Compliment to Dentists. Of all professional men, dentists should be the neatest, and as a class they are. Those who require a grateful, refreshing, delightful aroma, while working about the organ of smell, should visit their hands in Dr. Price's Floral Riches. Its fragrance is not only as pleasant as can be imagined, but decidedly stimulating.

Just arrived, Elmore Haddie and Klipped Herring, at DUNFORD'S.

Easy Flaxen Ties.

By a process entirely his own, Dr. Price is enabled to extract from each of the truest fruits and aromatics, all of its characteristic flavor, and place in the market a class of Flavorings of rare excellence. We know Dr. Price's True Flaxen Ties will give perfect satisfaction.

FURNISHED or Unfurnished rooms to rent, single or in suite, in the Wagon Building. Terms moderate. Apply to N. Groves & Son, at their office, on the premises.

Household Goods Wanted—Cash.

Don't sell your household goods and trunks until you consult John Crane, west of Theatre. He pays the highest cash price. Co-operate as good as gold in trade.

Like a Wolf.

from the Siles Islands is the breath which has been perfumed by the aid of SOZODONT, the national beautifier of the teeth. Decay touches not the teeth which have been fortified against it by this matchless dental invigorant.

New Ideas in Medicine.

Why should it be thought incredible that consumption should be cured? Diseases considered equally fatal a century ago are now easily controlled—why not consumption? This at least is certain, that in every stage of cough, cold or bronchial affection, HALL'S HONEY OF HORMONED AND TAR has proved the most efficient remedy ever administered, and if medical opinion is taken, it is to be taken as correct. It has cured hundreds of cases of tubercular consumption.

Pike's Toothache Drops cure in one minute.

Light, airy and cheerful, centrally located, and carefully managed, the Colonnade Hotel, offers unequalled inducements to Philadelphia visitors.

Good Grains.

For fence builders, with all kinds of GRAIN, GARDEN AND FLOWER seeds, to be bought at T. C. Armstrong's grain and provision store, First South Street, near Commercial Street. Seeds warranted.

LOCAL AND OTHER MATTERS

QUARTERLY CONFERENCE

The quarterly Conference of the Salt Lake Stake of Zion will convene in the Tabernacle of this City at 10 a. m. on Friday, April 5th, 1878.

ANGUS M. CANNON,

DAVID O. CALDER,

JOSEPH E. TAYLOR,

Presidents of the Stake.

TO THE BISHOPS OF THIS CITY AND COUNTRY

We are particularly anxious to push forward our new Tabernacle, and we wish every Ward in this Stake of Zion to feel interested, and determined to do what they can until the completion.

If the matter is suitable, we hope to have a strong force of men and women on Monday morning, to rush up the remainder of the walls.

In accordance with our recent vote, the finishing of the building from its present condition is to be done by a nation, and we fully rely on every member of your respective Wards to heartily respond to this and future calls according to their ability.

In order to keep the carpenters at work, preparing the roof, etc., the committee have had to purchase these boards of lumber, which amounts to about \$500.

Will every Bishop in the Stake please make an immediate effort to raise this amount, and much obliged to do so.

H. H. HUNTER, Presiding Bishop.

High Council.

All the members of the High Council are requested to meet at the Council House, on Wednesday evening the 3d inst., at 7 o'clock.

W. W. TAYLOR, Clerk.

Regular Meeting.

Superintendent and members of Sunday School and other interested should remember that regular monthly meeting, which will convene at 7 o'clock to-night.

The Spirit of Time.

Professor Lewis will deliver his lecture on the "Spirit of Time," to-morrow (Tuesday) evening, at the Seventh Ward Melioration Improvement Meeting, at 7.30. All are invited. Admission free.

Exposition.

The Women's Exposition of today contains the usual amount of interesting matter for the special benefit of the ladies, and the leading article is an excellent editorial on "Practical Capabilities," worthy the attention of young and old.

Malignant Mischief.

Last night some malignant disposed and apparently idiotic persons broke some ornate table tops from posts in front of the residence of Mr. James Dwyer, and carried them away. The fence Mr. J. F. F. Pascoe was also broken and disfigured, probably by the same malicious parties.

Emigrants.

Elder William C. Staines, who as agent for the Chicago, has so ably conducted its emigration business at New York, for a number of years past, expects to leave for the east at the beginning of next week. All those desirous of doing business with him, in relation to emigration matters should make note of this.

The Court.

Professor Monson had a full court on the occasion of his lecture last night. The performance was varied and interesting, and there was an immense display of talent, and extensive and varied to be met upon, individually. Mr. Monson received the silver cup, and the concert was prolonged until most of the audience were tired out, and had to leave before the conclusion. It was an artistic and financial success.

Minister.

The "Harvest" Ministerials form the next attraction at the Theatre. This celebrated company will be well received at Salt Lake. They have made considerable money in Utah, and have never failed to give a good show in the States, and have attracted much of the people from leading cities.

The appearance of the company on Friday evening and on Saturday afternoon and evening.

Information Wanted.

Of Mrs. Laura W. Harris, my wife, and her mother, named Mrs. Margaret Houghton, who left this State for Utah, to visit their relatives, named Martin, some 150 miles south of Salt Lake. I am anxious to hear of them. Will be thankful for information. Mrs. Harris is deaf and dumb.

J. H. HARRIS, Box 499, St. Paul, Minnesota.

Feather Alum.

We understand an inquiry is being made for sulphate of alumina and other alums. Specimens sent to the Museum with particulars respecting them, will receive attention and be likely to find purchasers of large quantities. It obtainable at reasonable rates. Large accumulations of salts found on the western shores of the Great Salt Lake and in other localities should also be placed on public exhibition. These things are of importance as they can be utilized.

Levenside.

Number 11 will contain the eight last pages of the 14th and the eight first pages of the 15th chapter, the contents of which are as follows:

Dr. A. Ward and his secret association. Detailed description of the massacre at Haun's Mill. The mob's approach from West, where preparations are made to receive the enemy. Hinkle, the traitor, secretly enters into agreement with the mob. The leading men of the Church at Far West are carried as prisoners to the mob camp. Joseph and the other prisoners are sentenced to death, but are delivered by the bold conduct of General Doniphan, and are brought as prisoners of war to Jackson County. Affecting scenes in the families of the departing prisoners. The predictions of Joseph fulfilled. K., with the rest, arrives at Independence, Jackson County.

Public Spirited.

The Young Ladies Retrenchment and Young Men's Improvement Societies of West Jordan Ward did a public spirited thing on Saturday. The members turned out, broke up an acre of land, fenced it and planted it with mulberry trees, with a view to the encouragement of silk culture. The ladies worked with as much energy and zeal as the sterner sex.

After these labors were performed, the members of both associations partook of a bounteous repast, prepared by those who had instigated this movement, and, later in the evening, a few hours were pleasantly spent in the social dance at the new hall.

Bishop Gardner is making an effort to have the meeting house lot, eleven acres in extent, fenced and planted. The people are donating liberally for that purpose.

The Persecution in Holland.

Brother J. H. Heman has received a letter from his wife, who resides in Amsterdam, Holland, which gives some details of the recent disturbances there. At one of the meetings some unruly persons created great noise and confusion, broke the windows of the hall and the benches. They also abused and struck some of the Saints, women as well as men. There was also a great and turbulent crowd on the outside, in front of the door, and the brethren, in order to reach their homes in safety, had to escape by the rear.

The following Sunday a meeting was held in the house of one of the brethren, when similar scenes were repeated, and the crowd who had gathered threatened to stone Elder Scuttler if he made his appearance on the outside. A man whose wife is a member of the Church took an active part in stimulating the people to acts of violence.

Wasatch Geology.

It may be remembered that some time ago, we published an account of the examination of some very perfect specimens of fossils from limestone at Pascoe's quarry, near the Warm Springs. Professor Meek, of the Smithsonian Institution, had determined that the limestones of that range belong to the lower carboniferous series. This was considered interesting geological information, as that quarry may be regarded as a base of operations by students of the geology of the Wasatch range. We are also informed that lime made from the limestone of that quarry is an excellent and exceedingly pure calcic oxide, which accounts for its popularity among the smelters. Picked specimens of the rock itself are almost entirely dissolved in hydrochloric acid, leaving but a small residuum. As a source of carbonic acid gas for "soda water," it could be used with as great advantage as some of the marble imported and used for that purpose. A natural soda water obtained from the same location, and which could be introduced here as a beverage with advantage to the consumer and profit to the proprietor.

The Will Finds the Way.

J. M. Pierce writes as follows from Springfield, to illustrate what a man of limited means can do when he is possessed of the will and determination:

"Brother Numan Binkley, of this city, on the 15th of November last, started with an ox team for St. George, to perform ordinances for the dead, taking with him a daughter and son. He had only \$10 in money and 25 gallons of molasses, which latter he exchanged on the way for 20 bushels of wheat. He sold eight bushels at one cent per pound, to get store supplies, taking the balance with him for bread and temple offerings.

He spent three days in St. George, and arrived in St. George on the 7th of December. Returning, he arrived at Springfield on the 14th of January. While in St. George he spent five weeks in performing ordinances for the dead, in the Temple, attending to 553 baptisms, and to 553 endowments. Since his return he has started with an ox team for Salt Lake City, on the 19th of March, with temple donations worth \$100, and has arrived in Salt Lake City on the 14th inst. He was performed in 45 traveling days, with an ox team, a distance of nearly 700 miles, as he went via St. George, or through Sandpits.

Returned.

Elder Job Smith, who has been on a mission to California, returned home on Friday evening. His health is somewhat feeble.

Death of a E. E. Magnate.

Mark Hopkins, one of the builders of the Central Pacific Railroad, a California capitalist of note, died of apoplexy, at Yuma, on the morning of March 25. He was a native of New York State, and was 64 years of age.

The Snow Slide.

The Territorial Enquirer publishes details of the snow slide which occurred in Payson Canon on Tuesday, as heretofore mentioned in the News. The two men who were killed, James Betts and David Powell, were two of a party of seven engaged in felling trees for railroad ties, on the side of a mountain. When the first tree toppled and struck, the snow loosened for several hundred yards around and then came a great rush, a tearing of trees, and the unfortunate men were hurried out of this sphere of life.

Land Surveys.

UNITED STATES SURVEYOR GENERAL'S OFFICE, Salt Lake City, Utah, April 1st, 1878.

The following township plats with descriptive lists, showing the exterior and sub-divisional surveys executed by Messrs. Bailey & Burdell, United States Deputy Surveyors, were this day filed in the local Land Office in this city, viz:

Township No. 20 south, range No. 15 west.
