ter of a mile wide crossed the south-  
corner of the county last Satur-  
night, blew down several houses  
scattered fencing and tore up  
trees in its path. Two boys  
were killed at New Burnside; and a  
family struck by lightning,  
of whom are dying. Whole  
flocks of sheep were blown away,  
all the peach orchards in the  
vicinity of the storm were uprooted. It  
killed 20 or more people were  
killed, but of this there is no definite  
evidence.

Colene, Ka., 12.—A wind storm  
at 10 o'clock last night, 12 miles  
north of Abilene did a large amount  
of damage along the line of Dixon  
and Clay Counties. Thirteen houses,  
barns and stables were blown down,  
several persons injured, and one lit-  
tle girl killed. The small village of  
Clay County is almost  
entirely destroyed, every house but  
one being blown down. It is also  
reported that Wakefield, in the  
county, suffered severely. The  
storm was accompanied by rain and

Frederick, Pa., 12.—A fearful  
storm swept over this town to-  
day, demolishing 86 oil rigs and  
buildings, and deluging the  
town, causing great loss of  
property.

Elly Falls, Ka., 12.—A severe  
storm passed over this section  
at 11:45 last night, doing con-  
siderable damage. Marion Lewis'  
stable was unroofed, and the  
church was unroofed, and the  
walls partly blown down; the  
first church was unroofed; a new  
one in process of erection was  
blown down; three freight cars were  
off the side track; a large  
number of other buildings were  
more or less damaged. About  
fifteen west of town Allen's school  
and two farm houses were  
blown all to pieces, and one man  
killed but not dangerously.

Evening, Ka., 12.—The storm  
last night did very little damage in  
this town, but out on the Kansas  
road the damage was heavy.  
Ten miles west of Clay Cen-  
ter three cars were blown from the  
over a bridge into the creek 25  
feet below. The cars were badly  
damaged, and C. W. Gordon, com-  
municator, Mrs. Giff and her  
daughter, M. J. Reagan, con-  
ductor, Sheldon, express messenger,  
A. Twelch, mail agent, were  
injured; it is thought no one  
killed except the little girl who  
is thought to be internally injured.

Easton, 12.—Private advices  
from Cruz say yellow fever is  
prevalent. The authorities are try-  
ing to conceal the fact, and phys-  
icians and newspapers there will  
not account of the number of  
cases occurring. The fever is re-  
ported to be of an intensely malig-  
nant type.

Louis, 12.—Advice from the  
Territory say that Benjamin  
Porter, private secretary to Chief  
Justice and brother of Gen. Porter,  
commander of the Creek  
war, was found dead in the  
river in Okmulgee yesterday  
morning, shot through the heart.  
His death was accidental  
result of a quarrel with a  
roughs carousing around  
drinking revolvers the night be-  
fore.

N. Y. 12.—There was much  
excitement during the examination  
of Sleighter, member of the  
union, charging the shoot-  
ing of Hutchinson, by saying he  
gave fifty dollars for every  
man who shot a striker whom somebody  
killed. Though not charged  
with shooting, he was refused  
a warrant was prepared  
for Sleighter, charging murder.

B. Hazen alleges that  
he offered him a reward for  
the murder of Hutchinson. Im-  
mediately and Law have been  
arrested as three leaders in all the  
trouble that have followed the intro-  
duction of non-union men in the  
iron works. Winestone  
arrested once, and Imeson  
once each, on a charge of  
non-union men.

Ark., 12.—The government  
ordered the confiscation of \$4,000

worth of diamonds, claiming them

Kansas City, 12.—In the United  
States Circuit Court to-day, Justice  
Miller delivered an opinion in the  
oleomargarine case, argued two  
weeks ago. The decision is adverse  
to the oleomargarine company.  
The case briefly is as follows: John  
Bronaia, agent of the Dairy Com-  
pany, Louisville, Ky., was arrested  
for selling oleomargarine, which is a  
misdemeanor under the Missouri  
statute. The case was brought be-  
fore the United States Circuit Court  
under *habeas corpus*. In the opinion  
the court holds its jurisdiction is  
only in case of the violation of the  
Constitution or a law of Congress,  
and does not cover the present case;  
that it is a case for the State courts,  
and the prisoner is remanded. The  
petitioners urge that the statute is  
illegal because it prohibits the  
manufacture and sale of an article  
which is patented under the United  
States laws; that it interferes with  
inter-State commerce, and nullifies  
the value of certain legitimate prop-  
erty. The court maintained that  
the right under the patent laws is  
simply protective as against  
competitors; therefore, the statute  
in question is not antagonistic.  
Second, it is not a restriction of  
commerce between the States, but  
concerns only traffic within this  
State. Third, it does not destroy  
the value of property, but simply  
punishes the offender under the sta-  
tute. The court acknowledges the  
petitioners' proof of the wholesomeness  
of oleomargarine, but the case can  
be considered only upon the ques-  
tion of jurisdiction. Regarding the  
petitioners' claim that the statute is  
contrary to the principles of the con-  
stitution of Missouri in prohibiting  
traffic in a wholesome and useful  
article, the court says this position  
appears sound, but like the previous  
question cannot be considered in  
this case.

LOUISVILLE, 12.—Major J. M.  
Wright, General Manager of the  
Southern Exposition, received to-  
day the following letter from Presi-  
dent Arthur:

My Dear Sir.—I trust that my delay  
in answering your communica-  
tion touching the proposed Southern  
Exposition at Louisville in August  
next has not been misinterpreted.  
It is no wise attributable to lack of  
interest in the undertaking to  
which you have attracted my atten-  
tion. That undertaking, on the  
contrary, deserves the approval it  
commands, and will receive my per-  
sonal and official encouragement. It  
seems to me, indeed, that its impor-  
tance to the whole country, and  
especially to the South, can scarcely  
be over-estimated. Such exhibi-  
tions have come to be among the  
most marked features and most in-  
structive agents of our modern civil-  
ization. They enhance the dignity  
of labor, and show to both labor and  
capital how inextricably their inter-  
ests are interwoven. To elevate  
the standard of industrial attain-  
ment and give fresh and enduring  
impetus to inventive genius  
and skill, no time was ever more  
auspicious than the present, for  
such an enterprise, nor could it  
find a home in a more fitting spot  
than that which has been chosen  
for it. You are not misled by en-  
thusiasm; you but speak words of  
truth and soberness when you say  
the South has entered upon a new  
era, in which, as I believe, it is  
destined to display in the development  
of its marvelous resources, such zeal  
and energy as has never yet been  
exhibited in any region of our coun-  
try at any period of our National  
life. The proposed Exhibition will  
disclose how vast a field the South  
now offers for every phase of indus-  
trial effort, in mine, field, factory,  
everywhere, indeed, where activity  
and skill can find room for employ-  
ment; and the influences of your  
noble undertaking will by no means  
be limited to its more material con-  
sequences. It will assist in quench-  
ing the spirit of sectional antago-  
nism already by God's blessing well  
nigh extinct. It will bring the peo-  
ple of the land into more intimate  
acquaintance and sympathy. It  
will bind them together in closer  
devotion to the sentiment which  
now dwells in every patriotic breast,  
"One Union, One Constitution, One  
Destiny."

I am, very truly yours,  
(Signed) CHESTER A. ARTHUR.

Oh, My Back!

That's a common expres-  
sion and has a world of  
meaning. How much suf-  
fering is summed up in it.

The singular thing about  
it is, that pain in the back  
is occasioned by so many  
things. May be caused by  
kidney disease, liver com-  
plaint, consumption, cold,  
rheumatism, dyspepsia, over-  
work, nervous debility, &c.

Whatever the cause, don't  
neglect it. Something is  
wrong and needs prompt  
attention. No medicine has  
yet been discovered that  
will so quickly and surely  
cure such diseases as  
BROWN'S IRON BITTERS, and  
it does this by commencing  
at the foundation, and mak-  
ing the blood pure and rich.

Wm. P. Marshall, of Logans-  
port, Indiana, writes: "My wife  
has for many years been trou-  
bled from pain in her back  
and general debility incident  
to her sex. She has taken one  
bottle of Brown's Iron Bitters,  
and I can truthfully say that  
she has been so much benefited  
that she pronounces it the  
only remedy of many medi-  
cines she has tried."

Leading physicians and  
clergymen use and recom-  
mend BROWN'S IRON BIT-  
TERS. It has cured others  
suffering as you are, and it  
will cure you.
