LIGHT CROPS.

The weather here continues very warm and dry. The first crop of lucern is harvested, a great deal of it is very light, for the want of moisture, and if we do not get rain before long there will be no second crop in many places, and the grain crop will be under the average. Our woolgrowers have been samewhat

disappointed in not getting the price for wool as they had expected and even some have been glad to receive consider. able less than what they had first been offered.

Eureka, June 24.—Mike Harrington, a miner employed at the Centennial-Eureka mine, met with a painful acci-dent, about 7 o'clock this evening. While at work on the 300-foot level at the mine, a plank that he was standing on gave way, and he fell a distance of eight feet, striking on his head on some rocks. While the wound is not considered serious, he received a very bad cut on his head, and complains of a severe pain in his neck. Mr. Harrington is a man of about 200 pounds, and such a fall would give him quite a shock.

progress. Plenty of water yet .--L. Lewis. Emery, Emery Co .- Partly cloudy and very warm all week. Crops are grow-ing rapidly. Lucern is in bloom and some of it on high lands has been cut. The water is lowering rapidly and a good rain would be very beneficial.-

Moab, Grand Co .- Apricots are ripe and string beans were ready for use on the 22nd. Lucern meadows are being irrigated for the second crop which renders water scarce for gardens, orchards and vineyads.-Heny Crouse. Elgin, Grand Co.-The week has been extremely warm. Grain is heading and vegetables are plentiful. All crops are looking well. The first crop of lucern is in the stack; the yield was very heavy. Plenty of water for irrigation. --A. D. Farnsworth.

Greenville, Beaver Co .- The week has been hot and dry with some cloudiness the latter part. Crops which have plenty of water are making fine growth. Water is getting rather scarce and the ground requiries more than us-ual this season.—S. R. Barton.

Minersville, Beaver Co.-The week has been hot and dry, Lucern is being cut and hauled; the yield is better than last year but not up to the average. Feed on the range is drying up.-Wm. Wood

Circleville, Plute Co .- The week has been quite warm and water is getting scarce. First crop of lucern is coming into bloom and some has been cut. Grain is looking well and promises a good grop if the water holds out .- H. A. Chaffin

Greenwich, Plute Co .- First part of week was very hot. The water in the reservoir and the creeks is getting very low. Wild hay will make only half a grop. Meadows are very dry. Bye is looking well. The range is getting very dry.-Jasper Williams.

Torrey, Wayne Co .- Very warm and everything is growing rapidly. First cutting of lucern begun. The water supply, though yet good, has begun to shorten. The upper range is good but the lower range is getting very dry. -H. W.

Teasdale, Wayne Co.-Warm and dry. All crops are doing well. Lucern has commenced to bloom.-R. C. Naser. Cedar City, Iron Co.-Irrigated crops are growing rapidly. Lucern is being

-Wayland Bailey. cut.-Coyoto, Garfield Co.-An ideal grow-ing week. Wheat is in the boot and

oats are spreading nicely. Potatoes look well. Lucern is very heavy and two weeks earlier than usual. Haying has begun. Water is getting low but there is still plenty for irrigation pur-poses.—H. J. McCullough.
