At the publishing house where my friend was i learned that a house dec-orator had telephoned down for a man to go to a house which was being new-ly decorated and turnished, to unpack and arrange in the new bookcases 5,000 books according to cambridge to any books according to catalogue. No man was at liberty, so I had been sent ion, I went at once to the decorator's, He was out, out I might talk to him by telephone. I did.

my new occupation. The library was full of packing boxes. The bodge was full of workmen. I got a hammer and

but a subject scheme for the arrange-ment of them. In eleven days they were all arranged, but J had worked almest breathlessly. The work was hard, but I love books and I enjoyed it, especially as it noticed nie \$45, and best of all meant more work. One thing led to another. The work varied greatly; sometimes it tested all my intellectual powers, sometimes it test-

'For three months I carned \$130 per month, but it meant work from early morning till late night.

"I packed books, unpacked books, arranged and catalogued books, substituted in a library, and bought books for The most interesting experience I had was a search for a book. The owner of one of the private libraries which I had arranged had read a book when he was a little boy. All he remembered about it was the names of two of its herces, I found it for him, a second-hand copy, the book had been out of print for

college I had as a pastime looked in-to library methods and systems, or I could not so readily have done many things I was asked to do. I was, however, offered a place which I had long been desiring, and so left my book work and went again into a regular place. There must be many a place of similar work waiting for some wo-man's hand."

WILLIAM COLLIER

In Augustus Thomas's Phenomenally Successful Comedy, coat goods find ready purchasers, while prices on some lines just opened are about 5 per cent higher than last sea-son. Wool is strong and tending up-ward, with a good demand not only from wills and deplacement of the second "ON THE QUIET" from mills and dealers, but on specula tive account. Stocks are closing the year in much better condition than at the start, exceptional consumption hav-ing made large inroads. Footwear

. . . A prominent bank official in conversation with a "News" reporter yester-day, said, "The demand for money

keeps ahead of the supply, and although there is no actual tightness, money is scarcer than for a long time past. People who ascribe the present

condition to the payment of taxes, real-

ble. The tax money or a great part of it, remains at home, and is simply diverted from one set of hands to anoth-People do not think, however, that

Park City Shipments. The following are the shipments from

the Mackintosh campler during the past week:

MINING NOTES.

The receipt of two ears from Tintic is reported from the Conklin sampler.

Superintendent J. W. McChrystal of the Godiva is in from that Tintic prop-erty for a few days.

Ore and bullion settlements in this efty yesterday amounted to \$53,900, T. R. Jonez & Co., \$42,100; McCornick & It was stated today by W. F. Snyder

that the three-compartment shaft at the Honorlae has been sunk 90 feet durhig the present month.

Walter G. Filer, Grant Snyder and P. r. Farnsworth, Jr., have gone to Ne-vada to visit the New Pass Gold Minng company's properties. They will teturn some time next week.

The Taylor and Brunton, sampler management reports the receipt this morning of two cars of ore from Sliver City, one from Eureka Hill, five from Tintic; one from Stockton and nine from Cubic Hill

has enjoyed for the last year, means sending out of the state an enormous amount of money, Lumber, nails, glass, paint and nearly everything else that enters into the construction of buildings, except stone and brick, has to be bought away from here. Then, as soon

as the houses are finished, they have to be furnished and this, too, sends an enormous sum out of the state. Add to these two factors the interest on city, county, school and state bonds, nearly all of which goes to the outside, and you can see why money has tightened up. What makes easy money is factories like those of the sugar companies, that keep our funds at home, and bring in money from the outside. The more of such institutions we can have, the easier our money markets will always be."

The following dividends have been paid or will be paid by the institutions named during December:

Utah Sugar Co., 3 per cent......\$45,000 Co-op. W. & M. Co., 2 per cent. 8,000 Heber J. Grant & Co., 2 per cent 2,000 Salt Lake Theater, 14 per cent., 1,250 Deseret Nat'l Bank, 5 per cent., 25,000 The following will pay during January

Home Fire, 2 per cent\$ 5,000 State Bank, 2 per cent 5,000 Deseret Sav'gs Bank, 2 per cent 2,000 5,000 Zion's Savings Bank, 2 per cent., 4,009 Commercial National, 3 per cent 6,000 Nat'l B'k of Republic. 3 per cent R. M. Bell Tel Co., 1½ per cent., 15,625 F'st Nat'l B'k of Ogden 3 per cent 4,509 The general expectation is that the Deseret Savings bank wil either increase its regular dividends to 10 per

cent or pay a special, which is the reason for the big jump the stock has made in recent months.

Manager Campbell of the Utah Light and Power company stated this morning, that with the coming of spring, his company would be prepared to take the initial steps in the matter of the proposed great dam in Ogden canyon, as it is pretty well settled that this great improvement will be made. This dam will hold back five miles of water go that ir addition to its value for frf-

gating - d power, the lake can be utilized as a pleasure resort and boating regattas he held there. This will be a plum for the Ogden rowing men, and draw many people to the new aquatic racing grounds.

Insurance Surveyor Parkhurst has aken up the matter of the insurance dituation in this city while in San Francisco, and on his roturn will push with the City Council, with a view increasing the local means of protertion against fire. Insurance men say that unless the city does something in the line suggested by the surveyor and underwriters, the rates of insurance in

this city will surely go up. The Z. C. M. 1. closes next Thursday to take account of stock.

The abandoned condition of the south side of west Second South street between First and Fourth West streets is the cause of strong talk on the part of many teamsters obliged to use the street.

gone so far" in their work and then aken a lay off, allowing the street to ake care of itself until open and pleasant weather returns again.

Of sixty cities whose bank clearings or the week ending Dec. 26 are report-d today in Bradstreet's, Sait Lake City stands twenty-eighth, with clearings aggregating \$3,373,585. This beats Los Angeles, whose clearings amounted to \$3,220,601; also Washington City, whose

figures were \$2.503,545. The total fig-ure for the entire column of cities is \$1,840,626,446. Sixteen cities show a dight decrease from the corresponding week of the previous year.

Some real estate dealers say that houses to rent may now be had with-out difficulty, and that rents are about to take something of a tumble. They have been so high that building small houses has been greatly stimulated, and new houses are no longer rented before

General Account Maintained a Strong Tone, but Demand Was Fed

By Realizing Sales.

New York, Dec. 28 .- All but a few stocks made gains in the opening dealings but none exceeded a fraction except Sugar, which rose 1%. Amalgamated Copper fell %. Railroad stocks were feverish on traffic retrusn. Pacifics, however, held at a parity or sold slightly above yesterday's close. Large

buying of Amalgamated advanced it to 72%. Sugar was less active and vibrated between 116 and 117. The increase of the dividend in Pitsburg, Chi-

cago, Cincinnati and St. Louis caused a demand for the stock and it gained 3 points. American Express, Westinghouse and N. J. Central lost a point each. Renewed large buying of Sugar carried it 3% over last night. The general account maintained a strong tone

but the demand was fed by realizing sales, which kept the advances within moderate limits. Hocking Valley, after a decline of 2%, ralled 1%, but there were reactions of 1 to 1½ in Amaiga-mated Copper, Manhattan and Pitts-burg, C. C. C. and St. L. These re-actions were recovered when the market advanced after the favorable bank statement. Realizing in Sugar carried it off a point. The realizing elsewhere was well taken and the market closed active and strong at about the best prices.

Stranger than Fiction.

It is not often that a man experiences the remarkable sensation of being struck and thrown thirty-five feet into the air by a locomotive running thirty miles an hour, alights on a wagon "Sugar became conpicuous through the aggressive cutting of Quotations by competing refiners. Raw grades de clined slightly on account of big crop estimates and other outside influences, but the full in storded and emerge tongue, is run away with by a spirited team and comes out alive. Nels Bartelson, a teamster, performed the feat today and escaped, with only slight bruises Mr. Bartelson is engaged by Con-

tractors Cape & Son and was hauling lumber. When crossing the Chicago and Northwestern Rallway tracks at Sevententh street he failed to observe locomotive 400, running wild, coming down the track. The engine struck the wagon load of lumber square in the center. Wagon, lumber and Teamster Bartelson went high into the air. Bartelson clung to the lines and went up as far as their length and came down astride the pole. The horses es-caped and started to run away. After going a block they were stopped.

A hundred men and others witnessed the accident, and believed that Bartelson had been horribly mangled. In-stead, it was found that he was alive, and when assisted from the broken wagon, he could walk. An examination revealed that the only infury he sustained was a bruised leg and arm,

Bartelson said that when he was up in the air he could look down in the top of the smokestack of the locomotive, and thought sure he was going to be killed. The locomotive was one of the largest owned by the Northwestern and was on the way from the north to Chl-cago to go into the repair shop.--Mil-

bonds. At the price realized the ten millions in bonds would be equivalent to \$11,-387,500, a substantial increase of the promised endowment.

NOVEL OCCUPATION FOR WOMEN.

"Looking for work is a most radical ure for self-conceit," says Elizabeth lamison in Everybody's Magazine. "If taken in too large doses it sometimes produces other effects not so desirable, most serious of which is a morbid self-deprectation.

'It was necessary for me to live in New York city and to carn every cent that two people would ned in order to live there. I came straight from college, with no capital except enthusiasm, and with no trade or specialty. I was de-termined not to teach. Naturally, I had my fill of work hunting, and when finally succeeded in obtaining a posi-ion I made a threat. 'If I am ever out of work again I will not look for anoth-er position. I will go into journalism.' "Now the high profession of journaiism must have a guardian angel who attempts at least to keep the reckless and unqualified from the spreading of news, for when I was ready to carry out my threat and had written two 'specials' which proved 'good news' to the city editor a piece of work actually

poked me up. "It came through a telephone from a "Will you"-buzz, snap, whizz, some-thing was the matter with the wire. "Yes!' I should back, and started
