

MINING, BUSINESS AND STOCKS.

BULLION-BECK IS
SCENE OF STRIKE

Old Producer Encounters Rich Ore
In Territory Which Has Never
Been Explored by Company.

Information has just taken out that one of the greatest strikes ever made in Bullion-Beck stock. The company is owned by the United States Smelting, Refining & Mining company, which took the mine over last fall. At that time the general understanding was that it was done to get the low grade mining ore which is found there. There is a large quantity of this although it would not be of a commercial value to an individual. It would be of great importance to a smelting company.

Some time ago there was considerable activity shown on the local stock market in Bullion-Beck stock. Although there was considerable bidding and offering of the stock at a low price, there appeared to be no buyers. It is believed that it was an effort of the insiders to get in early.

The recent strike at the property is reported to have been made on the 300 foot level in a drift run to the south and west. It is reported to be of a good commercial value, and the drift is in a full face of the ore.

Some time ago a strike was made on the 400 level in a north and west drift. It was at that time that there was some activity in the stock. It is declared that the company has now cut through 15 feet of the ore on the 400 level, and it is of a good shipping grade. Already a shipment of 50 tons has been made, and another shipment is now being loaded.

The two strikes prove a large area of ore and will extend the life of this veteran producer for many years.

MARKET IS IMPROVING.

Daily Judge in Active List on Salt Lake Mining Exchange.

Considerable improvement both in price and volume of business was shown on the local mining exchange this morning. Although conditions have been very unfavorable on the exchange for some time, the brokers declare that it will not be long before the public is picking up some of the stocks that are now selling at prices that the machinery is worth on the properties.

Daily Judge with its new strike of rich promises was a feature on the market this morning. The machinery of stock was disposed of and bought than has been done in nearly a year. Shares to the extent of 1,000 were disposed of at \$3.50 to \$3.40. From Blossom, from which a dividend is expected this month, was lower and the market weaker. It was selling at \$1.15 and \$1.17. Grand Central was strong with no change in price. Bullion-Beck, which has been declared a likely prospect in the East Tintic district, was selling at 1 cent today. During the morning session 14,000 shares were disposed of at that price.

There was but little doing on the curb market today and Ohio-Kentucky was disposed of at 60 cents. The total number of shares of stock sold on the exchange this morning was \$29,510 and the amount represented was \$29,510.25.
