intemperance, impurity, dishonesty, gambling, bribery, perjury and divorcei rottenness in our civilization. Our days may be no worse than other days but they are bad enough. We as: our-selves if Christ's tenchings and 'influ-ence are waning with the increasing centuries of time. Why cannot society cast out its own evils? "There are many in society who la-ment and deplore these evils, but so-ciety, on the whole, does not, care enough about its evils to seek to cast them out. Some day it will." allesmet Underwear

Fire at Galveston, Ind.

Logansport, Ind., Oct. 19.-Fire sup-osed to be of incendiary origin this morning destroyed five business blocks and the railroad station, besides dam-aging several other buildings at Galaging several other buildings at Gal-veston, Indiana. The loss is estimated at \$75,000. The telegraph operator at the station reported the fire and asked for help while the station was burning. He was driven away by the flames and the wires were burned, cutting off all communication. The fire department here and to Kokomo loaded apparatus on relief trains and sent them to Gal-veston, which is a town of 1.000 people, 12 miles from here. At 3 o'clock the 12 miles from here. At 3 o'clock the fire was under control.

Dead Ducks Covered the Deck.

San Francisco, Oct. 19.—The pilotboat Pathfinder had an unusual experience while cruising off the Heads the other night in a dense fog. A large flock of wild ducks, making for the harbor, collided with the mainsail of the schooner and a large number fell dead or atunned on the deck. The men at schooner and a large number fell dead or stunned on the deck. The men at the helm did not know what they were and was engaged in kicking the birds over the side of the vessel until stopped by one of the pilots, who, hearing the disturbance, had rushed on deck to ascertain the cause. Enough birds were secured to provision the larder for some time to come. This is the first case of the kind reported here. Helena, Mont., Oct. 19.—According to well authenticated reports the North-ern Pacific Railway company is not alone in its troubles with the dynamit-

Bishop of Tahiti Arrives.

San Francisco, Oct. 19.—Bishop Paul Louis Vernier of Tahiti has arrived here on his way to Paris where he will spend a vacation of six months before return-ing to his island home. Bishop Vernier ing to his island home. Bishop Vernier is the French representative of the Cal-vinistic church in Tahiti and that part vinistic church in Tahiti and that part of the South Seas. He has religious jurisdiction over 125 islands of the So-ciety group. It is said that he is likely to be appointed French governor of the islands upon the first change in the political situation.

Big Church Defalcation.

New York. Oct. 19 .- Rev. John P Peters of St. Michael's Protestant Episcopal church, has announced that the defalcation of church funds by Henry T. Edson, treasurer of the parish, who killed Mrs. Fannie Pullen and committed suicide several months ago, amount-ed to \$59,000. Of this amount \$10,000, the rector stated, had been returned to the church by the wife of Mr. Edson in making over to the church two life insurance policies. A part of the re-mainder will fall upon a bank through its liability in connection with the forgeries

Malaria is not confined exclusively to the swamps and marshy regions of the country, but wherever there is bad air this insidious foe to health is found. Poisonous vapors and gases from sewers, and the musty air of damp cellars are laden with the germs of this miserable disease which are breathed into the lungs and taken up by the blood and transmitted to every part of the body. Then you begin to feel out of sorts without ever suspecting the cause. No energy or appetite, dull headaches, sleepy and tired and completely fagged out from the slightest exer-tion, are some of the deplorable effects of this enfeebling malady. As the disease progresses and the blood becomes more deeply poisoned, boils and abscesses and dark or more deeply poisoned, boils and abscesses and dark or yellow spots appear upon the skin. When the poison is left to ferment and the microbes and germs to multiply in the blood, Liver and Kidney troubles and other serions complications often arise. As Malaria begins and develops in the blood, the treatment to be effective must begin there too. S. S. S. destroys the germs and poisons and purifies the polluted blood, and under its tonic effect the debilitated constitution rapidly recuperates and the system is

tion about your case. This will cost you nothing.

gust Greth, who for a year past has been unostentatiously working on an airship, today surprised the residents of San Francisco by sailing over their heads for two hours, directing his machine almost at will and demonstrating that in many essentials he has solved the problem of aerial navigation. Dr. Greth had previously tested his airshpi by making ascensions with the balloon held captive by a long rope, but today was the first time that he had gone skyward free. The ascension was made from a lot almost in the heart of the city, and Dr. Greth attempted to encircle a towering newspaper building about a mile castward, but found the high currents too strong for his power and then turned in an opposite direc-tion. The winds carried him ocean-ward, and for a time he hovered over the vicinity of the Golden Gate, mak-ing various successful trials of his

DIRECTED MACHINE AT WILL.

It is a Combination of a Flying Ma-

chine and Balloon-It Re-

sponded Promptly.

San Francisco, Oct. 18 .- Dr. Au

ing various successful trials of his steering gear. The currents threatened to take him out over the Pacific and he docided to make a landing on the parade ground of the Presidio military reservation, but made the mistake of letting out too much gas and he landed in the bay about 200 feet from shore. A crew of the livesaving station in the neighbor-hood rescued the aeronaut and his fly-ing machine, which sustained very lit-tle damage by the unfortunate termina-tion of the voyage.

The balloon of Greth's aerial contriv-ance is cigar-shaped and has a capacity of 500,000 feet of gas, with a lifting ca-jacity of 1,800 to 2,000 pounds. The car beneath the balloon is similar in construction to that used by Santos Du-mont, and weighs about 500 pounds. The engine is a 12 horsepower gasoline motor and the total weight carried skyward, including that of the inventor and 200 pounds of ballast, was about 1,400 pounds. For some inexplica-ble reason the mortor would not develop more than six horsepower, and Dr. Greth consequently found considerable difficulty in making headway against the currents. the currents.

the currents. He expects to make another ascension in a few days, when he will have re-paired the minor damage caused by the salt water bath and remedied the minor defects brought out by his two hours'

defects brought out by his two hours cruise in Cloudland. Dr. Greth is a native of Alsace-Lor-raine and is 43 years old. He is a graduate of the medical department of the University of California, and has been practising his profession here for a number of years.

LAND OFFICE POLICY.

Commissioner Richards Gives Out A Statement Defining It.

Washington, Oct. 18 .- Commissioner Richards of the general land office to-day gave out the following statement concerning the policy and practise of the land office in the matter of the

come from Mississippi, made several at-tempts to sell a revolver yesterday and this aroused suspicion. He was taken into custody and placed in the Clayton jail last night. STARVED OUT. He asserted his innocence, but finally,

He asserted his innocence, but finally, under severe questioning, made the re-mark: "Well, there are others in this. I will tell you more about it tomorrow." This forenoon a small fire occurred near the Juli and caused some excite-ment. After it had been extinguished Sheriff Hencken went to Williams' cell to question him and found the prisoner dead. He had hanged himself. It is thought that the excitement caused by the fice alarmed Williams into a bellef that a mob was approaching the fail to lynch him, and he quickly hanged him-seif with a sheet. His body was warm when discovered.

when discovered. when discovered. Acting on the possible clue uttered by Williams, the police are now search-ing for others implicated. The body of Mrs. Lauman was buried today.

Lake Eric Fishing Dispute.

Milwaukee, Oct. 18.-The Tuscarora Milwaukee's new revenue cutter, will leave for Cleveland tomorrow to take leave for Cleveland tomorrow to take part in the settlement of the interna-tional dispute which has arisen between the United States and Canada over the fishing in Lake Erie. Orders to pro-ceed at once to that port and to re-port to the collector of customs there have been received by Capt. Hall. The cutter will coal and then leave for Lake Erie.

A DYNAMITER ARESTED. Isaac Gravelle Taken in by North-

ern Pacific Detective.

Helena, Mont., Oct. 18.-Isaac Gra-velle was brought to town tonight by a pass of Northern Pacific de-tectives and lodged in jail on the charge of being connected with the dynamite t would whit for a time and take the Seon found I had symptoms of the uning back, so took the static t of being connected with the dynamic Last night while a watchman was patrolling the tract about 15 miles west of Helena he ran across a man digging a hole under the rails. On being detected and it cured me. I have enjoyed the best of health this stimuter, and the credit all belongs to your 'Golden' Medical Discovery.' I can't express my many thanks to Dr. Pierce for his remedy. For it did so much for me. Words can-not express how severely I suffered. "If any doubt the rhows attement let them address me, and I will take great pleasure in answering." the man ran away and the watchman fired at his twice, but missed, morning at 7 o'clock Capt. Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

and two others took the trail of the man from the railroad track and fol-lowed it 20 miles into the mountains, finally capturing the man at his cabin. He was armed with a rifle and cable. He was armed with a rife and revolver. He said his name was Plum-mer, but the men knew him to be Isaac Gravelle, an ex-convict, released from the penitentiary in July. He is the man the detectives have been hunting for three weeks, his picture having been identified as that of the man who was found at a haystack near Townsend, where 50 pounds of dynamite were found in a haystack.

withdrawal of public lands from settle-

ment: "There seems to be a misapprehen-sion respecting withdrawals of public lands from entry under certain of the land laws and suspension of final action upon certain classes of entries already made. Generally speaking, land is withdrawn from estry in order to prevent its being appropriated in a man-ner or for a purpose not contemplated

by the law. "In consequence of a proposed forest reserve a withdrawal is made of all the land that will probably be included in its boundaries in order to guard against speculative entries made for the purpose of obtaining lieu land. "Withdrawals under the irrigation act

are for the purpose of reserving the land for homestead entry—the only kind permitted by the act, and to pre-vent speculative entries. Land con-taining oil or minerals is withdrawn from agricultural entry, as mineral lands are sold in smaller quantities and at higher prices than farming lands.

"Occusionally certain areas are with-drawn from entry under the desert land act upon evidence that the land is not arid land until productive without Irrigation, which alone can be taken inder such act.

inal action is often suspended upor "Final action is orten suspended upon individual entries or a class of entries in certain localities pending an in-vestigation as to whether or not there has been a compliance with the re-quirements of the law. There is no withdrawal of land in this connection or more supponention of the law nor inter-

"In November, 1902, there was such a suspension of final action upon entries made under the timber and stone act made under the timber and stone act in Washington, Oregon and California. This suspension was made upon evi-dence of collusive entries in those states whereby individuals and corpor-ations were obtaining title to large areas of valuable timber land, whereas the law provides the entry shall be made for the exclusive use and benefit of the entryman of the entryman. "That this action did not hinder or

Interfere with entries under this act is shown by the fact that while there were 2.197 timber and stone entries made in 2.197 timber and stone entries made in the states named during the fiscal year ended June 30, 1962, there were 6.145 such entries made in those states dur-ing the fiscal year ended June 30, 1963, and of this latter number 3.544 entries were made after Jan. 1, 1963, while the order of suspension was in force, while but 2,197 such entries were made in the entire fiscal year 1962.

but 2,197 such entries were made in the entire fiscal year 1902. "As fast as the entries in these staes can be examined all of those which have been properly made are passed to patent, while the suspension continues as to the others pending a hearing in the local land office. No cancellation is made upon report of a special agent until opportunity for a hearing has been afforded the entryman."

Freight Train Held Up.

Barkeley, Cal., Oct. 18 .- Three masked men held up a special freight train from Sacramento in the stockyards from Sacramento in the stockyards near West Berkeley at an early hour this morning and robbed Firenan John Walsh and Engineer Robert Ede. When they had completed their work the rob-bers ordered the trainmen to proceed and disappeared in the darkness. They received \$10 from the trainmen. It is supposed that they are the same men who held up a saloon earlier in the evening in Oakland.

Grout Defines His Position.

New York, Oct. 19.-Ismale Enrique Aroiniegas of the Colombian diplomatic service has arrived in this city on his

way to Washington with special dis-patches containing instructions for Dr. Tomas Herran, the Colombian minister, concerning the Panama canal treaty. He also is the bearer of the text of the amendments to the treaty by the senate of Colombia and President Marroquin. The only condition on which the Colombian government is now prepared to conclude the pending treaty, he said, is the payment of \$25,000,000 by the United

conclude the pending treaty, he said, is the payment of \$25,000,000 by the United States for the advantages it would re-ceive, and an agreement to let the ter-ritory remain as a part of Colombia. "There are just as strong advocates of the construction of the canal in my country as in the United States." he said "In fact, everybody understands that it would be of some material bene-fit to us and that the relations into which it would bring us with such a great country as the United States would be of great use to a small coun-try, such as ours. The people want it, have wanted it for a long time, and know they will get it some day. "However, there is a pretty general feeling that the United States will gain a great doal more out of this canal than we, not only in the long run, but from the very start, so it is argued that while we should not exactly drive a sharp bargain, we should look out for our are interent.

that while we should not exactly drive a sharp bargain, we should look out for our own interests. You can't blaine anybody for doing that. "Should the United States refuse to accept our terms, we shall simply wait until she gets ready. We should gain by waiting, since she is at the present time willing to pay the French com-pany something like \$40,000,000 for their franchise. That expires in 60 years, and pany something like \$40,000.000 for their franchise. That expires in 60 years, and reverts, of course to us. But in waiting we should not consider the offers of any other country to build the canal, since we feel that the United States is about the only one which would stick to its treaty after it made one."

A NARROW ESCAPE.

Col. Powers Falls Between Two

Trains at Reno. Reno, Nev. Oct. 15.-Col. J. D. Powers of Louisville, Ky., president of the United States Trust company, was ser-iously injured vesterday in Reno. The special train in which he and a number of other bankers were traveling on their way to San Francisco to attend the bankers' convention broke in two just in front of the depot. Col. Powers was stepping from one coach to the other and fell between the cars. He retained his presence of mind and though a portly and elderly man, succeeded in rolling off the track just as the wheels of the following coach grazed his shoulders. His injuries consisted of a dislocation of the right shoulder, two fractured ribs and a severe cut on the left leg.

Cashier Confesses Forgeries.

Chleago, Oct. 19 .- A dispatch to the Chicago, Oct. 19.—A dispatch to the Tribune from Princeton, Wis., says: J. E. Liemer, cashler of the Princeton State bank, has been arrested today and taken to Dartford by Sheriff Ogli-vie, where he is now in jail. State Bank Examiner Marcus G. Bergh hast night stated that Liemer had confessed to forgeries amounting to \$69,000. The Princeton State bank is closed

The Princeton State bank is closed, and the Montello State bank, of which Llemer is vice president, has been or-dered by the state officials, not to open its doors for business today.

Speculation in grain, Liemer says, was the cause, J. E. Leimer came here as cashier of the Princeton bank eight years ago, and the examiners believe that the forgeries have covered a period of site verses. of six years. It is said by persons who are familiar with the affairs of the Princeton bank
