YOUNG MOTHER DIES OF SMALLPOX

Mrs. Joseph Manning Succumbs To Dreaded Disease When Babe Was 5 Days Old.

SESSION OF CITY COUNCIL.

Weber County Affairs—Death of Prominent Citizens—Wedding Bells—News in Brief.

Ogden, Dec. 31.—Only five days ago Mrs. Martha Jane Manning was blessed with her first born, and yesterday her beautiful young life was closed by death from that dreaded disease smallpox. Her young husband, Joseph Manning, to whom she was married one year ago the fifth of this month, is almost distracted with grief as are her parents and many other relatives and friends.

A feature of the sad event that is most deplorable is that it was not known she was afflicted with smallpox until after death and many of the residents of Hooper have been exposed.

The day following the birth of her baby, a rash broke out on her body, which was thought by her family and the nurse to be measles. She gradually grew weaker and the disease seemed to be serious, so yesterday morning her relatives sent for Dr. Morrell, who went to Hooper as soon as possible, but before he arrived she had died. He examined her body and pronounced her ailment as smallpox of the worst kind.

A quarantine was immediately placed on the home and those who were in it and every effort will be exerted to prevent the spread of the disease. Relatives came to Ogden last evening to view the body and the burial took place privately this morning.

Mrs. Manning was the daughter of Thomas and Martha Hardy Read. She was born at Hooper, Weber county, Aug. 29, 1884. She was a faithful member of the Latter-day Saints church, and was an active worker in the Sunday school and Y. M. C. I. association. The sympathy of the community goes out to the sorrowing family.

Ogden, Dec. 31.—A short session of the city council was held last night and routine business transacted. At the same session the present council will conclude all of its affairs and after the usual formalities the councilmen elected November will be inducted into office.

Montana Federation of Labor Rejects One Made by Manager Murray.

Butte, Mont., Dec. 30.—A special to the Miner from Helena says:

The last proposal of General Manager Murray of the Rocky Mountain Bell Telephone company has been rejected by Alexander Fairgrieve of the Montana Federation of Labor, who charges that whenever there has been a prospect for settlement Mr. Murray has raised new matters, which were not involved before. He says the proposition just submitted by Mr. Murray is one which was made while he (Fairgrieve) was out of the state, and which was raised and sanctioned by members of the union. Mr. Fairgrieve points out that he once offered to submit the whole matter to a board of arbitration, which Mr. Murray declined to do, but now the latter comes back and desires to submit the matter to such a board, of which he names two members, leaving the unions to name the third member. He says he acknowledges receipt of the last proposal, but that is all.

TAKING OF EVIDENCE IN HARDEN CASE CONCLUDES.

Berlin, Dec. 30.—The taking of evidence in the Harden case came to an end this afternoon, when the case was closed. The final pleadings will be heard tomorrow and judgment probably will be rendered by the court.

After considerable evidence from servants and others regarding the hysterical nature of Mrs. Von Motke, a physician attached to the law courts gave the expert opinion, gathered during the entire course of the proceedings, that he had not observed the least foundation for the accusation of abnormality against Von Motke.

After this statement Count Kuno von Motke himself took the stand. He declared that he had hardly slept for two months. He repeated the statement that he had habitually used cocaine to beautify his appearance, but said he was in the habit of using snuffing salts. He explained the handkerchief incident by saying that, owing to the jealousy of his wife, he refrained for several weeks from visiting Zu Eulenburg's house, although his office was in the building. After a scene with his wife one day he picked up a handkerchief belonging to Zu Eulenburg and kissed it in an affectionate manner to see whether or not this would provide an outbreak of jealousy from the countess.

Dr. Magnus Hirschfeld, who as the last trial witness, said that Von Motke was abnormal, was severely cross-examined today, and withdrew his previous statement.
