DESERET EVENING NEWS TUESDAY NOVEMBER 16 1909

1111.000 has been moured by the American" party, refuses to stay boried. From all appearances two sections will have to be recast and a number of holes plugged up in the bottem, before the property owners can connect with the interal sewers which ren into it.

The sewer muddle came up before the city council again tast night in a communication from City Engineer George O. Chanoy in which he reports that it would cost \$4,000 to repair the sewer so that the cleaner could that if would cost the cleaner could the sewer so that the cleaner could predition of expending this much properties of expending this much more the council doubled to prolong the seminary as much as possible and last if over for two weeks. In the mantime the property owners will be refased permits to connect with the sever multi the further investigations of the engliseer are reported to the constit. It is proposed now to attempt to get a cleaner though the sections of the sufficient and Seventh South strets there the greatest difficulty seems to be. These sections are probably broken and have suink. In other places the sand has accumulated on the bottom of the sever to the septim of three or four inches show-ing there are probably some holes in the bottom of it. WANTS THROUGH INSPECTION. WANTS THROUGH INSPECTION.

WANTS THROUGH INSPECTION. When Change presented his report rialing that it would cost \$4,000 to repart R. Councilman Hall said, "If a will cost that much to fix it the streng must be in a serious condition, believe that it would be wise to make further investigations into the pices where the cleaner will not pass and see just how bad it is. If neces-ary T believe that we ought to dig down and have the sections repaired, before any connections are made with the interal severs or we might find it to hat to do anything." Touncliman Hodson said that the seven had here promised for two years and hair and that some action ought to be taken to but the sever in desard a half and that some action ought to be taken to but the sever in desard ought to be passed through the seven in Hodson said. "In the real difficulty located before any more money is spent." Tounchan hod over two weeks and the matter be haid over two weeks and

Conneliman Pernstrom moved that the matter be inid over two weeks and that in the meanime the city en-glizer be authorized to proceed with the investigation and pass a small chare through these sections and resort back to the council the real confinement Hack, with the assis-tane of President A. J. Davis, at-impost to hold up the contract which the swarded to Strange and Maguire, the underbid P. J. Moran, the official minator, for the paving of east field south street for \$147.559.69. An der was made to lay it over a week, in mathe to was presed for the it was made to lay it over a week, finally it was passed for the munt's approval

mean's approval. The James Kennedy Construction empany was awarded the contract for mer extension No. 225 for \$101.832.10 mis sever extention No. 228 for \$17,-(40.17.Zerbe & Walker were given the mittact for the installation of a weir in City Creek at the cost of \$500.

THOMAS M. SCHUMACHER.

Thomas M. Schumacher has just been named as vice president in charge of traffic for the Western Pacific, attached to the general offices of the company in San Francisco. This announcement was received with marked pleasure by the many friends of Mr. Schumacher in this city, where he was known in a wide circle of acquaintances while acting traffic director for the Oregon Short Line railroad, a position to which he was appointed in the summer of 1901, continuing with the road in that canacity until his next step up took him to Kansas City, which point he leaves in a few days to take up his new duties in San Francisco.

Mr. Schumacher's vallroad experience dates back to 1879, when he entered the service of the Atlantic and Great Western as telegraph operator. His advancement was rapid. Among the higher positious he has held were these of vice president and general manager of the Continental Fruit & Express company, general agent of the Union Pacific in San Francisco, acting traffic director of the O. S. L. in this city and his present position in Kansas City and now his next step up the ladder into the general offices of the W. P. En route to his new location, Mr. Schumacher will probably spend several days in this city shaking hands with old acquaintances.

Joseph Benzon as meal inspector was cil asking that the following district be confirmed by the council. ennexed to the city: extending from the city limits on the south to Tweifth South street, and from Seventh to Elevconfirmed by the council. The vagrancy ordinance was amend-ed as suggosted by the city attorney and approved so that the police will no longer have an excuse for allowing women to practise their avocation on the streets, from doorways or any other place. The amendment was adopted. A resolution was passed last night in-structing J. W. Mellen to place fences about the gravel plus that he has leased Both communications were referred to the communications were referred to the committee on municipal laws, engineering and the city attorney as-sociated. THE ROUND OF THE THEATERS

day evening in "The Yankee Prince." ORPHEUM-It was an enthusiastic welcome that greeted the big city quartet, and Henry Clive and his petite assistant at the Orpheum last night, for the return of these sola promised nothing less than two ea-tertaining features in the week's bill. Edra Aug, whose name is spelled this week with the big type, is different from the monologuist of the ordinary run. In presenting "Types," she has selected three characterizations which give her fine opportunity to "uncork a bottle of wit" that sparkled and bubbled and kept everybody bappy for the short time she permits herself to be in front of the drop. Once as a chorus girl, again as a German do-mestic and then as a budding anisteur in "vodeyeal"---in all three she was a hit.

hit. Henry Clive is the one individual who can offer a bit of pseudo legerde-main and psychic tomfollery and suc-ceed with his audience." The stage carpenter avers that Clive "doeen't do nothing, but it's the way he does it" and the jackplane artist is pro-bably right. The assistance rendered by May Sturgis Walker is not nuch, except that she is a dainty little creature and adds not a little to the picture. Clive doesn't need to make his act new anywhere, to be welcomed back.

back. The Big City quartet is in a class of its own, created by itself. The Orph-eum has never offered a musical num-ber more pleasing. The artistic man-ner in which the tuneful songs are handled is a constant delight, and, happily, the "Old Oken Bucket" with its "living pictures" is not omitted from the encore numbers. The singers were forced to return many times last night.

SOURA TONIGHT—All roads this afternoon and evening will lead to the tabernacle, where the famous "March king" and his band, alded by their soloists give two rare concerts During the evening event, the full tabernacle choir and organ will be heard in con-junction with the band in two numbers. THEATER—The advance sale is const forward today for the George M. Cohan engagement which opens Thurse day evening in "The Yankee Prince."

The theater was filled almost to ca-pacity Monday night, by a disoriminat-ing audience, who not only enjoyed the play, but the music produced by the Colonial orchestra, several of whole Colonial orchestra, several of w numbers were roundly applauded.

. . .

GRAND-The presentation of "The Great Divide." by the stock company at the Grand, with the new leading man, Walter McCullough and Blanche Dougias in the leading roles, pleased a large audience Monday evening. The play has meaned transition possibilities, is well staged and is cleverly played. It is distinctly western arid depicts the wild and rough. The story is of Philip Jordan (Ariing Alcine) and his stater Ruth (Miss Douglas), in the western desert struggling to save a reinmant of their fortune. Philip is one night and leaves his sister alone, drushen men break that the cabin over high after Philip leaves, three drushen men break that the cabin over high after Philip leaves, three drushen men break that the cabin over high even (McCullough) as the one of the three propose a dice game for the possession of Ruth, she pleases with Ghent to save her from the oth-tory off one of the men, a Mexican divide the state her him the the one of the other. A LITTLE RED SPOT Novel Experiment by Which It May Be Made to Disappear.

A peculiar feature about poslam, the new skin discovery is that no one is asked to buy it without first sending to the Emergency Laboratories No. 32 West Twenty-fifth street New York City, for an experimental sample and applying same to an affected part of the skin, about the size of a allver dollar. It will clear the spot so treated in twenty-four hours-a remarkable visual demonstration of its powers.

Where posiam has been mentioned principally in connection with the cure of eczema, the most stubborn of skin of eczema, the most stubborn of skin diseases, it must be remembered that when used for itch, hives, pimples, blotches sone, itching feet, scaly scalp, chafing of infants and similar minor skin troubles its action is more pro-nounced, results being seen after an overnight application. As only a small quantity of posiam is necessary to our such cases, a special fifty-cent package, usually sufficient, has been placed on sale at the Schramm-John-son Drug Co. and other leading drug-stores in Salt Lake City and through-out the country. out the country.

by reaching the standard, Anorher act narrow by reaching the standard demanded by Orpheum patrons was that of Walter Lewis and company, "A Baby Grand." It is perhaps a comedy playlet, though this can hardly be stated with any degree of certainty. A striking feature of the week's bill is the orchestra's number. Mr. Wethe has selected Rossini's "William Tell" overture and it is played in finished style. Wagner's "Lohengrin" selection is given luring the intermission and was only marred by the almost count-less number of thisty patrons who de-light in the habit of disturbing others on leaving the house and returning at every opportunity. The kinodrome, fortunately, is improved over last week. week.
