For he said she would never bears to pronounce either name. It would seem that some parents ran-anck the four corners of the globe for odd names for their children. from some of the returns brought in by census takers and tax assessors in their travels. Every popular novel, every play, every public man and wo-man, the Bible and even the Inventive genius of the parents are drawn upon to furnish names good enough for the new baby, and sometimes the result is alarming. alarming

Almost as bad as giving the child a Almost as bad as giving the child a name that will burden it all the days of its life, is the habit of substituting pet names for the real once in many families. A grown woman with chil-dren of ber, own is still called Babe by her friends, and that term is also ap-plied to a neighbor of hers who is a staid man with a family. If there is anything worse than throwing away a good name for a poor one, it would be hard to find. your son will rise up and call you biersed for remembering. There are so mady protly names for girls and sensible ones for boys that it is astonishing we don't use them more. Amy, Cecella, Mary, Elizabeth, Gerirade, Annabel, Florence, Majorie, Margaret, Jean, Anne, Eleanor, Bea-trice, Kntherine, Ida, Mildred, Annette, Jessie, Rose, Frances, Agnes, and hosts of other beautiful names will be ap-preciated by the girls when they are old enough to understand the fore-thought of their parents, while ugly names are despised for ever. How do the names given above sound beside Goldie, Flossie, Coral, Birdje, Donna, Tootsle, Vera, Hazel and Mossie? Of course while the girl is little, Birdje isn't so bad, but she is bound to grow up one of these days, and may weigh 200 pounds. Just think of a Birdje weighing 200 and what she would have to endure from heartless, people who joked about her inappropriate name. But Eindie and Mossie are noth-ing compared with Rodorah, Evondah,

IDESERFCT FYERA Imodate, Winnebelle, Vanessa, Alma-dine and Cellenelle. By all odds, man-ufactured names are the very worst. And when the last name is a com-mon one, the trouble is still further increased by giving the child anything but a distinctive name. Donaid Smith and Malcom Jones will hardly have trouble with their mail when they grow op, while Mary and Join must submit to getting their letters fingered by every other Smith and Jones in the country unless the exact address is placed on every letter and paper. John is a fine name for a boy, originally, but not for the Smith boys. They need something that will enable them to save trouble in court and the post odice when they grow up and Smith and Jones are not the only common names by any means. In some com-munities the names that are as com-mon as dirt are not heard 50 miles away, so use a fift, care. Some parents may not believe it, but a good name heigs the child won-derfully. Emily, Nina, Amy or Agnes shows the little girl her parents loved her much better than if they had chosen Nancy, Huidah or Prudence for her name. To call a hoy Ezekiel or Amaziah or Romalus is to heap up trouble for him on the playground. In social life and everywhere as long as he is burdened with it. CHEST PRESENTED BY QUEEN ELIZABETH.

The picture shows a big chest that was once the property of Elizabeth of England. It is now in the possession of Theodore Raymond, Jr., of Springfield, Mass., who is a lineal descendant of Margaret Willoughby, maid of honor to the Virgin Queen, by whom the chest was given. The exterior is covered with rude carving, and the inside is decorated with many figures drawn in black ink. There are several of these chests in existence, but it is believed that the one in Mr. Raymond's possession is the only Elizabethan relic of the kind in America
