"SPOTLESS TOWN" REFORM SLOGAN

Health and Fire Departments Working for the Cleaning Up of the City.

EXPECT TO WIN ELECTION

School Improvements Contemplated—Judge Gunnell Wants Work for Boys and Girls—News Briefs.

Ogden June 22.—"Spotless Town" is the slogan that has been adopted by the health and fire departments in their crusade for cleanliness in Ogden. These two departments renewed their work this morning in ordering a general clean up of the city, particularly in the business district.

Since the recent investigation of the condition existing in the rear of many buildings as being undesirable from the sanitary point of view as well as dangerous from fires, vigorous steps have been taken which in some cases may result in prosecutions. The attention of many citizens has been called to the filth that menaces the city, as well as to the frame buildings, which are nothing more than fire traps, and unless the conditions are remedied several arrests may follow.

The fire chief and the sanitary inspector with the aid of the police are urging the immediate action of the merchants in cleaning up their premises on account of the near approach of the Fourth of July. Notices have been mailed to all those having property in the business district, calling their attention to the conditions and giving them one week to remedy the same. If no notice is taken of the warnings the offenders will be brought before the court and a heavy fine imposed.

SCHOOL BOND ELECTION.
The action of the board of education in setting July 10 as the date upon which the taxpayers of Ogden can vote upon the question of bonds for a new high school has been commended in every quarter of the city. That the election will carry by an overwhelming majority is conceded by those who are in a position to know.

Since the donation of a \$25,000 site for the proposed high school by Mr. and Mrs. Fred J. Kiesel only \$75,000 will be voted for upon the bond question. With part of this sum it is proposed to remodel the grade schools and connect them with the sewer, thereby insuring the sanitary conditions.

So confident are some of the prominent educators of the city that the election will carry and work upon the new building will start this fall that it is proposed to erect in the building a handsome tablet in memory of the donors of the site, Mr. and Mrs. Kiesel.

WANTS WORK FOR BOYS AND GIRLS.
Judge Gunnell of the juvenile court has taken steps toward the establishment of a bureau for the purpose of securing employment for boys and girls who have wandered from the straight and narrow path.

According to Judge Gunnell idleness is the prime factor in causing the children to get into mischief and he thinks that if some effort was made to secure positions for the boys and girls that it would be a great benefit to the community. It would also mean the cutting down of the list of the candidates for the State Industrial school.

Judge Gunnell has asked for the cooperation of the business men and residents in the work. All those who

Probation officer John Barton came into court with three boys against whom he had filed complaints for malicious mischief. The boys were each put under oath and interrogated by the court concerning the offense charged against them, from which it appeared that they had stolen eggs from a barn and had been throwing them at passersby. The judge gave them each a severe reprimand, and committed them to the custody of their parents, at their homes, requiring that they report to the probation officer every 10 days, until next September. If the report of the probation officer is then unfavorable, they will be called before the court and dealt with; and if it shall appear that their parents have no control over their children, and they appear incorrigible, it is very likely that they may spend a few years at the reform school, for it seems to be the determination of the court, as well as the probation officer, that cases of delinquency and incorrigibility will have to grow less in Beaver county.
