brigham Young; further around was "A Happy New Year" to all Firemen and Friends. In addition to the wall was a large banner, on which firemen are represented at work, showing the life of a fireman to good effect. Judge my surprise when told that it was a home production, and that by a fellow-fireman, G. W. Oakes.

The chairman announced that the next exercise in order was a speech from a young man. The latter, in rising, said that it was his first attempt at public speaking. I thought that he did very well. Next was a recitation by another young member of the society, called "The Fireman's Hall," which was rendered with good effect. The next exercise in order was a speech from a young man. I felt well repaid for my accidental visit to the Fireman's Hall, and would say to the President and those associated with him, keep on you have a good work before you in adding to reform the youth and instilling into their minds correct principles, which they will reflect upon with pleasure in later life.

Our Country Contemporaries.

Ogden Junction, Jan. 7.

Dr. Cannon has been attending on a young man named Parish, at Willard, who was thrown from a horse on New Year's Day, and now lies at Mr. Parsons' house in a dangerous condition from concussion of the brain.

The Captain of Police went to Salt Lake last evening with Reuce, who, in default of \$1,000 bail, was committed to await the action of the grand jury for robbery. The prisoner is taken care of, if there is a place that will hold him.
