THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectively cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic. It absorbs the injurious gases which collect in the stomach and bowels, it disinfects the mouth and throat from the poison of catarrh.

All drugs sold charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges. They are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form, or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of the lozenges will soon tell in a much-improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, said: "I believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent medicine, they are really a natural and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Invitation is also extended to any member of the Salt Lake City Council of 1866-67, surviving members of the Nauvoo Legion; artillery veteran firemen; old employees of Ben Holladay's overland stage line, including William Taylor, Capt. Thomas Dobson, John Snell and any others who are still living; pony express riders and employees of that company, including Edward Covington, Thomas Dobson, Jack Melton, Wash Perkins and others; any of the old wagon masters serving prior to Dec. 31, 1865, and including George Crismon, John Morley, Rufus Ensign and George C. Eiser. Floor committee: James Hague, William W. Turner and William Colton.

NOT A UTAH CADET.

Man Who Resigned from Naval Academy Was From Another State.

The "News" this morning telegraphed its New York correspondent asking him to ascertain which one of the Utah cadets at Annapolis had resigned from the naval academy, as was reported yesterday. Investigation elicits the fact that it was not a Utah cadet who tendered his resignation at all, but a young man who was attending the school from one of the other western states. The resignation was tendered by Cadet Wm. C. Baker of Utah, had been chosen as associate edi-

NOT MEDICINE

Babies don't need medicine—older children very rarely. Better nourishment will generally set them right. Scott's Emulsion is the right kind of nourishment and the kind that will do them the most good. Scott's Emulsion contains nothing that children should not have and everything that they should.

U. S. STEEL THE BIG FEATURE.

Prices Hardened After Appearance of
Bank Statement—Closing Was
Irregular.

New York, Feb. 11.—The largest trading at the opening of the stock market today was in the iron and steel stocks, but the price variations were not wide. Extensive buying of the iron and steel stocks diminished when prices of railroad stocks began to reflect the selling under cover of the rise of Colorado Fuel. This specially advanced 2 1/2 to 32 and caused a sympathetic rally to 32 1/2 in Tennessee Coal, Federal Mining added nearly 5 points to its recent sensational rise, and Steel-Sharps advanced 1 1/2. National enameling touched 24 and National Railroad of Mexico paid, gained 1 1/2. Pressure against the standard stocks increased steadily and by 11 o'clock St. Paul and Reading were down a point. Other stocks of all classes were also declining. Tennessee Coal and Republic Steel preferred reacted to the market's last night. National Pacific Coast 1 1/2. The movement generally was narrow and became hesitating. The closing was irregular.
