BREVITIES.

A number of Parisian musicians propose to abolish the drum.

One-fourth of all the privates in the army desert every year.

The average cost of railroads in the United States to this time is set down at \$44,225 per mile.

Speculators succeeded in bubbling springs, buildings in stone and cash in everything.

According to Boerhave, the healthiest children are born in the months of January, February and March.

Speaking of the danger of catching small-pox by handling greenbacks, a country editor congratulates himself that he is safe enough.

The Brennan (Texas) Times announces that 1,000 British farmers are expected to arrive there next October. Very doubtful.

"Married people should study each other's weak points as skaters look out for weak parts of the ice, in order to keep off them."

At Fowler's Patch, Penn., the miners have lately burned down the school-house because the schoolmaster insisted upon the children's coming with clean faces.

"Westward the star of empire takes its way." New York, which in 1840 had forty representatives in Congress, as against five from the States of Illinois and Michigan, now has but thirty-two against thirty-two from these same States.

One hears in every capital in Europe complaints that the American ladies take the reading rooms of hotels for conversational purposes and render it almost impossible for European travelers to use what to them is the most indispensable thing about a hotel.

In the advertisement of a farm for sale in Farmington (Ct.) a remarkable fact is stated, viz., that no deed was ever given for a portion of the land it having remained in the same family 332 years. The possession has been continuous from the original purchase of the Indians.

"Is Miss Binkling at home?" asked Mr. Sanders of a neighbor who answered the ring at the door. "Yes, I believe she is, sir." "Is she engaged?" "An' is she engaged, you say? Faith, an' I can't tell ye, sir, but she is engaged. Mr. Vincent has just been in, and he has not seen the like of him, an' it's engaged I believe they are, sir."

Rev. Dr. T. M. Eldy, who succeeds Brother Newman as pastor of the Methodist Church in Washington, is a Hoosier divine of spare figure, of indignant just and a radical of the radicals in politics. He is best known to the Methodist body as the editor of the Methodist organ at Chicago for a long term of years. Lately he has been preaching in Baltimore.

A. M. Thomas, of Council Bluffs, has succeeded in making both sugar and syrup from the sap of black walnut trees. A specimen of the latter would readily pass for fine quality maple syrup. It is about as thick as ordinary store syrup, but its flavor is vastly superior. Thomas obtained two gallons of sap in ten hours from a walnut tree which is only one foot in diameter and about forty feet high. He thinks the walnut tree will yield as much sap as maples, while their fluid is one third richer.

The New York Commercial Advertiser advises its readers that, as a general thing, attempting to flag editors is an unprofitable business. Shoveling off snow or driving a charcoal wagon for a living pays better in the long run. A hostile visitor to an editorial sanctum usually finds that the best side of the building for him to be on is the outside. We have heard of individuals equipping themselves and approaching the editor for the purpose of "cleaning him out," but they have always gone away with the conviction that they were born for some less active pursuit. This discouraged, such intruders are daily diminishing in numbers.

By means of improved machinery the cost of manufacturing sewing machines in the immense numbers that are now called for, has been reduced to the lowest figure. Each piece of a sewing machine is now made by a special machine managed by a workman who does no other kind of work. He has become an expert adept in his own particular branch. It is safe to say that the average machine costs the manufacturer but \$12 for the machinery and iron frame. The wood portion, the table in the plain machines, and the box in the cabinet, do not cost more than \$3 and \$10 respectively. —Druggists' Journal.

A correspondent of the London Field, writing from Australia, says that about three years ago a Mr. Robinson turned out thirteen wild rabbits on his run, and now \$7,000 have been spent in trying to get rid of them. There is said to be over \$50,000 of them in the district, and they are spreading all over the

country. A company is about forming to kill and preserve them for exportation. Two thousand and four hundred rabbits were killed in one day by a party of gentlemen with guns, and they were all destroyed, not one of them used to come to the dealers to kill for themselves, and so help to destroy them. It is said that over 100,000 have been killed, and still they appear as numerous as ever, and all taken from thirteen rabbits, in a little over three years. Moral—if you have any rabbits, don't turn them loose.

EASTERN DISPATCHES.

BALTIMORE, 29.—The frauds committed by J. A. Thomas, packer, who was indicted some days since, amount to about \$200,000. It is proper to state that A. Thomas & Co. have no connection whatever with the firm of J. A. Thomas & Co.

WASHINGTON, 29.—The secretary of the treasury, to-day, telegraphed the collector of customs at Brownsville, Texas, revoking the order previously given forbidding the clearance of vessels with goods from that port for any point north along the Mexican border. This matter was discussed in the cabinet to-day, and a telegram was sent after the secretary came from the cabinet meeting.

The following changes have been made in stations and duties in the quartermaster's department: Lieut. Thomas Tomkins, deputy quartermaster, is ordered to relieve Lieut. Col. S. C. Halliburd as chief quartermaster of the department at Jeffersonville, Ind., relieving Capt. C. H. Hoyt, who is assigned to Fort McPherson, Neb. Captain E. D. Baker is assigned to duty as depot quartermaster at New Orleans. Captain E. D. Baker is assigned to duty as depot quartermaster at New Orleans. Captain E. D. Baker is assigned to duty as depot quartermaster at New Orleans.
