chairman of the Tammany Hall dele-gates to the last State convention." Terrible Disaster in a Coal Mino.

H. Burrows, one of the heirs to a five nillion dollar estate, living at No. 383 Beacon street, this city, was systemati-cally polsoned until the diabolical work was discovered just in time to prolong but not to save his life. He is still alive, but it is a living death. Sus-pictons were expressed of polsoning, and upon an investigation arsenic was found in the stomach. The patient seemed better on May 7th, but the bad symptoms returned, and from that time it has been evident that the young man must die. The matter was brought to the abistrict Attorney's attention and laid before the grand jury, but in-sufficient evidence caused a postpon-ment of the case from time to time. The sick man was taken the istter part of May to '331 Beacon street, later to the Oxford Hotel, and last week was removed to New York. The motive for the polson-ing was unknown. He is now suffer-ing from paralysis, so that he can move but one muscle of one arm; and death only can relieve him. By the will of Burrows' father, his estate remains undivided until the death of his wildow, who survives him. The executors are A. S. Warner, of Albion, Wm. R. Bur-rows, the son of Mrs. Mary Elizabeth Stewart of Albion, and a wildow. War-ner is practically in sole control of the estate. William has been dissipated, and owing to his physical condition, has done little more than dabble in November, 1882, he made the acquain-Terrible Disaster is a Coal Mine. SHAMOKIN, Pa., 21.—A fire broke out vesterday in the Buckridge mine, 1,500 feet from the surface. The company bought the Greenback colliery, the ad-joining workings of which are higher than those of the Buckridge colliery. The Intention was to bore a hole 30 feet in length from the Greenback to the Buckridge colliery, and turn the creek into both colleries and by flooding them put out the fire. While the men were engaged in this work to-day the gas suddenly poured from the burning mine, and before they could escape seven of the men fell victims to the deadly gas. It was impossible to reach their bodies, as both mines were full of gas and the fire increasing. Eleven mules were also burned.

mules were also burned. Later.—The fire has not abated to-hight, although two heavy pumps have been forcing water down the slope all day. Both the Buckridge and Green-back collierles are full of gas, and a number of men on the surface have been overcome by the escaping ras. There is no possibility of the bodies being reached before to-morrow. This adely his, 21.—A special to the fress from Shamokin says: The Read-ing reached before to-morrow. Caulkins in Roch tance of William R. Caulkins in Roch-ester. The following year they enter-ed into a husiness in this city. Bur-rows with his wife and two children went to live with Caulkins, and in November Mrs. with her children left her husband. Burrows remained a Caulkins' house, except by occasiona absence, caused by dissipation. He left Caulkins' February 18th, and du not return till carried there quite sick on April 7th. While sick at Caulkins house the patient was aton April 7th. While sick at Caulkins bouse the patient was at-tacked with vomitting spells and partial paralysis, and grew rapidly worse. About this time Hon R. L. Burrows, of Buffalo, and Mrs Steward came to Boston and consult-ing physicians were called into the case. It is over a question of proper-ty that there is the greatest dispute There is no doubt Burrows places confidence in Caulkins, while he is de-cidedly ont with Warner. In justice

Fatal Bailread Wreck. STREATER, III., 21.—A Studday School excursion train with fifteen heavily loaded cars left here this morning. When nearing its destination, Kanka-kee, and when crossing the Illinois Central track, the fourth coach was run into by a train on the latter road. James Penn was killed and about a dozen others more or less seriously hurt. Two or three will probably die. The engineer of the Illinois Central elaims that his brakes refused to work. Eire,
